Welcome, Jungkyoon Na

Would you like to migrate a legacy system account?

Welcome to SAM!

The page you are on now is your 'My SAM' page. This is the first page that you will see when you login. From here you can access the functionality that you need to do your job.

If you had an account in CCR, EPLS, or FedReg, you should first migrate your permissions from your old account to your new SAM account. Click the "YES" button above to begin the process. Please note that all entity registrations (such as your CCR and ORCA registration) and records have already been migrated from the legacy systems to SAM.

Along the left side of the page are your navigation links. These links give you access to different parts of SAM. As you gain permissions in SAM, new ones will appear. These links are grouped by category.

Click on a category to see the related links.

"Register/Update Entity" - Links under here allow you to manage your roles. You can request new roles or manage the ones that you have.

"Manage Entity" - Here you will find the links to manage your entity registrations (formerly CCR, ORCA or FedReg registrations).

"Data Access" - If you need access to extracts or want to view sensitive data (such as TIN or banking information) through search, this section will contain all the information you need to get started.

Once again, welcome to SAM. If you have any questions or issues click the "SAM Help" tab above for training materials, FAQs, and SAM Help Desk information.
