Greetings!
It is my great pleasure and indeed an honor for me and Oriental Press to present this latest edition of the “Seoul Survivor,” the ever-popular orientation guide prepared by the American Forces Spouses’ Club each year. This year’s edition for 2014 - 2015 marks the 28th consecutive year of its publication, and we – Oriental Press have been ever so proud to have been partner to its existence for 20 of those years.

But there are more things about the new Seoul Survivor that are special than just its history; as this year presents a complete updating of all pertinent details of the USFK community – reflecting the substantial and significant changes the US military is undergoing and how it effects military members and their families here in Korea.

Since our humble beginnings in 1987, Oriental Press has seen many changes and much growth here, and we are so proud to be a part of this all-important community publication, which we know will remain an invaluable resource that will continuously grow and expand in the years to come.

And of course, no project of this type can be created alone, but it is usually spearheaded by one individual or a small group of them, and the “Seoul Survivor” is no exception. As such, we would like to express our sincerest gratitude and our congratulations to Mrs. Cleo Klopfleisch and her tireless staff of volunteers for an exceptional job, and to both the out-gone president of the AFSC – Mrs. Emily Grace, and Mrs. Erin Gonzalez – current AFSC president, and all the wonderful members of the American Forces Spouses’ Club for entrusting Oriental Press with this, their labor of love.

Sincerely,

Charles Chong
President, Oriental Press

EDITOR’S NOTE

Welcome to the Republic of Korea. All the members of American Forces’ Spouses’ Club join me in letting you know we are grateful to you, the men and women of the American Forces and your family members, for serving far away from your home and loved ones.

Americans have been serving in Korea and defending freedom, since the outbreak of the Korean War in June 1950. Today over 4200 Service members are now in Korea on normal three-year tours with their families, my family included. Raised in the small town of Huachuca City, AZ, Seoul was quite a leap for me. The driving, the high rises, and the fashion are all novel and exciting for this small town girl. My family and I have found the Korean people to be very hospitable, they greeted us with open arms. During our three-year deployment we took time to explore this wonderful country by participating in the many tours and travel programs. I hope you and your family will do the same. You and your family will have many opportunities to make lifelong friendships, and have numerous unique experiences here –as we did.

The information provided within these pages is a great amount of material to assist you and your family members with your in-processing and becoming aware of what to expect for the duration of your deployment. Take time to book mark pages and make a bucket list of “to see and to do” items, time flies when you are having fun. Keep a copy of the Seoul Survivor in your car and at home, or just book mark on your smart phone. The guide can answer questions from telephone numbers, ‘what to, how to, where to, and when to.’ I consider the AFSC Seoul Survivor to be a Military How To Book & Expatriates Travel Guide for all in Korea. Regardless of nationality, gender, age or military affiliation there is something for everyone in this book. The book will absolutely help you survive in Seoul.

For all the love and support our girls Naomi and Renee, my husband Quint and myself have been provided... I believed volunteering with the American Forces’ Spouses’ Club and editing the AFSC Seoul Survivor would be my little gift back to the Military community. Little did I know, it was my reward serving with a talented & diverse group of folks and an amazing Seoul Survivor Committee!

Enjoy!
Acknowledgements

Appreciation and an absolute honor to have had the opportunity to work together with the wonderful people at Oriental Press; President Mr. Charles Chong, Joseph Terry, Younie Park, and Ken Bringer. Without your continued guidance, generous contributions, support and mentorship with AFSC and USAGY, the AFSC Seoul Survivor would not have existed for the past 28 years.

A very special thank you to each and every Seoul Survivor Committee Member. We are family, near and far - XXOO. Thank YOU for all your countless hours and hard work!

To the 2013-2014 AFSC President Emily Grace, the amazing advisors, and the AFSC Board members. Each of you with diverse talents, a multitude of philanthropy hours... how lucky I am to have had a sparkle of each of you in my life.

To our girls Naomi and Renee, love you around the world back and again! Finally, to my wonderful “honey” Quint ~ my love, my hero! LY, YW

This publication was originally conceived, written and compiled by Judy Bridenbaugh in an attempt to ease the frustration experienced by military members and their families when moving to a new location, especially, in a foreign country. We continue each year to add multifaceted information. In keeping with modern technology for this edition we have added downloadable Smart Phone apps; and The AFSC Seoul Survivor is now available as an E-Book.

Military / expats alike use the AFSC Seoul Survivor as an informative Armed Forces Resource Guide & as a South Korea Travel Guide Book in one. Input for the annual issues has been gathered from the best available sources at the time of publication. Every effort has been made to ensure the accuracy of the information and maps at the time of printing. American Forces’ Spouses’ Club would be grateful to receive any information from the reader concerning errors and omissions.

The American Forces' Spouses' Club

“The American Forces’ Spouses’ Club (AFSC) is a combined community spouses’ organization operating on Yongsan Garrison in South Korea. This “Purple Club” is a mix of all U.S. Branch Services and civilians. We are Army, Air Force, Navy and Marine spouses, both active duty and retired. We are DOD civilian employees and spouses; DoDDS teachers and their spouses; directors and spouses for the American Red Cross, USO, Special Services; and adult family members of U.S. Department of State and The U.S. Diplomatic Mission personnel. With the inclusion of United Nations Command Officers’ spouses, we are truly a “purple” bunch.

The mission of AFSC is two-fold: First, it is to enhance the lives of spouses across the Republic of Korea peninsula. Our focus is on building friendships and is centered on our desire to connect people and provide support for spouses stationed in USAG-Yongsan and the surrounding communities. We encourage these relationships through monthly themed luncheons, which in addition to offering delicious food and shopping experiences with local Korean and American vendors, we provide quality programs and the opportunity to get involved in one of the many activities and peer groups the AFSC offers. These activities are member generated and operated; the possibilities are as endless as our members’ interests are. Monthly AFSC Clubs have included Book Club, Photography Club, Running Club, and the Shopping Club. This year peer groups will range from our youngest AFSC family members to our veteran spouses – Infant Outings, Toddler Adventurers, and Coffee After Dark – to name just a few. The AFSC offers this and so much more to our members, to include one of our largest contributions to the military and civilian community is the AFSC Seoul Survivor. This book is an invaluable resource providing a comprehensive introduction to life in Seoul, Korea.

Second, our mission is to enhance the area in which we live through charitable giving to our local Korean and American communities. During the 2013-2014 year the AFSC gave more than $200,000 USD for Scholarships, Korean Welfare, and American Projects. Korean and American Welfare Projects including orphanages, elderly care facilities, the Wounded Warrior Project, Toys for Tots, MWR events, and Military balls. Additionally 34 recipients, who included high school and college-aged children and spouses of active duty service mem-

In 1910, after five years of occupation, the Japanese Empire annexed Korea and immediately began a major building program to consolidate its political and military control over the country. It established the headquarters for the Imperial Japanese Army in Korea at Yongsan (Dragon Mountain) shortly after annexation. The Japanese compound included the areas known today as Yongsan Main and South Posts, Camps Coiner and Kim, Hannam Village, the Republic of Korea (ROK) Ministry of National Defense, and the ROK War Museum. During its occupation from 1905-1945, the Japanese garrisoned the post with an infantry division headquarters, at least two infantry regiments, and a cavalry unit. In addition, they located the colonial administrative and governmental headquarters on South Post.

When World War II ended in 1945, the U.S. government sent Lt. Gen. Hodge’s XXIV Corps to Korea to accept the surrender of Japanese forces south of the 38th Parallel. Meanwhile, Soviet forces moved into the area north of the parallel. In September 1945, the U.S. 7th Infantry Division established its
headquarters at Yongsan. It helped provide administration, order, and security of the southern zone, pending establishment of a single government for the entire peninsula; however, a unified Korea proved impossible as the Soviets sealed the border at the 38th Parallel and created a communist North Korean state.

All U.S. forces, with the exception of the Korean Military Advisory Group (KMAG), departed Korea in mid-1949. At the request of the ROK government, the U.S. Military formed the KMAG at Yongsan to develop and train ROK security forces. These security forces were first organized into police constabularies and later became the foundation of the ROK Army.

The North Korean invasion that began on 25 June 1950 turned Korea into a battlefield. Seoul changed hands four times between the Communist and the United Nations forces. The opposing armies inflicted substantial damage on the city and garrison. In 1952, U.S. forces reestablished headquarters at Yongsan and began restoring the post. The Eighth U.S. Army moved its headquarters from Seoul National University (present day Seoul National University Medical School) to Yongsan on 15 September 1953.

On 1 July 1957, the United Nations Command (UNC) headquarters moved from Tokyo to Seoul in conjunction with an overall reorganization of U.S. Military forces and command structures in the Pacific. The U.S. Secretary of Defense, the Chairman of the U.S. Joint Chiefs of Staff, and the ROK Minister of National Defense created the Combined Forces Command (CFC) in 1977; and was formally activated on 7 November 1978. This two-nation command, headed by a U.S. Four-Star General, who also serves as the Commander of United Nations Command, USFK, and the senior U.S. Army officer in Korea, will serve by a U.S. Four-Star General, who also serves as the Commander of United Nations Command, USFK, and the senior U.S. Army officer in Korea, will serve as the Commander of United Nations Command, USFK, and the senior U.S. Army officer in Korea, will serve as the war fighting headquarters in the event of any future hostilities between the two Koreas.

As the state of “No war, No peace,” embodied in the Armistice Agreement of 1953, stretched through the ensuing years, the garrison at Yongsan expanded its support facilities. Over the years the post went through three major building phases. From 1952 to 1955, the U.S. Army constructed many Quonset huts on Camp Coiner and other parts of the post for soldier billeting and offices. Through the 1960s to about 1972, the Army started replacing the Quonset huts with multi-story, concrete & steel barracks, concrete mess halls, and gymnasiums to improve soldier living conditions. The third period of construction started about 1977 and went on into the 1990s. Construction included: new troop facilities, family units, schools, the White House (Bldg. 2310), and the Dragon Hill Lodge. Slowly, Yongsan changed from rows of olive drab Quonset huts to a modern installation.

Today, Yongsan garrison consists of 630 acres and has over 4,000 military personnel assigned to its headquarters and support agencies. The major tenant organizations on Yongsan are the UNC/CFC/USFK Headquarters, 8th U.S. Army Headquarters, U.S. Navy Forces Korea, U.S. Marine Forces Korea, S01st Military Intelligence Brigade Headquarters, 1st Signal Brigade Headquarters, the 65th Medical Brigade, the Brian Allgood Army Community Hospital, and the Joint U.S. Military Advisory Group Korea (JUSMAGK). Approximately 1,200 U.S. and 6,000 Korean civilian employees augment the U.S. Military. In addition, more than 1,000 KATUSA (Korean Augmentation to the U. S. Army) Soldiers serve on post.

Some 7,000 military and civilian employee family members reside on South Post or on the local economy in neighborhoods adjacent to the compound. Although the Headquarters for the 2nd Infantry Division (2ID) is north of Seoul, many 2ID family members live in Seoul or on USAG-Yongsan. The 2ID Combat Aviation Brigade resides at USAG-Humphreys, but has an aviation battalion assigned to K-16.

Yongsan Garrison and the city of Seoul have come a long way since 1965, when the USS Breckenridge, one of many U.S. Military troop ships crossing the Pacific Ocean, first made landfall at Incheon. The 400 soldiers on that ship probably could have used a copy of The Soul Survivor, but their arrival predated the first publication of this book by 21 years.

Although today’s military families arrive at Incheon Airport via high tech jetliners, those early soldiers came by ship and were transported north by bus or rail to Camp Casey or Camp Howze. Other camps were spread from Busan (then Pusan), throughout South Korea, as well as Seoul, and all the way north to the DMZ. Some lucky soldiers were even assigned to Yongsan Garrison.

In the 1960s very few civilians were assigned to Korea, but those who came here often reported to Yongsan. Military families lived on the South Post, while civilians found homes out in town. Most single soldiers were living in quonset huts on post—Camp Coiner was covered with these huts for billeting as well as offices. A few of these huts remain today.

Many aspects of family life on post have changed since those early days. Hannam Village, Itaewon Acres, and other housing areas didn’t exist, nor did the various restaurants on South Post. The Seoul American High School was a small, single-story building located where Army Community Services stands today. Although families could use the Seoul Military Hospital on South Post, the 121st Evacuation Hospital was located at ASCOM/Camp Market in Bupyung...
Recreational and shopping facilities have evolved over the years. The Dragon Hill Lodge wasn’t built until 1990 – tennis courts and officer billets previously occupied that space. The Commissary (now Walker Center), which was once located near the current Fire Station was open only to military families and civilians above level GS12, or Command sponsored status until 1972. The National Museum of Korea didn’t exist in those days; instead, Yongsan Garrison boasted an 18-hole golf course.

Official buildings on post have also migrated through the decades. The UN Command, USFK, and the 8th Army were combined into the current 8th Army headquarters building. The library, Exchange, and Post Office were all in different locations. Where enlisted barracks once stood, the AAFES Four Seasons and Community Bank are present today. Two theaters occupied land next to the current USFK headquarters and predated the R&R Grill.

Though many of the gates on Yongsan Garrison are now locked shut, in the early years these gates provided access to pedestrians and vehicles. Parking wasn’t a problem, because very few military and civilian personnel had personal vehicles. In fact, few Koreans owned motorized vehicles of any kind! It’s hard to imagine in the crowded traffic of today’s Seoul.

The changes on Yongsan Garrison only begin to scratch the surface of the dramatic differences that have reshaped the city of Seoul in the past fifty years. For example, the first tunnels through Namsan Mountain appeared in 1969. There were once only four bridges crossing the Han River – a landscape now teeming with dozens of bridges, parks, and buildings. Seoul’s massive subway began in 1974 with the opening of the Jungno Line #1; before that, people used streetcars, buses, taxis, or hopsungs (microbuses made from several 55 gallon metal barrels placed on a truck frame). Transportation was not nearly so comfortable or safe as it is today!

In addition to the difficulties in transportation, navigation around Korea was made much more difficult by the lack of accurate maps of the country. The Korean government was concerned that detailed maps would find their way into enemy hands, and their caution may have helped thwart a 1968 assassination attempt on the president. It has only been since 1980 that tourist maps have been available to the public!

To date, the 28 editions of The Soul Survivor have helped military families in Seoul learn to navigate the beautiful and intriguing country that Korea has become. Seoul has evolved from a city of 3.2 million in 1966 to a thriving metropolis of 25 million people, yet Yongsan Garrison and many other U.S. installations still stand. The Seoul Survivor aims to assist the military and family members of those installations in enhancing their knowledge of Korea, their comfort in Seoul, and their enjoyment of this tour in “The Land of the Morning Calm.”

The Seoul Survivor 14-15

The journey may surprise you in new and wonderful ways. Soon after you arrive, you will realize the Korean people are very friendly. They will exert themselves to the utmost to understand you. Many Koreans, especially in Seoul, speak some English. At times though, communication can be a frustrating task. The key is to exercise patience, speak slowly (not loudly!) and express gratitude. Your reward will be their readiness to cooperate and support you.

Korea’s history is an amazing mixture of events and trends. Against the backdrop of strong cultural uniformity that started to emerge in the seventh century and has continued up to the present day, we find a pattern of rich contrasts. Buddhist pagodas stand side by side with Confucian Shrines, cycles of great commercial growth are set against downturns of financial decay and numerous foreign invasions are countered by attempts at territorial expansion.

A land-owning aristocratic scholar class ruled over a rigid social structure, supported by less-respected merchants and agricultural peasants who toiled as tenant farmers. Within the Korean government, periods of factional strife and political coups contrast with long periods of stability. Learning about Korea’s past helps put the present into true perspective.

On a busy day in Seoul, we guarantee you’ll notice the following:

- **The industriousness of the people**: The official work and school week is Monday through noon Saturday. The second and fourth Saturdays are not official work days.
- **Traffic**: Everyone tries to “get there first.” The traffic in many parts of Korea is legendary and rivals the worst that New York, Paris, London, or Washington D.C. has to offer. Rather than a methodical, legalized culture of driving, Korea’s driving habits have been described as currents in a vast river all flowing in the same general direction.
- **A myriad of aromas**: Visitors quickly come to believe garlic must be the national food staple. It is used extensively in Korean dishes. Two very popular dishes are Bulgogi (barbecued marinated beef) and kimch’i (a fermented vegetable dish with as many variations as there are Korean cooks). Once you acquire a taste for it, eating Korean-style can be inexpensive and delicious.
- **The clothing**: Koreans are much more formal in their dress than most Westerners and take great pains with their appearance. As the culture becomes even more westernized, the number of Koreans who still wear a traditional Korean dress called “Hanbok” (graceful, full-length garment in several pieces) is declining except on holidays or for formal occasions.
- **The Korean alphabet, Hangul**: This phonetic alphabet, invented by King Sejong and a group of scholars in 1443, is actually straightforward but

Most Americans have little or no knowledge of Korea’s history and culture, and much of what they do know may be an erroneous impression garnered from the news media or old newsreel footage from the Korean War. In reality, the Republic of Korea is a vibrant, vital country of more than 50 million people, all striving to keep up in this fast-paced, modern society. Koreans have become world travelers, world-class economic competitors, and they are highly-regarded participants in world affairs. Underpinning all their vast economic and commercial accomplishments over the last twenty-five years though, lays the Korean people’s spiritual wealth, their traditional respect for elders, their strong belief in community, their love of nature, and their sense of national pride.

Many newcomers find South Korea to be an exotic place. Keeping an open mind and being willing to experience and appreciate cultural differences will make your tour of duty here one of the most memorable of your military career.

KOREAN NATIONAL AND RELIGIOUS HOLIDAYS

January 1 (New Year’s Day): The first day of the New Year is celebrated with friends, coworkers and families. The most popular event is the bell-ringing ceremony at Bosingak in Jongno, literally “bell street,” Seoul on December 31st. The bell-ringing event on New Year’s Eve draws throngs of people from all over Seoul. The bell ringing is preceded by various events like congratulatory performances by Korean stars. After that, all citizens participate in the countdown to the New Year. Then, as the New Year starts, celebrities, civil representatives, and senior members from various fields ring the bell 33 times in celebration of a good year. On New Year’s Day, it is common for Koreans to travel to famous sunrise spots in order to make New Year’s wishes as they greet the first sunrise. The sun first rises in the East Sea off the coast of Korea.
so many New Year events are organized on the East Coast.

