### Account Registration

Choose Account Type

#### Individual Account Details

**Choose an Individual Account**

- \* If you need to perform tasks such as register your entity (legacy CCR/FedReg and ORCA functionality).
- \* If you need to create and manage exclusion records (legacy EPLS functionality).
- \* If you require CCR Tools type of functionality to view non-public level data for entity management registration records and exclusion records.
- \* If you are the only person in your entity who needs access to the extract/web service.
- \* Unless you know you need a system account, you should create an individual account.

Once the account is created, you will have the opportunity to associate yourself with either a federal or a non-federal entity. This can be performed by either registering your non-federal entity, migrating your roles from legacy systems or by requesting roles with an entity.

Click the "Create an Individual Account" button below to begin.

#### System Account Details

**Choose a System Account**

- \* If the account involves system-to-system communication or you are automating your pull of the data.
- \* If multiple people in your entity need access to the same extracts/web services. You may have up to three POCs on each System account.
- \* You will not be able to request roles with an entity.

\* You **cannot** register an entity or manage exclusion records with a system account. This account is only for system to system communications.

In SAM, access to data is gated by Functional Area and Sensitivity Level. Once you have been granted access, you can access the respective data packages via any protocol and file formats in which they are distributed. It is recommended that a SAM specific email address be established for all communications.

Click the "Create a System Account" button below to begin.

**Welcome, BYOUNG WOO LEE**

Would you like to migrate a legacy system account?

Welcome to SAM!

**Notice for all registered users:**

The 2012 North American Industry Classification Standards (NAICS codes) are now active. As part of this change, the Administration (SBA) has been reviewing and updating its table of size standards. Size Standards changes have taken the following dates:

1. October 1, 2012
2. October 24, 2012
3. January 7, 2013

Impact to you:

1. The NAICS you selected in the Assertions section of your registration will not be affected and no action is needed the next time you update your record, you will be required to update the NAICS to ensure that they are in accordance with the 2012 standards.
2. The NAICS lists to which you certified in your representations and certifications will be updated as follows:

If the description of the NAICS has been changed, you will now see the 2012 version of the description in the table. If the size standard itself has been changed, and this affects the "Yes" or "No" answer (Small or Other Than Small) on 52.219-1 and 52.212-3, SAM will place an exclamation point (!) next to the "Yes" or "No" answer to show that it should be updated the next time you update your reps and certs the answers will be displayed as per the 2012 standards, so you can certify and the exclamation points will be removed.