**Lunar New Year (Chinese New Year’s Day):** Seollal (Lunar New Year in Korean language) is one of the most celebrated national holidays in Korea, next to celebrating Chuseok (Korean Thanksgiving Day). It is celebrated in a similar way to January 1, but on a grander scale. This three-day holiday is celebrated the day before the first day of the first month, on the day of, and the day after the first day of the month according to the lunar calendar. Traditional Confucian families perform ceremonies to commemorate their ancestors. Most notably, the “bowing to their ancestors” is commonly practiced and is very much a part of Confucian tradition. It is a matter of religion for them as well. Confucianism is melted in Korean culture much like Saint Patrick’s Day is in America, it doesn’t really matter whether you are Irish or not. However, many of Korean Christians and non-Confucian families don’t bow to their ancestors, due to their faith and practice. Family members rise early and put on their best clothes. Following the rite and for the remainder of the time, everyone eats the ritual food of Tteokguk, rice cake soup. Tteokguk is the main food of Seollal and eating it is believed to add a year to one’s age. Along with eating Tteokguk, there is much singing and more traditional food is served. Some examples of traditional foods include: Kimch’i, rice, and Bulgogi (a Korean seasoned flavored beef dish) to name a few. Holiday celebrations are an important part of family life in Korea. All celebrations, no matter how large, center on the home. Women can spend hours preparing the traditional dishes; sometimes a family’s reputation depends on the amount and the quality of the food. After the holiday meal the younger members bow to their parents and grandparents as a reaffirmation of family ties, receive gifts of money and words of advice for the New Year.

**March 1 (Independence Movement Day):** Koreans observe the anniversary of the March 1, 1919, Independence Movement against the Japanese Occupation. This day was officially designated as a public holiday to commemorate men and women who died during the Independence Movement. The March first Independence Movement was highly influenced by U.S. President Woodrow’s Declaration of the Principle of Self Determination at the Paris Peace Conference in January 1919.

**Buddha’s Birthday:** Celebrated on the eighth day of the fourth month of the lunar calendar. Solemn rituals are performed at Buddhist temples, and the day’s festivities culminate with a “lotus lantern” parade. The Sunday before Buddha’s birthday these lanterns are lit and carried in parades in the evening.

**May 1 (Labor Day):** This is not a government holiday, however many banks and businesses may be closed.

**May 5 (Children’s Day):** This day is celebrated with various programs for children who spend the day enjoying themselves with their parents.

**June 6 (Memorial Day):** On this day, the nation pays tribute to the soldiers and civilians who have given their lives for their country. At 10 a.m., a siren sounds, calling for a one-minute silent tribute. Memorial services are held at the National Cemetery in Seoul.

**August 15 (Liberation Day):** On this day in 1945, Korea was liberated from Japan after 36 years of colonial rule. It also marks the 1948 establishment of the government of the Republic of Korea.

**Harvest Full Moon (Korean Thanksgiving Day known as Chuseok):** It is celebrated on the fifteenth day of the eighth month by the lunar calendar (September/October). Chuseok is Korea’s most important national holiday. On the morning of Chuseok Day, Songpyeon, a type of Korean rice cake, and food prepared with the year’s fresh harvest are set out to give thanks to ancestors through Charye, which is an ancestor memorial service. Formal Charye services are held twice a year: during Seollal (Lunar New Year’s Day) and Chuseok. The difference between the two services is that during Seollal the major representative food is white Tteokguk, a rice cake soup, while during Chuseok the major representative food is freshly harvested rice. People visit family tombs and present food offerings to their ancestors. Most Koreans will return to their hometowns during this holiday, so traffic is unusually heavy and travel times double.

**October 3 (National Foundation Day):** This day commemorates the traditional founding of the Korean nation in 2333 B.C. by the legendary god-king Dangun. A simple ceremony is held at an altar on top of Mt. Manisan in Ganghwado Province. The altar is said to have been erected by Dangun to offer thanks to his father and grandfather in heaven.

**December 25 (Christmas Day):** Celebrated as a national holiday in Korea as in many other countries. It is a religious holiday for Christian families (over twenty-five percent of Korean population), while it remains more of a party for younger generations and couples rather than family gatherings or gift giving. However, families with little children observe Christmas the same as American families; believing in Santa and Christmas decorations. Christmas Trees in Korean homes are small and most of them are artificial: while Christmas cakes are colorful and gaudy, and very popular and common.
THE KOREAN SPOKEN AND WRITTEN LANGUAGE

The Korean language has evolved throughout the centuries. No one knows how long it has been spoken and, despite the geographical closeness of China and Japan, Korean is linguistically distinct from Chinese and Japanese.

Chinese characters were used to write Korean until the 15th century. However, since they were hard to learn and were very different from the Korean spoken language, most people remained illiterate. In 1446, after many years of study and testing by the ruler, King Sejong and his scholars introduced a unique Korean alphabet. It was devised on a purely phonetic basis and consisted of 28 characters. These were arranged in syllable units or blocks and not into linear words. This meant the syllables could be written horizontally or vertically on a page. Over time from this original alphabet, Hangul, the modern alphabet, has evolved. It has 24 characters and follows the Western convention of writing from left to right. Chinese characters are rarely used today in conjunction with the Korean alphabet, especially in newspapers, as it is possible to communicate fluently without using them.

During your tour in Korea, you will find ample opportunity to study the Korean language. Many bases have language classes that are offered without charge during the duty day or after duty hours. Formal classes are also offered on post; check with ACS for details (Also see the Language section in this book). The post libraries offer many language-learning books, along with audio and video cassettes for circulation. The AAFES Main Post Exchange carries similar products as well as useful phrase books and Korean language computer programs. A wonderful book for simply learning to read the alphabet is, Yes, You Can Learn Korean Language Structure in 40 Minutes. Additionally there are many apps available for your cell phone to help you when you are out and about and need language assistance and most taxis offer free interpreters on the phone if you need assistance in communicating.

English has been taught in Korean schools starting in the first grade since 1998. In the past, English was taught in Korean schools beginning in the seventh grade with an emphasis on grammar instead of speaking. The mainly testing-oriented educational system means that many Koreans have memorized a lot of English grammar and vocabulary, but feel quite shy about their conversational skills. When you talk to Koreans in English, speak slowly and simply to increase your chances of being understood.

USEFUL KOREAN PHRASES

The following Korean phrases may assist you during your tour in Korea. They are simple conversational words and phrases designed for newcomers. Koreans will be impressed you have made the effort to learn even a little of their language. The key is not being afraid to try and having the ability to laugh at yourself.

**KOREAN NUMBERS**

Chinese numbers are often used when counting sequentially. This includes money, telephone numbers, dates, mileage, etc. When shopping, listen for the Chinese numbers, particularly for the endings which mean hundred, thousand and ten thousand. Notice that Korean numbers go as far as 99. Beyond 100, Chinese numbers are used. When counting how many people, use Korean
numbers. Sometimes in the smaller restaurants the prices will be written in the Chinese figures, usually from top to bottom. The following chart offers a brief glimpse of some of the differences in the two systems:

South Korea’s population shares a common ethnic and cultural heritage. Intense feelings of nationalism, so evident in athletic events like the 1988 Olympic Games held in Seoul and the World Cup soccer games of 2002, reveal a sense of pride concerning South Korea’s place in the world. More than Western people, South Korean individuals tend to view themselves as a tightly knit national community with a common destiny. This chapter contains sections on Korean personality traits, factors that have contributed to making them the way they are, and discussions of important traditions, cultural attitudes, and etiquette. Your awareness of these factors will greatly reward you as you meet and interact with new Korean friends.

The Seoul Survivor Committee is grateful to Mr. Young K. Chang, instructor at the Defense Language Institute Foreign Language Center, Presidio of Monterey, California, from whose publication, Cultural Orientation (Korean), much of this chapter is extracted.

KOREAN NON-VERBAL BEHAVIOR AND ETIQUETTE

Customs and attitudes are different in Asia from those of Western countries. Korea has its own set of courtesies. If you take the time to learn and observe them, the rewards are significant.

The traditional bow has given way to the handshake, but friendly backslaps or arm squeezing is considered rude here.

Koreans meeting for the first time introduce themselves only at the invitation of a third party. The formal ritual of introduction is similar to this: The person who knows everyone in the group invites his friends to introduce themselves. One says, “I am seeing you for the first time.” The other repeats the same sentence, and the elder one suggests that they introduce themselves. The introductions and formal bows are followed by an exchange of calling/business cards. These cards are very important in Korea. They give an opportunity for each person to discover the other’s position without rudely inquiring about them. Cards also do away with the need of asking someone’s name twice. When someone presents you with a business card, take a moment to read it before putting it away as a sign of respect.
The proper use of names in Korea is also important. A person’s name is considered his or her personal property. Koreans regard their name with reverence. The persistent wave of Westernization has accustomed Koreans to being addressed by their family name, but only intimate friends and family greet each other on a first-name basis. Koreans prefer titles rather than names. For example, you would call the company president “Sa-jang-nim” or someone with a Ph.D. “Bak-sa.” Teacher or “Sun-saeng-nim” is an acceptable title for anyone.

Try to remember that no matter how “Western” many Koreans may appear on the surface, their thinking is still governed by traditions, which are based on a culture several thousands of years old. The following list covers some important traditions relating to etiquette:

• Avoid eye contact. Looking into an acquaintance’s eyes was generally considered not polite. This is not necessarily true today.

• Use your right hand when performing tasks such as presenting gifts, paying a bill, or pouring a drink. Your left hand should loosely cup your forearm. The closer your left hand is to your wrist the less respect that is being given while your left hand cupping your forearm near your elbow would show greater respect. Using the left hand for these tasks is considered very impolite, but many Koreans do understand that Western culture is different.

• Do not point the index finger toward a person or gesture with your foot, it is considered insulting. You may gesture with your full hand, palm upward.

• Do not write someone’s name in red ink, e.g., endorse checks, letters, etc. (a name written in red means death).

• If invited to dine at someone’s home, bring a gift. When presenting the gift, use the etiquette mentioned above.

• Take your shoes off when entering a Korean house or restaurant with low tables.

• Do not start eating before your guest of honor or senior.

• Do not say, “I don’t drink” when offered unwanted alcoholic beverages. It is more polite to say, “I’m not feeling very well today,” “I am a designated driver,” or “I’m on medication.”

• Karaoke is very big in Korea. This takes place in a private room at a Nore-bang (karaoke bar). Sing one of your favorite songs when asked.

• Do not eat or drink without offering your food or beverage to your colleagues.

• Do not pour your own drink; pour for someone and let him reciprocate.

• Try to wear conservative clothes.

• Ask your Korean guest more than once to help himself to more food and drink.

• See your guest off at the gate, and stay there until your guest is gone.

• “Yes” is often used simply to acknowledge what is said by one’s counterpart; it does not necessarily mean one is in agreement or understanding.

• Do not suggest splitting the bill each person/family should alternate paying. Just remember when it is your turn to pay.

• You may often see two male friends or two female friends walking affectionately arm-in-arm. This is in no way an indication of their sexual preference.

• Remember Koreans will want to touch and hold your children when you are out together (especially blondes and redheads). Koreans love children and in this culture, children are treated as “everyone’s treasure” to cherish and protect. If your children are uncomfortable with this, then remove yourselves from the situation as politely as possible. A simple “No, thank you” usually suffices.
Either plain or cooked with other grains, rice (Bap) is the main dish at most Korean meals. Rice is accompanied by a variety of side dishes. Favorite side dishes include bean paste soup, roasted beef and fish, as well as steamed and seasoned vegetables. Soy sauce, soybean paste, red pepper paste, ginger root, sesame oil and sesame seeds are other seasonings, which are essential to Korean food.

Kimchi, a dish of highly seasoned pickled cabbage or turnip, is served at most every meal. Koreans enjoy beef dishes, with Bulgogi being one of the most popular. Another popular dish Daeji Galbi (known as “Korean barbeque” or “beef and leaf”) consists of thin slices of pork ribs marinated and then cooked on a grill over hot charcoal. The marinating sauce is made of soy sauce, sesame seed oil, garlic and other seasonings.

The traditional Korean homemaker believes that much of her family’s happiness depends on her culinary expertise. She often begins her day by preparing a substantial breakfast of hearty soup, meat or fish, steamed rice and kimchi. A light lunch follows which is similar to the breakfast fare. A generous evening meal is favored, consisting of up to 15 or 20 dishes for special occasions. Food is usually eaten with a pair of chopsticks and a large spoon.

Holiday celebrations are an important part of family life in Korea. All celebrations, no matter how large, center on the home. Women can spend hours preparing the traditional dishes; sometimes a family’s reputation depends on the amount and quality of the food.

At an elegant Korean dinner, the first course might be Ku-jol-p’ān (nine compartments dish). It is somewhat similar to a French hors d’oeuvre tray. The cooked meat and vegetables are arranged on a large platter with a mound of pancakes in the center.

Homemakers in Korea, like many others in advanced nations, usually have little time to prepare these traditional foods and are well acquainted with frozen fare, microwave lunches, and other hightech cooking conveniences. Fast food restaurants, Chinese takeout/delivery (speedily brought on the back of a motor scooter with a heated box strapped to the back) and food stalls for the passerby are very popular for the busy Korean housewife.

The visitor to Korea will find native food offered in small restaurants, in the large hotels, and in gourmet sections of the large department stores, such as Lotte or Shinsegae. “TRY IT, you’ll enjoy it!” In fact, Korean supermarkets usually have sample stations scattered throughout, where they will encourage everyone to try their wares. The following is an alphabetical list of traditional foods and beverages that are served in many Korean restaurants:

For recipes, try the AAFES cookbook section or the main library. There are many good Korean cookbooks on the market. Korean food gives us a glimpse into the Korean Culture. Certain foods are associated with festivities as well as the seasons. ACS offers great classes. Take advantage of the Korean Food Discovery class. The class gives a general overview of what dishes consist of as well as a “kid meter” – what may or may not appeal to children. The class includes food tasting and lunch. Call the ACS at 738-7505 to sign up for the Korean Discovery class. Enjoy!
PLANNING YOUR PCS

WHAT TO DO AND WHEN TO DO IT

Congratulations on your assignment to Korea! The Soul Survivor guide is here to assist with your transition.

Take a trip to your Army Community Service (ACS), Air Force Family Service Center or Navy and Marine Family Service Center to sign up for an Overseas Move Class for Korea. If you and your family belong to a service branch other than the Army, remember to tell the person helping you that Yongsan Garrison (known as USAG Yongsan) is in Seoul, South Korea, and is an Army installation. In addition, be sure to look in your local bookstore or library and on the Internet for assistance.

If you have not heard from a sponsor as your move draws near, take the initiative and contact your gaining unit, either by email or telephone, and ask for any sponsorship information they can provide. A sponsor should be assigned automatically, but sometimes this is unintentionally overlooked. Korea is an assignment where a sponsor is necessary and can be a relocating family’s biggest asset. Your sponsor can get your email and/or mailing address, assist with kennel reservations, check availability of quarters, provide you with Internet sites for learning more about relocation, as well as the bases and surrounding communities in Korea.

DETAILS, DETAILS, DETAILS!

As we all know, moving involves many details, and a successful move requires careful planning. The following information is included to assist with your move to Korea.

Power of Attorney: It is wise for all Service Members and their spouses to have a current Power of Attorney. Remote assignments, deployments and Noncombatant Evacuation Operations (NEO) requirements make a Power of Attorney an absolute necessity in Korea. Whether your family will be coming with you to Korea or remaining in the United States, it is a good idea to have a Power of Attorney prepared before leaving your current duty station.

Automobile: There are several options available to service members and their families, but regulations vary. (See the sections – What to Bring and Vehicles in A-Z). Most families are authorized to ship one vehicle. Please keep in mind that a motorcycle counts as personal property and NOT a vehicle. If your vehicle is financed, you will need permission from the lender to ship your vehicle overseas (contact your lender for specifics). If you are leaving a vehicle in the U.S., consider providing a special POA to the person keeping the vehicle or make sure that they are authorized to speak on your behalf with your lender and/or insurance company. Contact your insurance provider to find out their requirements and take care of these issues early. Insurance is available in Korea through USAA, GEICO and CIGNA.

Computers and Electronics: Check with the manufacturer of your computer or other electronic devices to ensure that you will be able to get parts and service. Know that technology changes in the blink of an eye and many times a newer, better product is also cheaper. The Korean Electronics market is close to USAG-Yongsan and might become your new “best friend.”

Driver’s License: Make sure that your U.S. driver’s license is current and will remain current for your entire tour in Korea (and a few months beyond). Most Departments of Motor Vehicles will allow you to renew your license at any time, so it is wise to do this before you leave the U.S. Within the first thirty days of your arrival, you will need to obtain a United States Forces Korea (USFK) license to drive on post or anywhere in Korea. Check at ACS for more information.

International Driver’s License: If you plan on extensive travel in Asia (Japan, Malaysia, Indonesia, etc.) we strongly suggest you visit your local AAA office to obtain an international driver’s license. International licenses are available in Korea, but it is easier to obtain one before you arrive.

Employment Records: Family members wishing to work in Korea should hand carry proof of previous employment, such as official personnel records, letters of recommendation, pay stubs, etc. Also, bring copies of any diplomas and transcripts and a copy of your marriage license to assist in qualifying for Military Spouse Preference. Family members wishing to work on the Korean economy, for instance as an English teacher, should bring their original diplomas. Copies of diplomas are not sufficient for the required E-2 visa. Some employers and colleges require an official, sealed transcript with a signature or stamp along the seal line of the envelope. Also see Employment in A to Z.

Eye Exam: If you wear contact lenses, particularly the soft or extended wear type, have your exam and purchase contacts before leaving the U.S.. The Optometry Clinic gives contact lens exams only for medical problems and existing prescriptions that may need changes, so you should have your initial
In-Processing, you will need a second form of identification to gain access to base. A copy of your pinpoint orders can be used to gain access to any AAFES facility but you will not have access to the commissary until a ration card has been issued. For more information see Ration Cards, under YOUR FIRST THIRTY DAYS. A SOFA Stamp can only be issued to your DEROS date or the expiration date of your ID card whichever is first, so if your ID is expiring during your stay here in Korea, renew it prior to arrival or at the 1st Replacement Company/19th Personnel Company (Building 4034, DSN 723-6527).

**Immunizations:** The requirements on this can vary, so it is important that you contact your stateside medical facility for current information. (Preventative Medicine is the best clinic to speak with.) It is important for this to be one of your first steps, because several of the immunizations may require a series of shots given over the course of a few weeks or months. It is important to get PPD testing done for every member of your family before coming to Korea. This is required for school and youth activities enrollment, and must be updated yearly. Make sure the results are recorded in your yellow shot record card or in your digital military shot record. Refer to Immunizations in A to Z. For more information on immunizations recommended by the United States Centers for Disease Control and Prevention visit the following website: www.cdc.gov/travel/eastasia.htm.

**Insurance:** Adequate automobile is required and it is recommended that you consider a personal property insurance policy as well. Check with your insurance company and make sure your renter’s and auto policies cover living abroad. Insurance in Korea is available through USAA, GEICO and CIGNA. Also, see Insurance in A to Z.

**Legal Documents:** Make sure all necessary documents are up-to-date and copies are given to a trusted friend, relative, or attorney. Hand-carry original documents such as birth certificates, marriage licenses, and wills on the plane. One of the first things you will need to do after arrival is create a Noncombatant Evacuation (NEO) packet, and these documents will be required. Contact your unit’s NEO officer for more information regarding your NEO packet.

**Mail:** Your sponsor or gaining unit should assign a mailing address so you can fill out change of address forms before you PCS. Most people stationed in USAG-Yongsan are required to receive personal mail through their workplace. The positive effect of this policy is that you will be able to obtain your permanent mailing address in Korea before leaving the U.S. since your address is not based upon your housing unit. Mail is not delivered to offices on weekends or holidays (United States or Korean).
Medical Records: You and all of your family members will be required to obtain a medical clearance and EFMP screening. Any EFMP will be considered in approving of command sponsorship to make sure that services are available to you and your family members. Make sure your medical records are up to date and include up-to-date shot records are accessible while going through Incheon Customs and Immigration. Arrange to have your annual medical examination and obtain extra refills for needed medications before you leave the U.S.. This will give you a little less to worry about and enable you to get through the transitional period before your first medical appointment.

Money: If you are coming from a major city with banks or private companies that deal in foreign currency, it may be possible for you to buy some Korean Won at an advantageous rate. Check with your sponsor or gaining unit to see what the current exchange rate in Korea is and then compare that to the exchange rates available stateside. Once at USAG-Yongsan, all the ATM machines dispense your choice of Dollars or Korean Won. A note of caution: Be aware of any fees or commissions that could cancel out any advantage of the quoted rate. Dollars are widely accepted in Seoul, so you may be able to pay for some things with United States dollars or your credit card. You will be able to exchange United States dollars at the airport, but it is not recommended that you exchange large amounts as this rate is generally the lowest available. www.x-rates.com has information on exchange rates.

Mosquitoes: These pests can be a huge problem in Korea depending on the rain and are active from mid-spring well into the winter months. There are some options available on the economy to minimize mosquito problems, but it is recommended that you bring any products that have worked for you in the past. Probably the best and most effective mosquito plan is mosquito nets over the bed, so bring them with you if you can. Although nets can be purchased in the local stores and markets supplies and styles are often limited.

Orders: Always have multiple copies of your orders with amendments, pinpoint orders, and any separate orders for family members available for in-processing both at Korean Immigration and on-post. At least 10 extra copies are recommended so you will not be caught short-handed. If you need to make additional copies, your unit or 1st Replacement Company/19th Personnel Company can assist you.

Passport/Visa: Although an active duty Service Member can generally travel with his or her military ID card accompanied by military orders to the overseas duty station and will be allowed to stay for the full length of the assignment without a VISA, all personal travel requires a tourist passport. Family members are required to have a passport with a proper Korean A-3 Visa and SOFA Stamp per individual. Contact your local personnel office for the proper forms and information. The government will provide a no-fee passport with the A-3 Visa (which allows for multiple entries into Korea) to all eligible command-sponsored family members. The processing time is generally between 6 and 8 weeks, so begin the process as soon as orders for command-sponsorship are approved. Do not depart your losing installation without receiving the Government passport. All family members, civilians, and even newborns must have an A-3 Visa and SOFA Stamp within 90 days upon arrival. Each person in the family (to include the military member) is encouraged to have a United States Tourist passport as well. This allows you the option to travel in Asia while you are here. Family members may also choose to travel to Korea with their tourist passport instead of a no-fee government passport to avoid having two passports for travel.

Pets: Many people choose to bring their pets to Korea. Be aware, however, that pets are not allowed in the Burke Towers housing complexes. Korean apartments generally do not provide areas for walking pets; however, Yongsan garrison does have a very nice dog park for use by all ID card holders. Check with the Housing Office to find out about the availability of housing and whether pets can be accommodated. Be sure and check with your airline about the cut-off dates for heat restrictions when shipping your pet. There are very specific rules and regulations on the importation of your pet and the size of pet carrier allowed. For more information see Pets in A-Z, or contact the 106th MED DET (VM) Unit at DSN 737-2450 or from CONUS 011-822-7917-2450. For boarding and/or grooming call the Yongsan Pet Care Center 736-6426.

The United States Army’s Yongsan Garrison Pet Care Center is the primary Seoul Area Pet Care Provider for all pets in a PCS Inbound status. For those Service Members who arrive in Seoul after normal duty hours or on weekends, the Dragon Hill Lodge now has a designated area inside of the building where pets can temporarily stay in their travel kennels until they can be moved to the Garrison’s Pet Care Center. While in the Dragon Hill Lodge holding area, sponsors are responsible for the feeding and care of their pets. The Dragon Hill Lodge Security Office which is located in close proximity to the pet holding area has oversight of the pets and may notify the sponsor if a pet is showing signs that attention is needed.

School Records: Make sure that copies of all school records are up-to-date and hand-carried. For guidelines on the documents needed for the DoDD schools on post, visit www.korea.pac.dodea.edu. School records (diplomas
When you first arrive, you may have to “live out of your luggage” for four to eight weeks or make purchases at the PX, Second Hand Rose thrift shop, or on the economy. Before you leave the U.S., find out which of your favorite stores will ship to an APO address and find out their website addresses. You can also use www.shipitAPO.com for business that will not ship to an APO. On a positive note, clothing on the economy, particularly at the large markets, is relatively inexpensive and plentiful, but be aware that sizes are typically available for men and women of small build and children’s sizes typically run much smaller than American children’s sizes.

**PLANNING**

**PLAN YOUR PACKING IN FIVE COMPONENTS**

1. **HAND CARRY:** passports, copies of orders, power of attorneys, medical, school, immunization records, pet documents, employment records, address book, personal toiletries, any essential medicine, and all identification cards. Bring your car seats, even if they are merely checked. To ride on-post in personal vehicles, your children must be properly belted in. Pack something to occupy yourself and your children (iPods, DS Lites, books, etc.) and food to snack on during what may possibly be the longest flight of your life (11 to 12 hours nonstop from the West Coast and 15 to 16 hours from the East Coast). Due to increased airport security, please check with your airline or visit http://www.tsa.gov/traveler-information for more information on what is allowed in carry-on luggage.

2. **BAGGAGE FOR THE PLANE:** What you include will be limited by the baggage weight limits, but the following are some suggested “essentials”: current seasonal clothes and several pairs of comfortable shoes. You will do a lot of walking compared to what is common in the U.S. especially since your vehicle won’t be here yet. Remember to check your orders and check with your airline about the number of bags and the weight limit. Some actually have very generous allowances for military on orders. Seasonal “must haves” include: raingear, including an umbrella and rain boots, during the summer months and warm layers during the winter. Car seats, boosters seats, and strollers can often be checked free or as one of your checked bags. Check with your airline regarding any in-flight car seat requirement for your child’s age, height and weight. Each family member should have their own ticket, therefore each family member is entitled to luggage. Bring the maximum number of suitcases necessary to ensure you have all you and your children need, but keep in mind...
you and your wife will have to carry the two 50 pound suitcases you bring for your infant in addition to what you have packed for yourselves.

3. UNACCOMPANIED BAGGAGE (Hold/Express Baggage): Although this cargo plane shipment might be slightly delayed, it may still be the only shipment you receive for months if you have to live in a hotel or temporary housing until your permanent housing becomes available. Even if you move into your permanent housing right away, your household goods may not arrive for a few months. Plan your hold baggage carefully. While the Army Community Service (ACS) Loan Closet can help you with some items until your shipment arrives, consider sending the following items in “hold/express baggage”:

- Kitchen and eating necessities, including plates, utensils, pots and pans.
- Small appliances such as a microwave oven, toaster, and coffee maker.
- Household supplies (broom, vacuum)
- Shower curtain and hooks
- Towels (bath and kitchen)
- Bed linens including blankets and pillows
- Clothing to span the current season and the next.
- At least one evening dress/suit, for various social functions
- Children’s items, particularly their favorite games and toys
- Baby: crib, changing table, jogger stroller, etc.
- Computer equipment
- TV/DVD player and electronic accessories
- Small hand tools (hammer, screwdriver)
- Lightweight decorations

4. HOUSEHOLD GOODS vs. STORAGE - The government allows a percentage of your total weight allowance, typically 50% or less, to be shipped to Korea. The remainder of your items will need to be placed in storage at government expense. Weight allowances vary depending on branch of service and rank, so check with your Personnel Office, Travel Management Office, or Personal Property Office for the correct information. Army families are typically allowed to ship only 50% of the Joint Federal Travel Regulation (JFTR) allowed weight allowance. Your household goods shipment may take several months to arrive, so you may want to consider sending this shipment early. Inventory this shipment very carefully. If you are sending special items, take color photos prior to packing and hand carry those photos to help settle any claims.

Regardless of your weight allowance, think carefully when deciding what to ship. Bring the things that you cannot live without, but keep in mind that your life may become filled with “treasures” from Asia. Do not bring things “just in case” you might need them. Housing varies widely, but most quarters are smaller than state-side homes and have minimal storage space; you can quickly find yourself over-crowded. There is typically no additional storage space in off-post housing.

CONSIDER BRINGING THE FOLLOWING ITEMS:

- Room air cleaners and filters: Plan on bringing enough filters (or find a website that ships what you need to an APO) for your entire stay in Korea. These are EXTREMELY necessary for those with breathing conditions and small children. Some units and filters may be available through self-help or housing if you find you need them after arrival but if you have your own consider shipping it as availability is sometimes limited.
- Small tools: Saw, impact-hammer drill (important as walls are concrete in most housing), mortar bits, etc. If you are sure you will be in government housing, these tools are available at the Self Help Center on Yongsan Garrison but at times are difficult to reserve. You may also contract with individuals at self-help to come and hang items at your home including pictures, curtains, and mirrors.
- Baby items: Furnishing Management Office (part of Housing) does not have cribs, toddler beds, changing tables or any other baby furnishing items to loan. If you have a baby or are expecting bring baby furniture in your household goods. ACS does have limited supplies of pack ‘n plays available for loan until your baby items arrive.
- Specific clothing needs: Buying a large supply of underwear, bras, and shoes prior to your PCS is recommended. Don’t laugh – go into your exchange and if they carry the brands, styles, and sizes you prefer, you are in luck; otherwise get shopping! The choices over here on the economy tend to be for the young and the small. Lack of planning will result in trying to buy these comfort items over the internet. PLAN AHEAD!
- Sports equipment: Golf clubs, tennis equipment, ski gear, and sports shoes for your children in the next size up if they prefer certain brands.
- Sewing machine: Have your machine serviced before you come and bring all essential accessories. Some items can be purchased at the Fabric Market, see Shopping in A to Z.
- Gas grill: If you are assigned quarters on base you may be able to have a gas grill at or near your home. Be aware that you cannot ship your own tank
Rugs and carpets: Floors in most quarters are linoleum over concrete, and they are cold. Area rugs are available at the AAFES Furniture Store at reasonable prices though selection is limited. Rugs and carpets are available through AAFES vendors and on the economy, but may be expensive. Consider bringing your own rugs and carpets (and carpet padding) with you.

Christmas and other holiday decorations: These are a must to bring. You may want to downsize the quantity due to the size of your new living space. Some Christmas decorations are available at the PX/Four Seasons and on the economy. Fresh Christmas trees are sold through the Boy Scouts Organization. The prices are comparable to the United States or slightly higher but you should make a mental note to pre-purchase when you see the Boy Scouts preselling in the PX or Commissary.

Craft supplies: Bring a sufficient quantity of regularly used items, especially water-based craft paint which is difficult to find in Korea. USAG-Yongsan Arts and Crafts center does not have facilities for stained glass and do not sell stained glass supplies.

Pictures, books and decorative items that transform a house into a home: Be sure to include plenty of these because they are real morale boosters. Keep in mind, though, that most quarters have walls made of concrete. You may want to consider leaving irreplaceable treasures in storage or with family members so pollutants will not damage them.

Entertainment center/stand: Check with Housing to see if one will be provided with your allotted furniture. It will depend on whether you are authorized government furniture and may or may not fit your television if you have a large television. If you chose not to ship your entertainment center consider going to the Furniture Management office and looking at other items that could be used as a television stand including a buffet table.

Futon, air mattress, or some type of sleeping arrangements for visitors you may have: Housing provides only enough mattresses and bed furniture for each family member. A note about bedding: The mattresses tend to be hard, and the largest bed available is queen size. If you prefer a soft mattress or a king-sized bed, bring your own mattress, box spring, and frame. The twin-size beds provided by housing are extra-long so if you are shipping your standard twin mattress you will also need to ship your box spring and bed frame or purchase ones upon arrival. A feather or other mattress topper in queen size is a good alternative to shipping your own bed and are often available at the PX.

Planter boxes or pots: The self-help store has flowers, seeds, dirt, rocks, border materials, and mulch available free of charge in the spring, but planters have to be purchased.

Dehumidifier/humidifier: Dehumidifiers are issued at Self-Help, but quantities are very limited. If you have one, bring it. Dehumidifiers are also available on the economy and simple to identify as they have a “hippo” as a logo. Dehumidifiers are a necessity during monsoon season (95% humidity) as they reduce the moist sheet feeling in bedding or mold/mildew problems in your house. In the winter, you have the opposite problem – you need moisture (15% humidity). Bring a humidifier to reduce bloody noses and dry coughs.

Slipcovers for standard size living room furniture: Certainly not a necessity, but since all the furniture in housing looks the same they can help express your individuality.

Stepladder (small)

Fans: Some housing areas have ceiling fans, but many do not. Pedestal fans are available at the PX seasonally.

Router for wireless net: If you have one, bring it as you will probably want it. However, they are sold at the PX.

CONSIDER NOT BRINGING THE FOLLOWING ITEMS:

Large pieces of furniture, since Housing provides basic household furniture. (See Furniture in A to Z.)

Irreplaceable or light colored upholstered items because the dust here will make them dingy.

Large outdoor toys or play sets, because storage is an issue, and you may not have a downstairs housing unit to set up the items.

China and crystal inner services, unless you routinely do formal entertaining.

Major appliances such as a stove, refrigerator, dishwasher, washing machine and dryer as they are furnished by Housing.

5. AUTOMOBILE - (See Vehicles in A to Z). You must give thought to whether or not you will want your car in Korea. For most eligible individuals, the answer is usually YES. Although there are buses (free post shuttle) and taxis on post, using them can be time-consuming and expensive. Most areas on post are accessible by foot, but some housing areas can be as far as two miles from one’s workplace. If you are allowed to ship a vehicle, it will be indicated in your orders. If you are authorized to register a vehicle on post, you will be allowed to register one automobile and one motorcycle/moped per family. Since it is
considered a recreational item, you are allowed to ship your motorcycle with your household goods but it will count against your weight allowance. If you are not authorized to ship a vehicle, check with your gaining unit to see if you are eligible to purchase one upon arrival. Send your vehicle as early as you can from the U.S.; you’ll be glad you did. There are a variety of used cars (hoop-ties) for sale, usually sold by outgoing personnel. These are local Korean cars, often several years old but reasonably priced. Most of these cars have seen better days, but may be a better option than sending your new car from the U.S. Remember, if you drive off post, roads can be very congested with narrow streets and small parking spaces. Expect many dings and dents on whatever car you decide to use. The single automobile policy is in effect, regardless of whether you ship or purchase one. There are certain exceptions to policy on POV entitlements. Generally E6 and below are not authorized to ship a vehicle on orders. In country, command-sponsored military families independent of rank are generally authorized to own and register a POV on a case by case basis. Exceptions to policy are granted for a second POV.

Several factors should go into your decision of whether to ship or purchase a vehicle:

• Arrival time and cost: Inexpensive ($500-$3,000) used cars are normally available during PCS season. Should you decide to ship your car, seriously consider the options that will enable you to ship your vehicle early, as it can take six weeks to two months for a shipped car to arrive. Though most areas of the post are accessible by foot, walking during the hot summer months can be exhausting, especially if you have young children. In addition, you may be required to live off-post, either permanently or until your quarters are available. Information about shipping vehicles is available at www.whereismypov.com.

• You are authorized to sell one vehicle during your command-sponsored tour. This is a tricky area, so you should seriously consider this before making any shipping decisions based on intent to sell. You are only authorized to sell to other SOFA members. All sales to Korean nationals must go through the Foreign Goods Transaction Office (FGTO). You can contact them at DSN 724-4371 or visit http://www.fgtouzikm.com.

• Any vehicle must pass a safety inspection before installation pass and tags are issued. If your POV is coming from the United States and it has a crack in the windshield glass of 1” or more, be sure to repair or replace it before shipment.

• Finally, if you wish to ship a vehicle back to the U.S. at government expense, you must have shipped one to Korea. A vehicle may be shipped back to the U.S. at your own expense, prices vary from $2,000-5,000 but must meet United States safety and emission standards.

**TRAVEL DAY**

The flight to Korea from the United States is very long. If you have airline mileage points, this would be a good time to use them and upgrade your seats. To make yourself more comfortable on your fight, you might consider bringing:

• Ear plugs
• Eye mask
• Eye drops
• Snacks, gum, lollipops
• Small skin lotion
• Books and magazines (if you travel through airports that have a USO you can take advantage of their book swap tables)
• Travel pillow (not all domestic flights offer them)
• Toiletry kit – always expect the unexpected!
• iPads, Kindles, Nooks, etc. are nice lightweight options for entertainment but don’t forget power cords or extra batteries.

*Note: Due to increased airport security, please check with your airline or TSA prior to arrival at the airport for travel fluid sizes and restricted items. To avoid dehydration, be sure to drink plenty of water during your flight and remember to stand up and stretch or walk around often during your flight.*

**If you are flying with children:**

• Encourage your children to stand up periodically and stretch.
• Bring favorite snacks or foods if you have a child with specific preferences.
• Bring a car seat; you will want them on the plane for smaller children.
• Bring puzzles, notebooks, books, small games, handheld electronics, iPads and portable DVD players. They can be a sanity saver.
• Give your children something to look forward to during a long plane or car ride, prepare surprise packets that will be opened by them periodically during the journey.

Check with your airline about car seat requirements, and liquid restrictions. If transporting breast milk, check what quantities will be allowed in your carry-on, some airlines allow it to be frozen ahead of time and brought on the plane with freezer packs.
When you arrive at Incheon International Airport outside of Seoul, one thing is almost certain— you will be tired and wish you were anywhere other than standing in line for Korean Customs and Immigration. Make sure you have your passport as well as the Customs Declaration and Arrival Card you filled out on the flight with your passport and easily accessible. You may take a train shuttle to the main terminal before beginning the check in process. Follow fellow passengers and pay attention to airport signs, which almost always have the English translation. Ask for assistance if you are unsure. Airport personnel often speak English and will help you or find someone who can.

Do not, under any circumstances, try to bring weapons or contraband into Korea. While the customs inspectors are pleasant and helpful, they are also very thorough. Contraband items such as drugs, weapons, and deer antlers will get you into trouble, not only with the Korean authorities, but also with the Military Police. Decorative swords should be shipped with your household goods. All other weapons should be left in storage. The Incheon International Airport website is http://www.airport.kr/eng/.

**Important Note:** All personnel is required to use the military transportation provided at the military reception desk at Gate 1 unless a sponsor has obtained the proper clearance from the 1st Replacement Company/19th Personnel Company (723-5461) to transport the military member. For other branches of service a sponsor will need to pick you up or you can check in and utilize the Military processing transportation bus to USAG-Yongsan located at Gate 1. All family members (except pets) are allowed to accompany the military member on the Military Processing transportation bus to USAG-Yongsan.

## INCHEON INTERNATIONAL ARRIVAL

There are four main stages to getting through the airport and the process can last about an hour or more.

First stage, you will travel from the international gate to the main terminal via the train shuttle. People who know the system will be moving fast to try to beat the crowd, so you may experience some jostling along the way. Keep your sense of humor and be prepared to either wait for the next shuttle or squeeze into the first one. Once you exit the shuttle, you’ll follow the flow of people toward the Korean Immigration lines. You will stand in single file to wait your turn.

Second stage is Korean Immigration. For military members have your DA 31 and ID card ready; that’s all you need. For family members, **make sure they stamp your passport with an entry stamp. This is very important for the purposes of your SOFA stamp later.** It is better to go through Korean Immigration as a family and not individually. A copy of orders is helpful.

Third stage is the Customs area, but you will need to follow the crowd to the luggage pick up area and get your luggage first. There are luggage carts handy that are free of charge. Once you’ve collected your belongings, walk to the exit and the Customs lines. There will be a couple of selections based on whether you have anything that you need to declare.

Fourth stage is going through the automatic doors to the main terminal to meet those that are there to greet you or make your way over to the Military Reception desk and USO is located at Gate 1 to arrange transportation. USAG-Yongsan is about 45 miles from the airport and will take about an hour and a half to travel. If you arrive during daylight, you’ll enjoy seeing the mountains that rise up all around. If you arrive in the evening hours, you’ll enjoy the beautiful city lights.

You may want to find something to eat before leaving the airport depend-
ing on your time of arrival. Eating facilities on post are normally closed by 21:00. There is an AAFES Shoppette at the Dragon Hill Lodge with extended hours that will have basic items and snacks available.

**Army Liaison Pick Up:** After you arrive at Incheon, you will need to locate the U.S. Military Liaison desk/USO for transport via military bus to USAG-Yongsan (about a one-hour drive). The U.S. Military Liaison Office/USO is located near at Gate 1. Once you arrive on post, the military member will have a short briefing before you check into lodging.

**Sponsor Pick Up:** If your sponsor is meeting you, be careful not to follow the military liaisons. They are highly visible and it is easy to get caught up with the flow. Even though they are calling for all military members, you will need to go through the regular lines like any civilian passenger. You will complete the four stages of the airport and walk out to the arrival area. Your Sponsor will have a signed Pick Up memo from the 1st Replacement Company/19th Personnel Company Commander or First Sergeant authorizing the PCS Pick Up and the Sponsor should understand that they are required to bring the PCS Soldier directly to the 1st Replacement Company/19th Personnel Company for in-processing prior to taking them to lodging. Sponsor pick up is the best way to really have a stress-free arrival to your new home and is a must if you have pets flying with you. If your pet was able to fly with you, follow the signs in the luggage carousel area for animal health services. You must have all your pet records available for inspection. After your records and your pet have been cleared, the animal is free to be transported to USAG-Yongsan but may NOT use government provided transportation. You should coordinate with your sponsor to make sure space is available in their vehicle to transport your family, your pet and your luggage.

**Individual Transportation:** All PCSing Soldiers are required to ride the shuttle bus to Yongsan for in-processing as provided unless prior authorization has been approved for sponsor pick-up. No one is approved for taxi service nor will they be reimbursed (usually stated in the Soldier’s Orders). If you need are traveling to USAG-Yongsan after personal travel, go through any of the exit doors. You can take either a taxi (expensive) or the military bus (free) to USAG-Yongsan. If you wish to take the bus, look for signs to Military Reception. If the desk is open, they can tell you when the next bus to USAG-Yongsan is departing. Military service members in PCS status have priority above anyone else wishing to ride the bus (aside from others in PCS status). Taxis are located just outside the terminal. The taxis allowed on-post all have English speaking drivers and will have a sticker that says “on-post access” posted in a variety of locations on the outside of the taxi. AAFES authorized taxi’s park to the far right as you exit the airport near terminal section F. The AAFES Taxi Stand is in front of Exit Gate 14. All AAFES-authorized taxis have meters and accept U.S. dollars. If you must take a Korean taxi, have Korean Won or verify that they will accept credit cards. Try to select a cab which has clearly visible identification about both the driver and vehicle. A taxi ride to post will cost around $60-$70, and a van for the family will normally cost between $70-$80. AAFES-authorized taxi drivers appreciate and expect a tip whereas the Korean taxi drivers do not expect tips. USAG-Yongsan offers airport shuttle services throughout the day from the Dragon Hill Lodge (www.dragonhilllodge.com). Please check with the concierge and obtain a copy of the schedule. The Capital Hotel, which is located right outside of Gate 6 (Commissary) on USAG-Yongsan, has a shuttle that runs every 20 minutes from 5:30 am-11:30 pm. The cost is about ₩20,000 (approximately $20.00). The shuttle is located near exit door 11. The shuttle service employees are very helpful and will assist you getting onto the Capital Hotel Shuttle. The journey will take about 90 minutes with several stops along way. The shuttle is extremely western and the recorded information on the route is in English.

Upon arrival Soldiers will typically be required to present two complete copies of their orders and all amendments; medical and dental records; and DA 31.

**OSAN AIRBASE ARRIVAL**

From the point of view of clearing customs, landing at Osan is definitely easier than landing at Incheon. Here, you only have to contend with other military personnel and the Korean customs officials, who which will go smoothly as long as your paperwork is in order. Have your passport, military orders, and customs declaration ready and you should move quickly from the area where you pick up your baggage through immigration and customs.

Once you have cleared immigration and customs, you will find you are outside the Osan Passenger Terminal. Whether your sponsor or someone from your gaining unit is waiting for you or you are taking the shuttle to USAG-Yongsan, prepare yourself for the ride to Seoul. The trip can take anywhere from an hour to several hours, depending on traffic conditions and accidents on the expressway.

**Buses run from Osan to Yongsan on a regular basis. Personnel at the MAC Terminal can assist you in getting current information.**

AIR POLLUTION

The major contributor to air pollution in Seoul is automobile emissions. Additionally, a yellow dust or “HwangSa” arrives from the deserts of China, Mongolia and Manchuria (usually in the dry spring months). The small dust particles in the air can cause or exacerbate respiratory problems, eye conditions, and eczema. The United States Environmental Protection Agency (EPA) issued guidelines for outdoor activity levels based on measured levels of dust particles in the air. People with heart or lung disease, older adults and children are at the highest risk. For dust concentration levels above 200, high-risk individual should try to avoid outdoor physical activity. All others should avoid prolonged or heavy outdoor exertion. For levels above 300, those most at risk should remain indoors and keep their activity levels low. Others should avoid all unnecessary outdoor activity. To minimize the adverse effects of “yellow dust,” wash exposed parts of the body with soap and water after coming indoors and seek medical attention promptly if you experience adverse health effects.

The Korean Meteorological Administration (KMA) (www.kma.go.kr, click on English) issues an information notice at dust level concentrations above 200, a watch at concentrations above 300 and a warning at concentrations above 500. This is a weather website so it will only contain Yellow Dust information during the spring season. To learn more about yellow dust, contact your local health care provider or visit the Environmental Protection Agency web site at www.epa.gov/airnow. To learn more about yellow dust, contact your local health care provider or visit the Environmental Protection Agency web site at www.epa.gov/airnow. Yellow dust advisories are aired on Channel 3 and the USFK and USAG-Yongsan web sites: www.usfk.mil and www.korea.amedd.army.mil/webapp/yellowsand

Available classes vary by community. Please contact your local area Red Cross station for class availability and cost.

**Armed Forces Emergency Service (AFES):** The Red Cross provides rapid communications between military members, DoD civilians and their families regarding death, serious illness, child care breakdowns, birth, health and welfare reports, and other personal or family problems. Family members back home should call their local Red Cross to request emergency message service (to locate a local chapter, visit www.redcross.org and enter the zip code in the space provided or call toll free 1-877-272-7337). Your family will need your current rank, social security number, and military address for the request. Answers to frequently asked questions are listed below.

**How do I send a message?** For requests between 8 am-4 pm, call your installation Red Cross Office. After hours, contact the USAG-Yongsan Office 738-3670. A caseworker will process your message. To expedite service, please provide as much pertinent information related to the situation as possible (i.e., local point of contact, name and phone numbers, doctor’s name and phone number, location of patient, your 1SG’s or Company Commander’s name and phone numbers).

**What do I do if I get a message?** For emergency messages, your 1SG will be called to copy its contents and deliver them to you. If a non-emergency message arrives every effort will be made to locate you in order to deliver its contents to you directly. Once you have received your message, discuss the situation with your chain of command.

**Will the service pay my way home?** If you have been placed on Emergency Leave with Funded Travel Orders, the military will pay for your plane ticket to a port of entry on the west coast. Any follow-on travel will be your responsibility. Ordinary Leave under Emergency Conditions requires that you pay for the entire plane ticket. Contact your chain of command regarding travel regulations for your family.

**BABY ITEMS**

Though the PX and Furniture Store carry most baby items, choice is extremely limited. If you want a particular stroller, baby jogger or high chair, purchase it prior to departing the U.S. and ship it in your household shipment. Most online vendors (including eBay sellers) will not ship large items to APO addresses. If they do, the shipping costs can be more than the actual item purchased. Baby furniture items such as cribs, mattresses, changing tables and rocking chairs are not supplied by the Furnishings Management Office and can be expensive to purchase in Korea. Infant and toddler clothing stocks in the PX are quickly depleted. Newborn clothing can be very expensive at the department stores.

The PX has a maternity section but, like infant clothing, items sell out quickly. The thrift store often has gently used maternity clothes and baby items in stock. For more information, see the Shopping section for local shopping ideas. Also, check out the Facebook Page: The Yongsan Flea Market.

**BANKING/CHECK CASHING**

**Community Bank**: operates the banking facilities on all posts and bases in Korea with full service banking: direct deposit, won conversion, auto loans
BEAUTY
Salons: There are several nice salons on post that offer manicures, pedicures, massages and hairstyling. Locations: Dragon Hill Lodge Clippers (738-2222 ext. 6810, Mon-Sat 9 am-7 pm/Sun 10 am-7 pm); Main Beauty Shop (Mini Mall/Four Seasons, 723-2066, 9 am-8 pm daily); and Stylique (behind the Yongsan Fire Station on South Post, 738-4520, Mon-Sat 9 am-7 pm/Sun 9 am-6 pm). Prices vary but expect to pay U.S. prices; ask for pricing beforehand. There are also many salons in Seoul; however, some are currently off limits by order of the area commander, so check before venturing off-post.

Products: If you have any special hair care products, check the online websites to see if your product can be ordered and shipped to an APO. Two sites that many spouses have had good luck with are www.aveda.com and www.hairretail.com. If your favorite products are not available for order, try to bring some with you. Even though some products can be purchased off post, they can be hard to find and very expensive.

BLACK MARKET
Under the Status of Forces Agreement (SOFA), the United States is allowed to import certain products, duty free, for the Commissary and Exchange services. These products are strictly for the personal use of authorized personnel. Black Marketing is the illegal sale of those goods into the Korean economy. This practice can be cause for severe disciplinary action. The original goal of ration control was, and still is today, to control black marketing. Report anyone who is engaged in this practice to the Black Marketing Hotline: 738-5111.

BOSS
Better Opportunities for Single Soldiers (Bldg 4253, 723-4135 for program manager) is a program dedicated to enhancing the quality of life for single or geographically single Soldiers of all ranks. Soldiers and MWR advisors work with Commanders, Command Sergeants Major and First Sergeants to provide leisure programs and help direct the resolution of quality of life issues.

BOWLING CENTER
Yongsan Lanes (Main Post, 723-7830/5820) offers numerous specials and

(new and used) and ATM access. The Community Bank ATM card offers 24/7 banking with no fees for withdrawing U.S. dollars, Korean won or balance inquiries. Community Bank offers 13 full-time branches, two part-time offices and a network of 51 ATMs on the peninsula.

Yongsan Branches: Main Post (Four Seasons Mini-Mall, 724-4724/4725 Tues-Fri 9:30 am-5 pm, Sat 9:30 am-3:30 pm, and payday Mondays); South Post Dragon Hill Lodge (738-3520/5540, Mon-Fri 9 am-3 pm).

ATM locations include the Dragon Hill Lodge, PX Community Bank, Camp Coiner, the back entrance of the Moyer Community Activities Center, the parking lot between the Furniture Store and the Movie Theater, outside the Commissary and inside the Brian Allgood Hospital.

Navy Federal Credit Union: (Bldg 1479, between the Main Post food court and Trent Gym, 725-4056/3282, Mon-Fri 10 am-4 pm) offers online banking, credit and debit cards, auto loan, line of credit, signature loans, CDs and IRAs. There are no ATM machines serviced by Navy Federal Credit Union.

USAA: Call and set up a system for local withdrawals at ATMs depending on your needs. The ATM restrictions usually allow only $500 withdrawals at one time, so you would need to make multiple withdrawals depending on your needs.

Bank Cards: You may obtain cash or make account inquiries with your credit card, or any other ATM card which displays the AFFN or CIRRUS Network logo. Ask your bank about service fees that may apply. Many banks will not charge ATM or currency conversion fees for members on active-duty overseas orders.

Cashing Checks: Many people elect to keep their checking account at a U.S. bank or credit union. The Community Bank will only cash checks if you have an account with them. You may cash checks for up to $200.00 at the PX in the Customer Service Section. The 175th Finance office will cash only the first month’s rent and security deposit checks. Note: The banks on post observe both U.S. and Korean holidays.

BARBER SHOPS
There are several barbershops on Yongsan. Current locations are Brian Allgood Community Hospital (Bldg 7005, 737-5285, Mon-Fri 9 am-5 pm); Camp Coiner Mini Mall (Bldg 1094, 724-5169, Mon-Fri 9 am-7 pm/Sat 10 am-5 pm); JUSMAG-K/Navy Club (Bldg 1575, Main Post 725-6555, Mon-Fri 8:30 am-6 pm); Main Post Mini Mall/Four Seasons (Bldg 1447, 723-7858, 9 am-8 pm daily); South Post (Mini Mall/Shoppette, 738-8176, Mon-Fri 9 am-7 pm); and South Post (Bldg 4035, behind One Stop Processing Center/1st Replacement Company/19th Personnel Company, 738-6976, Mon-Sat 9 am-6 pm).
bowling leagues, including a youth league. The center can also be used for birthday parties or special events. Yongsan Lanes Food Court features fast food items and some Korean dishes.

**BUSES (On and Off Post):** See Transportation in A to Z.

**BUSINESS CARDS**

It is customary in the Korean culture to give a business card to a new acquaintance. They also come in handy when moving to a new location. You may want to bring some cards with you from the U.S. with your name, email and new APO address. You can write in phone numbers etc. as you get them. To help during in-processing, keep a card for yourself and write important numbers you may need on the back (e.g., taxi service, CDC, Youth Services). Oriental Press (Main Post, 738-5005 or oppress@kornet.net) is one vendor. There are also business card vendors located in the Moyer Community Activity Center and the Gallery (723-5347).

If you have cards made in Korea, use a reputable printer or you might find yourself having the cards reprinted. It helps to type the information to give to the printer. Have the information printed in English on one side and Hangul on the other.

**CARPETS**

Very few quarters or apartments have carpeting. The floors in most government quarters are linoleum over concrete and can be very cold. Off-post apartments, in contrast, generally have heated floors. Due to lack of carpets and rugs available in Korea, consider sending carpets and rugs in your HHG shipment.

For more information see “Shopping” section for local purchase options.

**CELL PHONES**

Korea is the most wired country in the world. Note: Only unlocked American cell phones will work in Korea (and vice versa), but you will need to purchase a Korean SIM card and calling plan. Investigate your options: an unlocked iPhone from the U.S. will only get 3G service in Korea. Some Korean cell phone plans also include calls to and from the U.S. at reasonable prices, so check your options before you buy. Some carriers offer a phone number you can call that will connect you to the U.S. without any additional fees: for example, calling 1688-8501 from a KT/Olleh phone will allow you to use your cell phone minutes to dial the U.S.

In addition, your Korean cell phone will work throughout the country (except at the DMZ) including subways and most buildings. The one frustrating dead zone is in the hilly area on post, which encompasses Watkins Ridge and the gas station.

**Important Note:** The U.S. Military and the Korean government require drivers to use a “hands free” device (NO HEADSETS). If you must take a call while driving, find a safe place to pull over and take the call.

**Where to Buy a Phone:** There is a concession stand in the PX. New and used phones are available, ranging in price from $50 to $500. The sales people are very helpful and plans vary with the service and minutes you require. A basic plan starts for as little as $10 per month plus the cost of the phone. Read all service agreements carefully, some plans charge for all calls made to cell phones operated by other service providers.

The Second Hand Rose Thrift Store sells used phones (with pre-programmed number and charger) for around $25.00. You can also use the New Yongsan Buy & Sell Facebook groups to find someone who is leaving Korea who would like you to take over their cell phone plan. Unlike in the U.S., military orders will not allow you to cancel your cell phone contract. If you leave before your contract is complete, you will need to either pay off the remaining months of the plan or “sell” your plan to someone else. If you take over a contract, you will need to take the phone to the place of purchase and change the payment information associated with the phone.

The Business Center in the Dragon Hill Lodge and the ONE STOP Center (U.S. Embassy Association Bldg 5-8105 792-6655, above Starbucks) sell new and used cell phones and plans. The new phones at the ONE STOP Center are less expensive (prices begin around $50), but both locations offer many different plans (teenager plans, roll over minutes, roll over text, Bluetooth world roaming, etc.). Connections are usually same-day and the staff will

CHILD YOUTH AND SCHOOL SERVICES (CYSS)

The CYSS Yongsan services children/youth from 6 weeks to 18 years. Programs include the Child Development Center (CDC), School-Age Services (SAS), Family Child Care (FCC), Middle School/Teen Centers, Youth Sports and SKIES Unlimited. Registration is open to active duty military personnel, APF and NAF DoD civilian personnel, reservists on active duty or during inactive duty personnel training, DoD contractors, and their families. Please call Parent Central or visit www.cysskorea.com to verify current enrollment requirements.

To enroll in any CYSS program, children must be registered with CYSS First. Please visit CYSS Parent Central (Bldg 5210, 736-5036/736-3015, Mon, Tues, Wed, and Fri 0800-1645, Thurs 10 am-5 pm). Please be aware that waiting lists for childcare at CDC and SAC do exist and can be lengthy. Priority for placement goes first to single parent, dual military, and dual command sponsored families, second to military or civilian sponsors with locally hired or full time student (in-person classes only) spouses, and third to all others.

**CDC**: (Bldg 4280, 738-3404/3406, front desk Mon-Fri 0545-1800) offers full day care (Mon-Fri 0545-1800), hourly care, and Sure Start/Kindergarten before and after school care. Hourly care (0830-1230 Mon-Fri) is provided at $4.00/hour, with a limit of four hours of care per day and up to sixteen hours of care per week. Once registered in CYSS, reservations can be made with the CDC from 0800-1600.

**FCC**: homes offer childcare provided by military family members in on-post housing. FCC Providers receive the same training and support as facility based staff, and may be able to offer more flexible hours than CYSS facilities.

**SAS** (Bldg 4211, 738-4707) offers before and after school care and activities for grades 1-5.

**Middle School/Teen Center**: (Bldg 4215, South Post, 738-2310/738-8113) offers after school and weekend activities for grades 6-12, including lock-ins, field trips, clubs, and more.

**Youth Sports** (Bldg 4215, 738-5567/738-8117) seasons run during different parts of the year. Sports clinics are offered during the summer months. Programs offered include soccer, flag football, volleyball, softball, and more. For a season schedule, please visit Parent Central.

**SKIES Unlimited**: (738-8122/2311) instructional classes are offered year-round and include martial arts, dance, and more. For a full class listing and schedules, please visit Parent Central.

**Volunteering for CYSS programs**: CYSS is always in need of adult volunteers and coaches for the various youth programs scheduled. Call 738-5567/738-8117 or 736-8122. Background checks are required for volunteers and this process may take some time. If you wish to participate with your child, start the paperwork early!

**CHRISTMAS TREES**

The Boy Scouts sell live-cut trees imported from the U.S. They presell the trees that usually arrive in November and are distributed through advertised locations on Main and South Post. Artificial trees are available at the AAFES Four Seasons Store in the Mini Mall on Main Post. Both live and artificial trees are available on the economy, though they are much more expensive than those available on post. Many people buy trees and decorations at the Express Bus Terminal on the third floor (subway lines 3 and 7). The Second Hand Rose Thrift Shop (Bldg 4222, in the movie theater parking lot) usually has a selection of artificial trees along with a varied assortment of ornaments and other Christmas decorations at very reasonable prices. Christmas tree stands are in short supply so you may consider placing a stand in your HHG shipment. Before purchasing, consider storage requirements for artificial trees and the difficulties of disposing of live trees if you live off base.

**CLAIMS**

A claim is a written demand for a specific amount that you calculate is suitable reimbursement for the replacement of your lost or damaged goods during a PCS move. Generally, the transportation service provider (TSP)
is required to replace any item that is lost or destroyed with a new item or pay the cost of a new item of the same type and quality without making a depreciation deduction. However, damaged items may be repaired by the TSP if repair is less than the full replacement value of the item. Repair will be to the extent necessary to restore the item to its condition when received by the TSP. Regulations change often, so contact Military Claims office, Legal Services Division (2nd floor, ACS Bldg 4106, 738-8111). They will advise you on how to file a claim with your TSP.

CLUBS AND ORGANIZATIONS
See the Quick References: Facebook Groups section for more clubs and organizations.

American Forces’ Spouses’ Club (AFSC): www.afscyongsan.org (see the membership form in this book to join) is open to all military, civilian, and DoD spouses stationed in Korea. Associate membership is available for retired and widowed members of the U.S. Armed Forces, ARC, USO and special service personnel who are authorized with SOFA/MOFA. Meetings are held monthly (September through May) at the Dragon Hill Lodge. A welcome coffee is held in early fall and new members can join throughout the year.

The Chosun Chatter is a monthly publication of the AFSC and the group updates, edits, and publishes The Seoul Survivor annually. AFSC sponsors an annual auction and other funding raising events which require a great deal of volunteer support. JOIN US! The AFSC also sponsors activities and clubs which can include book club, bunko, tennis, hiking, running, international cooking, lunch bunch, needlework circle, scrapbooking, shop-n-tour, etc., based on member interests. A membership form is available in the back of this book. Forms are also available at club meetings, on the official website, and on the club Facebook page.

American Women’s Club (AWC): www.awckorea-seoul.org or visit the Second Hand Rose Thrift Shop and pick up a pamphlet to join. Regular membership is open to all U.S. citizens and associate membership to all other persons. The AWC provides many social and cultural activities for expatriate women and families in Seoul. It sponsors newcomer coffees (normally held the second Tuesday of the month) as well as monthly lunches featuring different themes and speakers. A very popular activity is one where members can go out of Seoul (all expenses paid) for a day to interact with school children in the morning and tour and shop in the afternoon. The AWC also operates the Second Hand Rose Thrift Shop (see Thrift Shop in A-Z). The proceeds from the shop are used to support AWC charities in both the USFK and Korean Communities.

Church Clubs: and Bible Studies See Religious Activities in A-Z.

Military Clubs: There are a number of clubs throughout post. Some, such as the Main Post Club (723-5678/5685) and the Navy Club (725-7731/Food Delivery Service: 725-6108/6114), are open to everyone. The RAS programs address different aspects of Korean life and culture, such as dance, music and mask drama. Events are free and you are encouraged to bring friends with you. The RAS also sponsors excellent tours and bi-monthly lectures (all of which are announced in the local papers). Members receive discounts on the various RAS tours to places of historic and scenic interest and on the Society’s publications that include some excellent books on Korea.

Seoul International Women’s Association (SIWA, www.siwapage.com) is one of the largest organizations dedicated to expatriate women living in the greater Seoul area. There are currently over 50 nationalities represented. In addition to the Monthly Coffee Mornings and Newcomers Welcome, some of the activities are tours (museums, skiing, rafting, hiking trips, discovery of Seoul, etc.), classes (languages, arts and crafts, cooking, games), and evening or weekend activities. The Welfare arm of the organization puts together a Diplomatic Bazaar and raises funds for Korean charities. There is also a Working Women’s network and members receive the bi-monthly magazine Discovery. The membership fee is modest (about 50,000 KRW) and the benefits are great. This is one of the quickest ways to get to know Seoul and make friends from different horizons.

Special Interest Clubs: There are several groups on post formed by people with specific interests such as quilting, photography, or hiking. These groups meet at various locations. Check cable channel 3 on AFN, bulletin boards, the Morning Calm Newspaper, the internet (Facebook Groups, www.meetup.com, Yahoo! Groups, etc.), or through word of mouth. If you have an interest, there is probably a group for you. Or... start one of your own!

DENTAL SERVICES
Patients receive dental treatment in Korea through a combination of in-house care in military clinics and referral to Preferred Host Nation Providers. Because the DENTAC mission encompasses Soldier readiness throughout the peninsula, family member dental care in military clinics is limited. While there is some degree of space-available in-house family member care, the majority of family member care occurs through a network of Preferred Host Nation Providers. Selected providers practice dentistry in line with U.S. standards, maintain modern facilities, engage in infection control and sterilization protocols in accordance with U.S. standards and Center of Disease Control guidance. They sometimes accept UCCI insurance in lieu of upfront payment from the patient. The DENTAC strongly encourages all sponsors to ensure coverage of their family members through participation in the TRICARE Dental Program. Their website, www.tricare.mil/dental, provides up-to-date dental information. Active-duty family members comprise the only Other-Than-Active-Duty category that may obtain routine space-available care in military dental clinics. However, the DENTAC will always provide emergency care to address pain, infection, or trauma to members of all beneficiary categories. Patients may seek after-hours emergency dental care by reporting to the emergency room at the local military hospital or treatment facility.

Yongsan Dental Clinics for Active Duty Personnel are South Post Dental (Clinic #2) in Bldg 5107, 736-4779 or the Carius Dental Clinic on Main Post Bldg 1665, 725-8271/3063. The Dental Clinic for adult family members is near the hospital and is called Dental Clinic #2. The Dental Clinic for youth family members (Clinic #3) is located behind the Elementary School Cafeteria (on Stoves Avenue) Bldg 3576, 736-5221/5799.

The TRICARE Dental Office at Yongsan Garrison is located in the Brian Allgood Army Community Hospital, Room 1150. Contact the S. Korean TRICARE dental representative, Mr. Suh Kyu Ho kyu.suh@amedd.army.mil DSN 736-5051/COMM 0505-736-5051, for further information regarding insurance and off-post referrals. Turn right after the main entrance/reception desk. Mr. Suh’s office is in the first hallway on the right. For additional information, visit www.korea.amedd.army.mil.

Several Korean dentists come highly recommended and have modern and up to date equipment and practices. Check with neighbors and local advertising for contact information. Preferred providers will file appropriate forms with TRICARE.

DISEASES
Tuberculosis is present on the Korean peninsula. Each year about 30,000 cases of active TB are reported. To test for this disease, have a PPD (Purified Protein Derivative for tuberculosis infection) prior to coming to Korea, every year while in Korea, and just prior to leaving Korea. This is a mandatory requirement for Active Duty service members and highly recommended for all others. DoDDS and Child Youth and School Services require current proof of PPD testing for registration.

Vector-Borne Diseases are similar to those in the U.S.; diseases transmitted by mosquitoes, mites, ticks and rodents are present in Korea. Vivax Malaria is transmitted by mosquitoes and is present at relatively low levels, primarily in areas north of Seoul and near the DMZ. For protection, military personnel should use repellents on exposed skin when in malaria risk areas during hours when mosquitoes are present. As mosquitoes can also bite through clothing, DEET repellent spray can be applied to the outer garments for protection. Soldiers should use permethrin impregnated ACUs during the malaria season.

Common House Mosquito (Culex. pipiens) is often found in abundance on military installations, including Yongsan Garrison. In Korea it is not attributed to the transmission of any disease. Populations breed in standing water on and off post and in government housing complexes, making pesticide applications less effective. Mosquitoes are more prevalent at night; they enter houses through air conditioning systems or any small opening (e.g., under the door and through the drains). Bed nets, drain covers and indoor space sprays (available from the military self help supply facility) are often effective. One Korean product that seems effective is called MOGSOL (needs a plug adaptor) and is available off post at grocery stores.
**DOG PARK**

A Dog Park/Playground (5 am-10 pm daily) is located beside the Pet Care Center near Gate 13 and has two large fenced areas designated for you to exercise and play with your pets off the leash. Please observe the rules of ‘petiquette’ posted in the park. (Owners are responsible and liable for their pets’ actions; owners must pick-up and dispose of all pet waste; aggressive pets or pets in heat are not allowed in the park; pet owners may have no more than two dogs with them per visit). This is a wonderful place for those living both on and off-post to exercise and socialize their dogs. It is also a great place for dog owners to socialize.

**DRAGON HILL LODGE**

The Dragon Hill Lodge is one of five Armed Forces Recreation Centers (from U.S: 011-822-7918-2222, Fax 011-822-790-1576; from Korea: DSN 738-2222, From cell within Korea 050-3338-2222/Fax 790-1576). Market Square, the hotel’s retail shopping area, offers a range of stores including a PX Shoppette, Flower Shop, Dynasty Furniture, clothing, Exchange New Car Sales, dry cleaners, beauty shop, cyber café, car rental, local tours and much more. The DHL Children’s Park is a great place for the youngsters to play.

**DRIVER’S LICENSE**

If you plan to drive in Korea, even solely on military installations, you must have a USFK license (you may use your stateside license to legally drive in Korea for the first 30 days after your arrival). Your USFK license, along with a valid stateside license, will allow you to drive throughout Korea. There are various categories of driver’s licenses in Korea, but most personnel will only need a USFK license. All applicants are required to take a written test regarding Korean traffic rules. Get a copy of the manual from the Driver’s Testing Office (ACS Bldg 4106,738-5568/3235-6) or download a Drivers Study Guide for Safe Driving in Korea (English Version) from http://yongsan.army.mil (family members do not need to know the Military Drivers section). Tests are by appointment only; call to schedule.

Motorcycle/moped owners must complete an Army-approved Motorcycle Safety Course to receive a USFK Motorcycle or Moped License and Motorcycle Safety Foundation Experienced Rider Course or Motorcycle Riders Course Completion Card (consider taking this course before you arrive due to the lack of course availability in Korea).
ENHANCED SECURITY PEDESTRIAN GATES (ESPG)

The Enhanced Security Pedestrian Gates (ESPGs) are unmanned walk-through gates for gaining entry onto and exiting post. This system continues to be enhanced to better serve our community.

To utilize the ESPG, swipe your ID card with the bar code to the left. Once you see the green entry light, step inside and place the finger you registered with Defense Biometrics Identification System (DBIDS) on the fingerprint reader. If you have bags, hold them in front of you. Leave your finger on the reader until the screen says “Enter the Site.” If the fingerprint is rejected, press the Exit button for one second to leave the booth and try again.

Some points to keep in mind: If your card is not accepted multiple times, you will need to get your card replaced. If your fingerprint cannot be read after numerous attempts, stop by DBIDS in 1st Replacement Company/19th Personnel Company and have your fingerprints retaken. If you are at the booth with small children, alert the guard by using the outside intercom call box. Do not use the fingerprint reader and ignore “Leave the booth” on the screen. Once you’ve spoken with the guard over the intercom, they will override the door and allow entry.

Be prepared in case you are denied access. You can walk over to a manned gate, like Gate 1/the Dragon Hill Lodge Gate or Gate 13/the South Post Visitor Center Gate, which are open 24/7. As a last resort, you can call an AAFES taxi at 1544-9080. If you use a local cab, you can call the AAFES taxi service and they can translate for you, or you can call 02-120 on your cell phone to speak with a translator provided by the Seoul Metropolitan Government.

For more information and to view ESPG usage videos, please visit USAG Yongsan’s Facebook page at www.facebook.com/youryongsan. If you find yourself at the booth and would like to call the Yongsan ESPG Control Desk by cell phone, please call 0505-724-6707.

EMPLOYMENT

It may take some time and patience to find a job for spouses desiring to work, but with determination and a lot of networking, it can be done. Full-time or part-time jobs are listed through the Seoul Civilian Personnel Office (CPO). The ACS has a Family Member Employment office, with an excellent staff, which will assist you in your job search and in filling out Form SF171 for GS positions (ACS Bldg 4106, South Post, 738-8977. EMBASSY INFORMATION

Most countries maintain an embassy or consulate in Seoul. They can be very helpful in providing you with travel information for their country and will assist in any visa arrangements if you are not traveling with a group that is handling details for you. The embassies can also tell you of any necessary vaccinations/immunizations required for travel in their country. Do not expect the embassy to warn you of potential difficulties/dangers of travel in their country; most try to encourage tourism. Check with the U.S. Embassy for travel advisories for specific countries. The Community Help Book or post phone book (obtain a copy at the ACS building) has the phone numbers for embassies from many countries. Check with the Yongsan library or the American Embassy (721-4114, Commercial 02-397-4114 or www.asktheconsul.org) for any current telephone numbers or addresses you may need. The U.S. Embassy Association (USEA) exists not only for the American Embassy community but also for Military Members and Civilians assigned to or visiting USAG-Yongsan (Bldg 8105, Yongsan South Post next to Starbucks, from U.S. 011-822-7918-6124; from Korea DSN 738-6124/Commercial 02-397-4487/Fax 796-9488, or www.useaseoul.com, Mon-Fri 8:30 am-5 pm, closed on all American and Korean holidays). The USEA can accommodate many of your needs, such as a comfortable and quiet TDY suite at a low rate ($100) on Yongsan Garrison. The TDY suite guestrooms contain a queen size bed, sitting room, kitchenette, full bath, cable TV, a DSN telephone and Internet service.

The USEA also offers Event Hall rentals for official functions or private parties, for either formal or informal functions. Several options are available which are guaranteed to meet the needs of your meetings and special events. USEA logo items are available for sale in the Main Office. USEA vendors include the Business Center, Jamba Juice, Starbucks, Fuji Restaurant (sushi), Korea Palace, and Philo Nature Day Spa/Massage and Nail Art.

**Teaching** Substitute teachers are always needed on post. If you wish to teach at the Seoul American Elementary, Middle or High Schools, either full-time or on a substitute basis, make inquiries at the main office of the school at which you wish to work. A high school diploma and background check are required for substitute teaching positions. Teaching positions are also available at public and private schools located in Seoul; you can either write to the schools directly or contact them as soon as you arrive in Korea. They often advertise in The Morning Calm, bulletin boards located throughout Yongsan, the Commissary and the PX.

It is to your advantage to contact schools before your arrival in Korea. Aspects of the E-2 visa process, which is required for any foreigner who teaches English, must be done outside Korea. Visit www.reachtoteachrecruiting.com for a thorough review of the E-2 visa process.

Review any contracts carefully with the ACS Employment Readiness staff before accepting any position. Also, even though you will have 90 days to obtain a SOFA stamp, you must have it in your possession before you can apply for a job.

**Summer Youth Employment Program** is available for DoD military and civilian family members who are full-time students between the ages of 14-22. Although many of the jobs involve general office assistance, there are also a variety of areas where specific skills and background are required. One requirement for summer employment with USFK activities is a personal Social Security Number (SSN). Parents whose children are outside of Korea should ensure that their children possess a SSN before traveling to Korea if they wish to work here during the summer. Students must also have proof of full-time student status in the U.S..

**Winter-Hire Program** is designed for after-school and weekend work for students aged 16-22. Youth or spouses planning to work on the economy should check with the U.S. Embassy (www.asktheconsul.org) in advance to see what types of visas are required. For more information, check with the Student Hire Office at ACS (738-8977). There are always numerous babysitting opportunities for teenagers. Red Cross Babysitting Certification can be completed at the Moyer Recreation Center.

Several fitness centers are located on-post. All are open seven days per week, but hours vary. Each center is open to all USFK ID cardholders. Use of the facilities is free of charge with the exception of The Point, a state-of-the-art fitness center located in the Dragon Hill Lodge (738-2233 ext.6240, Commercial 790-0016). Other fitness centers located on Yongsan offer a wide range of services including Nautilus equipment, separate free-weight rooms, multipurpose rooms, basketball, squash courts, instructional classes and locker rooms with saunas.

FORCE PROTECTION/DEMONSTRATIONS
Korea remains a relatively safe country. However, it is important to be aware of the measures taken to ensure safety during your tour of duty. U.S. military installations are secure facilities. No one is allowed access to the post without a valid ID card. You must physically hand ID cards to the guards so they are able to view both sides. In addition, only vehicles with proper registration decals are allowed access to the post. Authorized ID card holders may escort visitors and vehicles onto the post. (See Visitors in A to Z.)

As with all military installations, USAG-Yongsan operates security procedures based upon levels of Force Protection (FP CON). The FP CON levels change according to the level of threat. Force Protection levels range from FP CON Alpha (lowest threat) to FP CON Delta (highest threat). The current FP CON level will generally be posted at the installation gates, for specific information visit www.usfk.mil, the USFK Force Protection site. For those living on post, the commander’s channel is another good source of information for the latest updates.

Another safety concern you should be aware of are the demonstrations periodically held throughout the peninsula. Protesters demonstrate for a variety of reasons, including opposition to the U.S. military presence in Korea. These demonstrations are sometimes held just outside the Garrison gates. Military officials on the post TV channels, Facebook, and radio stations 102.7FM and 1530AM issue warnings affecting those affiliated with the government. Korean National Police are always present at these demonstrations to provide additional security.

Finally, as with any other large metropolitan city, you should practice common sense when venturing out. The buddy system is highly encouraged and at times is mandatory. There is a curfew for family member minors during weeknights and on weekends. Because curfew hours and days vary for all other personnel, check the current curfew times at http://yongsan.korea.army.mil.

FURNITURE SUPPORT
Furniture support is available from the housing office for civilian, DoD, and military personnel. However, be aware that the authorized furniture support period varies. If you are an accompanied military family living on post (whether you brought all or partial household goods), you are authorized full furniture support from the Housing Office (738-7539). If you are an accompanied military family living off-post and are only entitled to bring partial household goods support, you are authorized furniture support from the Housing Office for your entire tour. If you are entitled to bring full household goods and live off post, you are only authorized furniture support for 6 months (whether you brought all or partial household goods). Finally, if you are a civilian family or DoD employee, you are only authorized six months of furniture support because you are automatically entitled to full household goods shipment.
For tee times, annual memberships and bus schedules call 736-3483/3490. Sung Nam has a Ladies’ Golf Association, and Thursday mornings have been designated as ladies’ day. Tee times are set aside each Thursday morning for members of the Ladies’ Golf Association. Open play is permitted prior to and immediately following the Association’s use of these times. The Ladies’ season runs from April-October each year. For more information, call 736-3483/3490 and check the board in the ladies’ locker room at Sung Nam.

**GOLF DRIVING RANGE/PRO SHOP**

The driving range at USAG-Yongsan is a fun place to practice your swing and brush up on your putting skills (Bldg 4271, South Post off X Corps Blvd, across from the Fire Station, 738-4190). A pro Golf Shop on the range carries a variety of golfing accessories, shoes, clubs and clothing in American sizes (the AAFES Four Seasons Store also sells a variety of golf equipment).

**HOME-BASED BUSINESSES**

A home business not only adds extra support to the family income, it also provides mobility for the military lifestyle. Here on USAG-Yongsan there are some restrictions to operate a home business legally. In order to conduct a home business a written request must be submitted and approved by the Garrison Commander. The request must include...

- A description of product or services to be sold
- Name of individual-agency, address, phone number, and email.
- Documentation of registration or licenses
- General description of fees or charges

Please keep in mind not all application will be approved on the basis of services or products already provided on the Garrison. For more information on restrictions and use of your APO address please contact the following individuals...

**GASOLINE**

The AAFES Gas Station fuel prices are considerably cheaper than on the Korean economy (near Gate 5, close to Itaewon Acres Housing, 738-7649, Mon- Fri 7am-7pm/Sat-Sun 8am-7pm). You must present your ID card and Ration Control Card before you pump gas. You can purchase drinks, some auto needs, oil, wiper fluid and some snacks at the small shop on site. Selection and quantities are very limited. Vacuums are available as well as free air for tires. If you must purchase fuel on the economy, make sure you are getting the proper grade for your vehicle. Korean gas is measured and priced in liters and is expensive, so have enough Korean Won with you before having your vehicle filled.

**GAS GRILLS AND PROPANE**

Propane tanks (even purged) cannot be shipped with your household goods. The Four Seasons, located in the Main Post Mini Mall, carries gas grills and propane tanks and has a good supply during summer months. Currently, the Four Seasons refills tanks (check with the sales associates for policy changes). They also have maps with information on locations off post where tanks can be refilled. Most picnic areas near the various housing complexes have charcoal grills for public use.

**GOLF**

The Sung Nam Golf Course and Driving Range (736-3483/3490) is open to all military ID card holders and features an 18-hole par 72 course. The clubhouse features a dining room and pro shop as well as on-course snack bars and refreshment stands. They also have practice putting greens, a driving range and club facilities complete with daily-use lockers, club storage, showers, hot tubs, and rental power carts. Buses to Sung Nam leave from the parking lot situated between the MWR Arts & Crafts Center and the Burke Towers tennis courts.
**Youth Sports program** provides great opportunities for all age groups to excel in sports, to include baseball, soccer, T-ball, volleyball, flag football, swimming and softball. Many homeschooling families are very active in the Youth Sports program. Coaches are always needed. Contact the Youth Sports Director for CYSS at 738-4581 for more information. Unique opportunities to participate in martial arts programs are also available.

**Legal issues** To find out some of the legal issues concerning homeschooling overseas, visit the Homeschooling Legal Defense Association (website www.hslda.org, search “Military Homeschooling Overseas”). The association offers discounts to military members. Because school age children of a U.S. military member or a DoD civilian in Korea do not reside in any of the 50 states, they are not subject to U.S. State Mandatory Attendance Statutes. Additionally, because of the Status of Forces Agreement, they are not subject to homeschooling laws in the host country. However, families can be investigated on an individual basis. Of course, it is highly recommended that you keep thorough records, conduct school for the minimum number of days required by your permanent state of residence and document attendance. You will need this documentation should you either put your child in regular school or transfer to a state with more stringent homeschooling laws.

**HOTELS**

Most incoming military personnel stay at the Dragon Hill Lodge on South Post (see Dragon Hill Lodge in A to Z). If the Dragon Hill Lodge does not have any rooms available, the Reservations Department will assist you in reserving rooms at the JW Marriott (02-6282-6282). If you have to seek accommodations elsewhere on the economy, Seoul has a wide variety of hotels with varying prices.

Request the Hotel Referral List from the Dragon Hill Lodge Guest Services Desk. An abbreviated list is included below. To make reservations at hotels without DSN access, you may use pay phones in the lobby of the Dragon Hill Lodge. To make reservations at any of these hotels from the U.S., first dial 011-82-2 and then the last seven numbers listed. If dialing from a DSN number, follow the procedure for dialing listed at the beginning of the handbook.

**HOME REPAIRS/SELF-HELP**

The Building Utility Repair Team Self-help (BURTS) Center (Bldg 5274, South Post, next to the Quartermaster laundry by Gate 13, 736-7818/5512/5513, Mon 8 am-12 pm/Tue-Sat 8 am-5 pm, closed daily 12 pm-1 pm, Sundays, and Korean Holidays) stocks items needed to maintain your post quarters (e.g., fluorescent tubes, glass light fixtures, kitchen drain baskets, etc.) along with a full range of hand tools and power equipment to check out for short time periods. The BURTS Center sometimes carries bedding plants (in the spring) and a variety of interior decorating supplies for do-it-yourself landscapers and interior decorators. Self Help is not authorized to issue supplies to personnel living off-post.

**HOMESCHOOLING**

Many families who have chosen to home school find their time in Seoul filled with great adventures, fun social groups, and a variety of activities. The cooperative nature of the DoDDS community provides opportunities for homeschoolers to be involved in school classes and activities. This is a special arrangement not always available in the U.S.. Your student can register with the school and take single classes in Elementary, Middle and High School. For example, there are students who take only Korean or Chinese classes.

**Groups:** The best way to find out what groups are currently active is to check in with the Seoul American Homeschool Network (SAHN) on Facebook or http://groups.yahoo.com/group/yongsan-homeschool-group/. Child Youth and School Services have a home school liaison, who can be contacted through the outreach coordinator at 738-8122.

**Field trips:** Opportunities abound because of the urban setting and ease of transportation: zoos, aquariums, markets, museums, fortresses, palaces and so much more! Two fabulous museums are located within walking distance of Yongsan: the Korean War Museum and the Korean National Museum are both located right outside the garrison.

**Arts and Crafts Center:** (South Post, Bldg 4253/4254, 738-4750) Staffed with professional artists who teach such skills as woodworking, pottery, drawing, painting and much more. They offer special classes for homeschoolers.
Limited storage facilities exist in Korea for extra household goods. Contact your servicing Housing Office prior to shipping any household goods or for information on storage options.

**HOUSEHOLD HELP**

Many people choose to hire household help during their tour in Korea. The best way to find a reliable person is by word of mouth from friends and neighbors. Occasionally you can “inherit” household help from departing co-workers or neighbors. Do not hire anyone without a recommendation from a friend or former employer; make sure you both agree on all conditions before hiring. Pay rates vary depending on the duties performed, but daily housecleaners request wages of $70-$80 per day. Some ask for payment in won, others in dollars; some want to be paid weekly, others prefer a lump sum once or twice a month. Housemen ask for around $50-$70 per day and will work inside or outside the house doing heavier work such as windows, floors, gardening, car cleaning, etc. Most want to work at least one day every week. It is customary for all hired help to receive a bonus at Chusok (Korean Thanksgiving), Christmas, and/or Lunar New Year. If you are not sure what would be an acceptable amount, ask friends or neighbors. It is at your own discretion to decide whether your household help will get American or Korean holidays off and whether they are paid holidays or not. You may want to talk with other families employing the same person to ensure consistency.

Although most household help already have post passes, it may be necessary for you to assist yours in obtaining one, unless you plan to pick them up at the gate each time they work for you. See Visitors in A to Z for information on obtaining a post pass. Pass renewals are required yearly; it is your responsibility to collect expired passes from household help and return them to the Pass and ID Office so that they do not fall into the wrong hands.

Due to SOFA Agreement issues, there has been a huge debate on who can be hired as household help. Generally, you may not hire anyone who is sponsored by the Embassy. Please contact the post command for all rules and regulations concerning the hiring of babysitters or household help who may not be U.S. citizens or Korean Nationals. There are strict fines (up to $10,000) imposed by the Korean Government for those who hire help illegally. Also, due to the supply and demand of legal household help, pay rates (daily and monthly) are starting to rise dramatically.
HOUSING

The Housing Office will work to make your transition into your new home as smooth as possible, whether you are accompanied or unaccompanied (ACS Bldg 4106, 738-3211). This includes Temporary Lodging Allowance (TLA), which you may be authorized prior to moving into your permanent residence. All service members regardless of branch of service or status must inprocess with the Housing Office within 48 hours of arrival or completion of in-processing with 1st Replacement Company/19th Personnel Company. All DoD civilians eligible for a Living Quarters Allowance (LQA) are also required to in-process with the Housing Office. All civilians, unless designated as Key Essential Personnel with specific approval to reside on post, are required to live in off post accommodations. The Civilian Personnel Advisory Center (CPAC) will advise you on your Temporary Quarters Subsistence Entitlements (TQSE) and LQA entitlements.

Unaccompanied Personnel Housing (UPH) (738-5506/International: 011-82-2-7918-5506) Unaccompanied personnel of all ranks and branches of service are normally housed in UPH on the installation. Personnel in pay grades of E4 and below will reside in the barracks. Personnel in pay grade of E5 and E6 may reside in barracks if adequate space and privacy criteria are met, or they will reside in the Bachelor Enlisted Quarters (BEQ). Unaccompanied officers and NCOs in the ranks of E7 and above will be assigned Bachelor Officer Quarters (BOQ) or Senior Enlisted Bachelor Quarters (SEBQ). Only in the event of adequate quarters being unavailable will an unaccompanied service member be authorized to reside off post. While all UPH meets or exceeds the criteria for square footage, they may not be able to accommodate a full weight allowance of HHGs. Full furnishing support is available in all UPH.

Accompanied Housing On Post/Army Family Housing (AFH) Command sponsored accompanied personnel and certain designated Key and Essential civilians are housed on post in AFH. Your PCS travel orders will normally state concurrent travel to government quarters and indicate bedroom number authorization and housing area location. The Housing Office personnel will brief you on projected quarters availability, Temporary Lodging Allowance (TLA) or TQSE and place your name on the appropriate waiting list.

Bedroom requirement is determined by the size of your family. Couples with no children and families (either married couples or single parents) with one child receive two bedroom units. Families with two children typically receive three bedroom units and those with three or more children usually qualify for four or five bedroom units.

If Quarters are not projected to be available within 60 days of your arrival, or if you are granted concurrent travel to economy quarters, you may be authorized to reside off post and receive Overseas Housing Allowance (OHA). Accompanied service members of all ranks and branches, as well as DoD civilians, are strongly advised not to seek economy housing quarters prior to in-processing with the Housing Office.

There are several AFH areas in Yongsan. Below is a description of each type. For photos and floor plans go to yongsan.korea.army.mil, click on Community and follow the link to Housing.

Helo Acres: Officers in grades O6 and above reside in this area, located between Seoul American Elementary School, Brian Allgood Army Community Hospital and Gate 14. Quarters are single story duplexes and have all major appliances (including dishwashers), window blinds, air conditioning units and outdoor storage areas. The majority of these homes have linoleum floor tiles. There is one designated uncovered parking space for each unit and limited visitor parking. Personnel assigned to these housing units may have two domestic pets and are responsible for their care, maintenance and cleanup.

Watkins Ridge: Command Sergeants Major (CSM) live on South Post behind Burke Towers and Eagle Grove housing areas. Sergeants Major (SGM) may also reside in Watkins Ridge if units are available. These quarters are primarily single story duplexes with some quadplexes. All units have window air conditioning units, oil heating systems, window blinds, all major appliances (including dishwashers) and outdoor storage areas. The majority of these homes have linoleum floor tiles. There is one designated uncovered parking space for each unit and limited visitor parking. Personnel assigned to these housing units may have two domestic pets and are responsible for their care, maintenance and clean up.

Burke Towers: This apartment complex was opened in June 2004 and is designated for O-4/5 and WO-4/5. The 5-story towers consist of thirty apartments each: twenty 3-bedroom units, nine 4-bedroom units, and one 5-bedroom unit (located on the first floor). The complex features a BBQ area, tot lot, playground and basketball court. Two tennis courts with nightlights are next to the South tower complex. Handicapped parking is available near the north tower. There are six elevators per building. Each apartment unit has an assigned underground parking space. Overflow/visitor parking is located in the middle garage between the two towers. Burke Towers’ features include central air and heating system, ceiling fans in each room, Pergo no-wax floors, and sliding glass patio doors with vertical blinds. Burke Towers is a “no pet” housing area and there are no exceptions. For additional information call 738-3211.
IMMUNIZATIONS

The following table lists of vaccinations by your status. Check with your medical treatment facility, family doctor or school nurse for recent updates on immunization requirements. Family members are not typically required to receive any additional immunizations but some are recommended for this area. THE KOREAN FLAG
Taegeukgi, the national flag of the Republic of Korea, consists of a blue and red yin-yang circle in the center, one black trigram in each of the four corners, and a white background. The white background symbolizes light and purity and reflects the Korean people’s traditional affinity for peace. The yin-yang circle represents the dual cosmic forces of yin (blue) and yang (red). It symbolizes universal harmony, in which the passive and the active, the feminine and the masculine, form a whole. The four trigrams represent Heaven, Earth, Water and Fire. Collectively, the yin-yang circle and the four trigrams represent universal harmony and unity. Taegeukgi embodies the ideals of all Koreans, who have pursued creativity and prosperity under universal principles and truth. For the Korean people their flag is a source of pride and inspiration. During the Japanese occupation period, beginning in 1910, the Korean flag was outlawed in public places. For the next 35 years the Taegeukgi flags were kept hidden until Liberation Day in 1945. The Korean flag is a symbol of the country’s struggle for independence and freedom.

NONCOMBATANT EVACUATION OPERATIONS (NEO)
While Korea is a relatively safe location, it is important that all noncombatants be prepared to evacuate both quickly and safely. Noncombatant Evacuation Operations (NEO) is directed by the U.S. Department of State, to evacuate eligible personnel from foreign countries where their lives are endangered by war, natural disaster or civil unrest to safe haven. Those U.S. personnel considered noncombatants are family members of U.S. DoD military and civilian employees, non-emergency essential U.S. civilian employees and DoD invited contractors and their families. Both command sponsored and non-command sponsored families are eligible for evacuation assistance from Korea. Military members and emergency essential civilian employees are not considered noncombatants and will remain in Korea until directed otherwise. All DoD affiliated noncombatants must register for NEO with their NEO warden. To help noncombatants prepare for a possible evacuation, U.S. Forces Korea conducts a semi-annual Courageous Channel Exercise. All DoD affiliated noncombatants are required to participate in these exercises in order to rehearse evacuation procedures and to train personnel who support NEO execution. In addition to participating in Courageous Channel, each family is required to maintain a NEO kit that includes important documents, enough food and water for three days and protective gas masks (issued by the military). For more information see Force Protection in A to Z.
**ORIENTAL PRESS**

Oriental Press is a commercial printing and publishing contractor with a long-term presence and commitment to the U.S. military community in Korea (Bldg 1440, Main Post behind the Community Bank, 738-5005, PSC 450, Box 758, APO AP 96206). Since 1990, the company has been a valued resource for a variety of services, to include printing of business cards and other stationery, military gift items such as unit coins, plaques and presentation projects, including specialty articles of almost any description. Oriental Press prints and distributes *The Morning Calm Newspaper* and *The Seoul Survivor Publication*, free of charge, as a service to the community.

**OFF BASE MEDICAL CARE**

One of the surprising things about living in Korea is the lower cost of elective care procedures off base. A service that helps many families is the infertility options. From IUI to IVF and everything in between, Korea’s infertility clinics offer options not covered by TriCare at a fraction of the cost of treatments in the United States. Many doctors in Korea studied abroad and speak English. Some are even certified in the U.S. or have had practices there.

Additionally, if you have thought about Lasik Eye Surgery, Cosmetic Surgery, Laser Hair Removal or Chiropractic Care, you could save hundreds to thousands of dollars by having those procedures done here. As with any medical service talk to other spouses and ask for recommendations on where to go. There are a ton of us who have taken advantage of these services and chances are you will meet someone who has done what you are thinking about right now.

**PETS**

The 106th Medical Detachment (VSSD) primarily provides preventive veterinary medical and surgical care for privately owned animals on a space available basis as demand exceeds clinic staffing and capabilities. Six Veterinary Treatment Facilities (VTFs) in Korea are located at USAG Casey, USAG Red Cloud, USAG Yongsan, Osan Air Base, USAG Humphreys, and USAG Walker. The six clinics work together to provide a range of veterinary care services including vaccinations, lab work, x-rays and ultrasound, microchips, surgery, dental cleaning, and health certificates. VTFs do not provide after-hour emergency care services. Veterinary care at VTFs is limited during military training exercises.

For more information, visit the 106th Medical Detachment (VSSD) website at www.korea.amedd.army.mil/veterinary/index.html. Yongsan VTF offers services by appointment only. Call DSN 737-2450 or 02-7918-5145. If calling from the United States, dial 011-822-7918-5145. The Yongsan VTF is located on South Post, Building 4728, adjacent to the AAFES gas station.

**IMPORTING A PET TO KOREA**

Bringing your fur baby to the Republic of Korea requires you start the process early (3-4 months for dogs/cats). A checklist for bringing cats and dogs is included below. All other pets require different paperwork and have different quarantine specifications. For more information, start by contacting the projected airline, your local vet, and researching the internet for country restrictions (both ingoing and outgoing).

If you encounter problems at Incheon airport, contact the USFK Incheon Customs Office or call DSN 723-7561, Monday through Friday 8:00 p.m. – 5:00 p.m. After duty hours or on weekends and holidays, contact the USFK Customs Senior On-Duty Officer at 010-8834-0267.

*NOTE: All pets must be registered at the nearest VTF within 10 days of arrival or purchase. ISO compatible microchips are mandatory on and off the military installation. Pet owners not living on a military installation must also register (license) pets at the city hall nearest their residence.*
WHAT TO EXPECT: PET AIRLINE TRAVEL

United States airports require physical screening of all pets and kennels transported in the passenger cabin, accompanied baggage, or as air cargo. If your pet is “carry-on luggage,” you will remove your pet from its kennel and walk through passenger screening at the security checkpoint. The kennel will undergo the same procedures as carry-on luggage or checked bags.

For pets transported as cargo, the airline may require you to remove your pet from its kennel to allow for security screening of the kennel before your pet begins transport.

Most airlines only allow a limited number of pets on a flight, so you may want to book earlier rather than later. Be prepared to provide your pet’s breed, size, weight, and crate dimensions.

Ask about the airline’s requirements, including health checks and documents to confirm that there have been no changes.

PET TRAVEL ON KOREA’S TWO MAJOR AIRLINES

Korean Air and Asiana Airlines permit pets on flights under certain conditions:

1) All pets must be kept inside a carrier during flight. Some pets may be brought into the cabin, while others may not. Guide dogs may be brought into the cabin without any size or weight restrictions.

2) Pets (cats and dogs) may be brought into the cabin if the combined weight of a pet and its carry-on carrier does not exceed 5kg (11lbs). Carrier must fit under the seat, dimensions must not exceed 115cm (Height restrictions: 20-22cm on Korean Air; 21cm on Asiana Airlines).

3) Pets (cats and dogs) must travel in the cargo compartment if the combined weight of a pet and its carrier exceeds 5kgs (11lbs). The carrier’s dimensions must not exceed 246cm (Height restrictions: 86-88cm on Korean Air; 84cm on Asiana Airlines). Also, the combined weight of a pet and its carrier may not exceed 32kg (70lbs).

4) All other animals including rabbits, hamsters, turtles, etc. must be transported in a separate cargo aircraft operated by a cargo airline.

5) Each passenger is allowed to carry only one pet onboard.

UNACCOMPANIED PET TRAVEL

Moving can present some interesting hiccups. You have choices if you want to bring your pet bird, guinea pig, rabbit, cat or dog.

Your pet may accompany you on your flight to Korea or your pet may travel unaccompanied. If you choose unaccompanied travel for your pet, you may want to consider using an animal or pet broker that will serve as your representative to negotiate the process for you.

The following links for commercial pet travel brokers are listed for informational purposes only:

- Korea Animal Transport: www.cwhospital.com/kat/process(eng).htm

PET QUARANTINE

The Quarantine Inspection Agency determines if your pet meets all requirements for entry into the Republic of Korea. Quarantine is located near the Incheon Airport or at the Yongsan Pet Care Center (an official quarantine facility for military personnel). The pet must be registered as soon as it is released from quarantine. For official information on quarantine, visit http://www.qia.go.kr/english/html/Animal_livestock/02AnimalLivestock_007-8.jsp.

DOG RESTRICTIONS

No specific dog restrictions are listed for entering the Republic of Korea; however, airlines have specific guidelines for certain breeds. Contact your carrier for more detailed requirements for transporting your pet. If you own an American Staffordshire Bull Terrier (Amstaff), Bull Terrier, Argentinean Dogo, Japanese Tosa, Staffordshire Bull Terrier (English Staff), Pit Bull Terrier, Brazilian Fila and Rottweiler including mixed breed dogs that appear to be a predominant breed listed, you should verify the specific breed restrictions at your new duty location prior to your PCS.

PET BOARDING AND GROOMING SERVICES

Yongsan Pet Care Center is located next to Gate 13 at Building 5256. The phone number is DSN 736-6426 or 723-3291. The Pet Care Facility houses 21 dogs and 17 cats in condo-like quarters with 24 hour veterinary care and is an official quarantine facility for the Republic of Korea. Services available are grooming and boarding. Hours are Monday through Friday 9:00 a.m. -6:00 p.m. and Saturday 9:00 a.m. - 4:00 p.m. The facility is closed on Sundays and
PAPERWORK NEEDED TO MOVE YOUR PET TO KOREA

The following are guidelines to make the transition easier. Transition begins as soon as you find out you are headed to Korea.

Checklist: Import of cats and dogs aged 90 days or older
1. Vaccination Certificate
2. ISO-compliant microchip (ISO11784 and 11785 standards) implant
3. Rabies-neutralizing antibody test ("FAVN" test)
   The rabies-neutralizing antibody test must be administered by an internationally approved laboratory or by the competent authority of the exporting country within 24 months prior to boarding. For a list of internationally approved laboratories for rabies antibody tests, visit: http://ec.europa.eu/food/animal/liveanimals/pets/approval_en.htm
4. Health certificate issued by USDA authorized veterinarian
   Must confirm microchip number and list the result of the rabies antibody test
5. Medical record
6. Flight itinerary
7. Letter of acclimation
8. Copy of your orders
9. Telephone number of a person at the destination
10. Unit Forwarding Address in Korea
11. Feeding schedule for your pet
12. Personal Information about your pet

Required Documents for Birds
A quarantine certificate, issued by the exporting country’s quarantine authorities, is required when importing birds into Korea. Other documents like rabies vaccination and other health certificates are not required. Not all birds are granted entry to Korea. Requirements are subject to change at any time, please check before importing your bird by calling 82-32-740-2660.

Required Documents for Other Animals
Guinea pigs, rabbits, and other rodents pose a set of unique circumstances for moving to the Republic of Korea. The two major airlines coming to Korea do not allow rodents in the cabin or on the plane as baggage. These exotic pets must fly cargo. Either work directly with airlines or hire a pet broker. The quarantine for the exotic pets is mandated by the Quarantine Inspection Agency.

HOUSING – AUTHORIZATION OF PETS

Military Housing
Government and civilian housing policies differ as to authorization, number, and types of pets. Pets are not permitted in the Dragon Hill Lodge. Care for your pet will have to be pre-arranged prior to arrival at Dragon Hill Lodge or temporary housing. Statements of Non-Availability (SNA) for off post housing are not always an option.

USAG–Yongsan housing areas that allow two domestic pets are: Helo Acres, Watkins Ridge, Krzyzowski Hill (Itaewon Acres), Koelsch Grove (Eagle Grove) and Loring Village (Black Hawk Village). Burke Towers and Hannam Village are “no-pet” housing areas and there are no exceptions (discuss with housing beforehand if you have a service animal).

Housing on the Economy
Housing on the economy does not always accommodate pets, especially large pets. Korean apartments that allow pets are difficult to find because few allow pets. Ask your property manager or landlord about pet allowances before signing a lease.

PET NON-COMBATANT EVACUATION OPERATION (NEO) IN KOREA

USFK will make reasonable efforts to evacuate pets of DoD affiliated personnel but pets are likely to be separated from their families during an evacuation. The evacuation of people takes priority over pets. Only two pets per household are authorized transport in the event of a NEO. Pets registered and tracked by the NEO Tracking System help reunite pets with their families. All unaccompanied pet owners need to ensure they have a pet care plan. Please see your unit NEO warden on arrival.
In the event pet owners decide to transport their pets out of country commercially, all costs associated with commercial transportation are the sole responsibility of that family. If the United States Government transports a pet on a military or chartered aircraft, the military covers only the cost of transporting the animal from Korea to the first CONUS port of entry. The family is responsible for all costs incurred from port site to the family’s final destination.

For more information on NEO and documentation, visit the 106th Medical Detachment (VSSD) website at www.korea.amedd.army.mil/veterinary/index.html.

**LIFE WITH PETS IN KOREA**

**Subways and Taxicabs**

Only small pets are permitted on public transportation as long as they are kept inside a pet carrier or bag at all times and do not make other passengers feel uncomfortable. Most taxi services will not transport pets in South Korea.

**Shuttle bus**

Services between installations will allow pet transportation based on space available. If the pet can ride in the lap of the owner inside a carrier then there will be no additional charge. However, if the animal is large enough to require its own seat then you will be required to purchase ticket(s) for the seat space occupied. Small animals can travel on the free military shuttle that travels to and from the Incheon Airport and Dragon Hill Lodge at USAG Yongsan. However, large and giant breed animals must be transported via pet broker or pre-coordinated travel arrangements (see Unaccompanied Pet Travel section).

**Tourist Sites**

Tourist sites and cultural facilities have different pet regulations. While pets are not permitted at most places, they may be permitted as long as they are kept inside a pet carrier or bag at all times.

**Public Places**

Visitors may bring their pets to most public parks. Visitors must put a collar (identification/license tag) on their pet and properly dispose of any pet waste. Large pets must be muzzled. Pets are not permitted at major department stores and large supermarkets. Pets may be permitted at convenience stores with consent. Pets must be kept inside a pet carrier or a bag at all times.

**Pet Adoption**

There are many options to acquire a pet both on and off your local installation. Visit your local VTF for informational websites, maps, and directions on where to purchase a pet.

Most VTFs handle the adoption of strays including many pure breeds. Every year during the PCS season, owners struggle to find new homes for animals they can no longer care for because of unforeseen reasons. Please research how much the airlines charge to ship pets in addition to reading the Dangerous Dog section prior to obtaining a pet. Be aware of the potential complications of pet ownership.

**PCS FROM KOREA WITH A PET**

The cost of transporting your pet to your new duty station is your responsibility. Allow adequate time to meet any new requirements of your follow-on assignment. Consult with the Veterinary Treatment Facility and visit www.korea.amedd.army.mil/veterinary/index.html for detailed requirements to ensure your pet can move with you. Transporting your pet to Europe, Hawaii, Japan and several other destinations requires planning six months prior to your move date.

**RETURNING TO THE UNITED STATES**

**Useful Links**

Many publications are available online. Research the country of your projected next duty station as early as possible and begin preparation as early as six months before moving. If you have any questions, contact the specific agency mentioned. The following websites provided useful information for this section about traveling with your pets.

INTERNATIONAL PET TRAVEL ON AMERICAN CARRIERS

Airlines policies regarding other pets may vary; contact airlines directly for additional information. Regulations of service animals/service dogs in air transportation are at www.iadp.org/airline.html.

Three ways you can ship your pet via the airlines:
1) Your pet can travel on the plane with you (either in-cabin or in the cargo). Pet is excess/accompanied baggage and charged accordingly. Some airlines no longer offer this option.
2) You can book your pet on a separate flight. Pet is considered cargo rate (more than excess baggage). Some airlines no longer offer this option.
3) You can have your pet shipped through a licensed commercial shipper. You will be charged the cargo rate plus the shipper’s fee. Several airlines require this method unless your pet is small enough to fit in the cabin.

Note: As a rule, animals 100 lbs. or larger (including the weight of the cage) will be charged as cargo even if they travel on the same plane as you (for United Airlines the limit has been raised to 150 lbs, call for specifics). It is important to check with the airline if your pet is close to that weight and to determine if the policy may vary from this general 100 lb. rule.

The following Delta waiver now exists only if the plane type for the flight is different than the 767-300 and 400 series: United States Government employees traveling to and returning from overseas and Hawaii on official PCS orders are now exempt from Delta’s May 15th – Sept. 15th embargo. RETURNING TO THE UNITED STATES WITH CATS AND DOGS

Bringing your pet cat or dog back home to the United States is not as difficult as it is when coming to the Republic of Korea. The following sections will tell you what is required, what to keep in mind, and where to find the information about traveling back to the United States with your beloved pet.

Leaving Korea
• ___Proof of rabies vaccination within last year
• ___USDA health certificate
• ___Korean health certificate

Take all three documents with your pet to the Korean Animal Quarantine Office (KAQC) located at Incheon Airport, 011-82-032-740-2660. The Korean vet will issue a certificate while you wait. Cost is 10,000 won.

Animals that meet Korean requirements will meet United States requirements. Korea requires a Korean Health Certificate for any pet to leave the country. These requirements apply equally to service animals such as Seeing Eye dogs. Pet cats and dogs are subject to inspection at ports of entry. If a pet appears to be ill, or evidence of infectious disease is present, further examination by a licensed veterinarian at the owner’s expense might be required and entry into the United States may be denied.

Importation of Unvaccinated Cats or Dogs
Thinking of bringing your puppy or kitten back with you but are unsure of the requirements? Here are some things to keep in mind:
RETURNING TO THE UNITED STATES WITH OTHER LIVE ANIMALS

Birds

The USDA defines pet birds as birds imported for personal pleasure of their individual owners and are not intended for resale. Poultry, which includes pigeons and doves, are not considered pet birds. Strict requirements must be met to import or export a bird.

For information regarding general requirements, veterinary health certificate information, import process, importation fees and quarantine requirements, contact the National Center for Import and Export at 301-851-3300 or visit http://nvap.aphis.usda.gov/import_export/animals/return_pet_bird.shtml.

Fish

There are no CDC regulations regarding the importation of live fish. However, there are specific requirements regarding fish considered endangered. For more information, importers should visit the United States Fish and Wildlife Service at www.fws.gov.

Live finfish of most species may be imported into the United States without import requirements from USDA. However, the United States Department of Agriculture (USDA) does have import restrictions on live fish, fertilized eggs and gametes susceptible to spring viremia of carp (SVC), an extremely contagious viral disease of carp. For more information, visit http://www.aphis.usda.gov/wps/portal/aphis/ourfocus/importexport.

The National Marine Fisheries Service may also have regulations. For current information, visit http://www.nmfs.noaa.gov.

Rabbits, Guinea Pigs, Hamsters, Ferrets and Other Pet Rodents

There are no CDC or FWS restrictions or requirements on these animals if brought in as pets.

Turtles, Snakes and Lizards

The United States CDC limits imports of small turtles, tortoises and terrapins and their viable eggs. Turtles with shell length (carapace) less than 4” and viable turtle eggs may NOT be imported for commercial purposes. As many as six (6) small turtles or six (6) eggs or any combination totaling six (6) or fewer turtles and turtle eggs for noncommercial purposes.

The United States Fish and Wildlife Service regulates the importation of reptiles. For regulations on reptiles, fish, injurious or endangered species...
PUBLIC RESTROOMS
Public restrooms are available throughout Seoul. Depending on the age of the establishment, you might find yourself with one of two types of toilets. There are western style toilets and there are in-ground toilets. Korean policy for the past ten years is any new building must have western-style toilets installed. As a result, western style toilets are becoming easier to find. Most large department stores, fast food restaurants, and modern buildings have both kinds of toilets. Stickers are on the doors to let you know what awaits you behind the door. If you are lucky, you might get a toilet that has seat warmers. I urge you to look at the pictures before pressing any buttons.

If you must use a local facility, ask “Hwa-jahng-shilo-dee-eh i-suh-yuh” (Where is the restroom?) A good rule of thumb is to carry tissue on your person, just in case the toilets do not have any available. When you walk into the restroom, you will notice toilet paper dispensers on the wall. It is a good idea to stop and take some as it signals that the stalls do not have their own rolls. Foreigners sometimes miss paper in bathrooms because it is often in large dispensers similar in size to a paper towel dispenser. Also, you might see a waste basket and many signs that read not to throw toilet paper into the toilet. Seoul grew very quickly and the pipes are still trying to catch up. You will clog up the toilet if you flush too much paper down at once—and you never know if the person before you flushed some down clogging it for the next unsuspecting person. So just pinch your nose, don’t look too closely, and toss your waste paper in the waste basket.

Soap is communal. You might find it on a stick prodding you to go ahead and rub your hands on it like so many before you.

PUBLIC TRANSPORTATION For more information, see Transportation in A to Z.

PYEONGTAEK is a city south of Seoul, home to USAG-Humphreys and Osan Air Base.

Other Animals
APHIS generally does not have animal health requirements for the importation of other non-livestock animal species, such as rodents or carnivores, provided they have not been inoculated with any pathogens for scientific or other purposes. Animals inoculated with pathogens for scientific or other purposes must be accompanied by an import permit. For details, visit http://www.aphis.usda.gov.

POST EXCHANGE (PX) See Shopping.

POSTAL SERVICES
The Army Post Office (APO) processes all mail coming to and from the Armed Forces Pacific (AP) Region. Sending mail to and from this region costs the same as continental United States postal rates. Fed Ex and UPS deliver to Korea at international rates. Several USPS mail drop boxes are located throughout Yongsan USAG. Priority Mail gets to and from the U.S. in about 4 to 10 days. Parcel post takes 6-8 weeks. Priority mail flat rate boxes are available in several sizes and the shipping cost is around $9-15 regardless of weight. The postal employees are friendly and helpful and will do their best to help you.

General Delivery is available for those not serviced by a unit mailroom. Applications and specific details are available from the South Post Annex. Limited individual postal boxes are available for select South Post family residents and retirees, and are located at the Postal Service Center (PSC) (adjacent to the South Post Annex Postal Service Center, 738-4412).

Main Post Office is located between the library and Gallery. If you have questions, call 723-3460/4659/9019. Hours of operation are Monday through Friday 0900 to 1700, Saturday and Training Holidays open 0900 to 1300. Fed Ex is located inside the Gallery.

PRODUCE See Shopping - What to Buy.
RATION CONTROL & BLACK MARKET

The Ration Control Program exists to prevent the transfer of duty-free goods to those who are not entitled to receive them. Active duty military members need only present their military ID when making purchases. However, Ration Control Plates (RCP) are required for family members entitled to make AAFES or Commissary purchases.

To receive a Ration Control Card, you must first be entered into the D.B.I.D.S system (located with the ID Card issuing section Bldg 4034 (19th Personnel Company), adjacent to the Ration Control desk, DSN 738-4612). The sponsor must accompany all family members to the Ration Control Office (in 19th Personnel Company) with their ID cards. Ration cards will be ready for pick up in about four hours. You may show a copy of your sponsor’s orders to purchase anything before obtaining your RCP. RCPs must be presented when entering duty free facilities (e.g., Class VI stores, AAFES gas station, PX and commissary) when an ID checker is present. When an ID checker is not present at the entrance to a duty free facility, the cards must be presented at the point of sale. Consider keeping your receipts for large ticket items in case questions are raised about your buying habits. You will be given information on the current rules and regulations concerning black marketing during in processing. Remember, you may not purchase items in excess of your immediate family needs. Many products are considered illegal for gift giving to Korean Nationals. For questions regarding the sale of controlled items or gifts to personnel not authorized duty free import privileges, contact the Ration Control Office (Bldg 4034 (1st Replacement Company/19th Personnel Company), Room 105, 738-4612) for information on proper legal procedures. Information is also available from USFK regulations 643-1 and 60-1.

RELIGIOUS SERVICES AND ACTIVITIES

There are many religious programs available to our community, tailored to meet the unique needs of all military and DoD civilian personnel and their families (Religious Support Office, 738-3011, or the South Post Chapel, 738-3917).

Most chapels offer a variety of activities for all age groups to include religious education programs, choirs, Bible study groups and various chapel sponsored organizations. The ministry teams of the Army, Navy and Air Force in Korea also offer a wide variety of religious services and worship opportunities to military members and their families. Chaplains offer daily morning devotions on AFN Monday through Friday. Also available are: counseling services, marriage enrichment programs along with outreach programs for non-command sponsored spouses and family members.

Bible Studies and Religious Clubs: There are a large variety of bible studies and religious clubs offered on post (call South Post Chapel 738-6054 for a current listing). A small sampling includes AWANA, Military Council of Catholic Women (MCCW), Men of the Morning Calm, PWOC, Vacation Bible School, FUSION Youth Group, Club Beyond, and various bible studies.

Chaplain Family Life Center (CFLC) (Bldg 5213, South Post 736-3018). CFLC provides confidential counseling for individuals, couples, families, and groups to include complex life challenges, gambling and eating addictions, trauma recovery, battlefield stress, sexual assault and domestic violence.

**SOFA**

The Status of Forces Agreement (SOFA) is the treaty between the American and Korean governments that ensures certain privileges and rights to American military members and their families in the Republic of Korea. The SOFA covers all aspects of the American presence in Korea and is continually reviewed and revised by a bi-national committee. American passports with the A-3 visa stamp should be stamped with a SOFA stamp also. Family members whose passports are not stamped with a SOFA stamp may experience detainment or fines when re-entering Korea. This stamp is NOT automatic, and you must obtain it within 90 days of arriving in Korea. Both command and non-command sponsored family members need this stamp.

A3 Visa/SOFA Stamp is for Active Duty Family Members, Civilians Employees and their Family Members (command sponsored or non command sponsored) must have an A3 Visa and SOFA Stamp within 90 days of arrival in country. 2ID family members receive their SOFA Stamp through the 2ID Liaison NCOIC at the 1st Replacement Company/19th Personnel Company (1RC/19PC) Building (4034), DSN: 723-5461. Legal Client Services at ACS will review applications for A3 Visa and/or SOFA Stamp and will assist with directions to go to one of the three convenient Seoul Immigration Office locations. Client Legal Services assistance is on a walk-in basis during normal duty hours. The Korean Immigration offices are at Sejongno, Mokdong and Osan Air Base. You must have your passport, ID card, copy of identification card (front and back), copy of sponsor’s ID card, the Ministry of Justice Supplemental Visa Application Form, and an original Letter of Verification of Assignment to receive the Korean Immigration Stamp. The SOFA Stamp should be valid until your sponsor’s DEROS date or the expiration date on the Sponsor’s ID card, or the expiration of the individual’s passport (maximum of 2 years from the date your A-3 Visa/SOFA stamp is issued). If your A3 Visa and/or SOFA Stamp expires while in Korea, the Visa and Stamp will need to be reissued. Check: http://8tharmy.korea.army.mil/sja/clientlegalsvc/. You will find information on the process, detailed directions to Immigration offices, and forms.

**SPACE AVAILABLE FLIGHTS**

Space Available Flights, also referred to as Space ‘A’ Travel or Patriot Express, is air travel that is offered at a highly reduced cost to active and retired members of the military as well as qualifying members of their families. Space ‘A’ Travel is possible if seats remain available after military personnel traveling under orders receive their seats. There are various restrictions governing Space ‘A’ travel so familiarity with these guidelines is highly recommended.

A key starting point for first time and repeat Space ‘A’ Travelers is the Air Mobility Command website at www.amc.af.mil/amctravel/index.asp. This site offers comprehensive information on Space ‘A’ Travel including travel eligibility, available destinations, document requirements, registration guidelines and a wealth of other relevant material.

In Korea, Space ‘A’ Travel is provided at Osan and Kunsan Air Bases. Osan Air Base is located one hour south of Seoul and is conveniently and inexpensively reached by bus service departing from Yongsan’s Moyer Bus Terminal or the Dragon Hill Lodge. Travel information specific to flights to or from Korea can be obtained by visiting the Osan Air Base website at www.osan.af.mil/units/731stairmobilitysquadron.asp or the USFK website at www.usfk.mil/usfk/hot-topic.patriot.express.470. However, to ensure the most accurate and up to date information, travelers should speak directly to personnel at the Osan Passenger Terminal. The terminal opens at 6:00am Tue/Thu and 7:00am Mon/Wed/Fri. The terminal closes at 6:00 pm. For calls originating in Korea use: DSN 315-784-1854 (fax 315-784-4897) or from any cell phone, 031-661-1854. For calls from an international location use: 011-82-31-661-1854 (fax 011-82-31-661-4897). Email contact is also possible at OsanSpaceA@Osan.af.mil.

The passenger terminal at Osan Air Base is newly renovated with excellent modern facilities including a spacious, well-equipped play area for families traveling with children. There are also free-to-use computer terminals and phone lines. The passenger terminal is a short walk from the bus station. The Space ‘A’ flights depart from Osan Air Base and arrive in the United States at...
TELEPHONES

The telephone/internet provider you use will depend on where you live.

On Post Housing: LG Telecom provides internet and telephone service for Government Owned and Government Operated housing, it’s located at Moyer Recreation Center (Bldg#2259 Rm#104). Please contact Mr. Kim at DSN 723-7023 or email: kimkh@lbhunet.com for new service or troubleshooting. KT Telecom provides internet and telephone service for leased housing: (Eagle Grove, Black Hawk & Itaewon Acres). Please contact Mr. Kim, Dong Wan (Mike) at 02-797-4227 or 010-2776-0905 for new service or service calls. To find KT’s office exit Gate 14, walk to the main road and turn right. The office is a short distance up this road on the right, 02-797-4227. You can make bill payments on post at the Business One Stop Center (above Starbucks in the Embassy Association building) or at the following locations for a small service fee: 7 Eleven, Family Mart, or any Post Office.

For DSN lines please contact the telephone control office desk at 738-6900. It is located in Bldg 2320. LG Daecom located on the 1st floor of Moyer Rec offers several different plans as well as VOIP (Voice Over Internet Protocol) phone numbers. This is a U.S. phone number that friends and family can use to call you at U.S. local/long distance rates instead of expensive international rates. You can even request the area code where your family lives, so all calls to you will be local calls. If you do not have a telephone/internet provider is KT, you are not required to switch to LG Daecom. However, the VOIP is only available through LG Daecom. Providers and options continue to change, so check the plans and fees carefully.

Off Post Housing: Your telephone/internet provider will vary. It is often included in your rent or utilities fees. Discuss choices with your rental company or contact one of the above numbers to see if they service your area. If you do not have a telephone in your quarters, there are overseas telephone lines available for use at MCAC and at the USO. You can use the phones and pay for calls in dollars, won or by using pre-paid telephone cards. The USO also has CALL FOR FREE phones at Camp Kim (contact them at 724-7003/3301). You can

Seattle International Airport. Connections from Seattle are via regular commercial airlines. Connecting commercial flights are not part of Space ‘A’ Travel and are at the traveler’s personal expense.

Here are the basic steps for successful Space ‘A’ Travel.
1. Identify your eligibility travel category.
2. Determine your departure and arrival points, and intended travel dates.
3. Prepare required documentation and obtain requisite authorization.
4. Register with the Passenger Terminal (the earlier this is done, the better). Be sure to register for both your departing flight and your return flight.
5. Call the Passenger Terminal 24-48 hours prior to departure date to receive flight status updates, required “show-time” and projected seat availability.
6. Check-in at the Passenger Terminal on flight departure date. Be sure you have ALL required travel documents (ie. Passport, ID card, authorized letter to travel and any other documents you were instructed to bring.)
7. Listen for the seats available announcement. If you are selected for a space available seat, be prepared to check-in immediately.
8. Board the plane and have a great flight! To ensure you have a positive Space ‘A’ Travel experience, keep in mind that Space ‘A’ Travel is not a reliable means of transportation. Unlike commercial airlines there are usually no back-up flights if a plane is diverted. There are also no guarantees that seats will be available. This means travelers must be flexible and if necessary prepared with an alternative travel plan. If you keep this in mind, and follow all the required guidelines, you will no doubt find that Space ‘A’ Travel is well worth the money you save.

**TELEVISION**

MWR Cable Television (MWR CATV) is available to those living on post (Bldg 4891, South Post, beyond the Auto Skills Center, 738-2288/4310). A variety of American Forces Network (AFN), U.S. and Asian channels, along with command channels which provide community information and force protection advisories, are available. Projected weekly schedules are given in area publications such as the Stars and Stripes, Korea Herald and Korea Times. Also visit afnkorea.com/tv.htm for the latest TV schedule. Pamphlets listing channels offered and fees are available at the CATV business office. Personnel living off post will need to lease a decoder box and purchase a Direct to Home (DTH) cable TV satellite dish at the PX to receive AFN programming. Fees include an installation charge (usually between $100-200) and a monthly decoder fees (about $15). Installation service in the Seoul area is available through NASA, an off-post Korean company (02-717-2256/2257). NOTE: Many apartment complexes and rental properties do not permit installation of AFN DTH equipment. Refer to the list provided by the housing office. Review AFN availability carefully before entering into a lease agreement, since AFN is the source of many service force protection advisories (Military websites also carry many of the same advisories). Service members and DoD civilians who rent a property where DTH equipment installation is not available must sign a Housing Office statement of acknowledgement. If the landlord does allow installation of AFN DTH equipment on his property, the Soldier must obtain written permission beforehand. Contact the Housing Services Office 738-3489, for more information.

**Internet Television**: Another television viewing option available to both on and off-post residents in Korea is via the computer. Apple TV sells and rents current season TV shows and movies (in both high definition and regular format) via the iTunes website. An Apple computer is not required for this service, but you must buy an Apple TV box (available at the PX). Internet options continue to become available.

**TENNIS**

Numerous courts are scattered around Main and South Posts. Adult and children’s lessons are available for a fee (contact Collier Gym for court reservations or information, 736-4588).

**THEATRES**

The AFN Pacific-Yongsan posts information about Yongsan concerts and activities, as well as new listings of cultural events in the area (visit http://yongsan.afnpacific.net for more information including links to the AFN Facebook page where additional community information is posted). The Seoul Word also offers weekly information about cultural events in the area.

**THRIFT SHOP**

Volunteers from the American Women’s Club of Korea Thrift Shop Association operate the Second Hand Rose Thrift Shop in conjunction with the U.S military. The Thrift Shop, a non-profit organization, offers a wide range of resale items, including clothing, electronic equipment and furniture. All are welcome to shop and/or donate items. Donations are taken during store hours. A donation bin located near the side entrance of the shop is available 24 hours a day. Consignment of items is a service provided by the thrift shop, but only active American Women’s Club members (See Clubs/Organizations in A-Z) and government ID card holders can consign items. Proceeds from the Thrift Shop are used to support charities in the local community and on post. Hours are
Off Post

Public Transportation 101: Once a month, ACS offers Transportation 101, a class that provides classroom and “real world” experience on subways, buses and taxis. Classes fill quickly, so sign up early. All participants will receive a free T-Money card, but you should take at least W5,000 to load onto your card, with about another W10,000 for your lunch out in Seoul (see the Subway section below for more information about T-Money cards). The class takes brief trips to the Express Bus Terminal, Namdaemun Market, Lotte Mart store or City Hall/Chang-dok Palace. Children are welcome. Contact ACS at 738-7505 for more information.

City Buses: Seoul is served by an excellent bus system. In the city, the buses are plainly numbered and run frequently to most destinations. The fare is very inexpensive. Buses can be extremely crowded during peak rush hours, so plan accordingly. Hotel personnel, as well as the information staff at Moyer Community Activities Center, can assist you with bus routes. Buses and taxis use the same T-Money cards as the subway, so you can alternate payment between the bus and subway easily (see the Subway section below for more information about T-Money cards).

The buses are split into four colored categories. Blue buses travel long distances along major arterial routes; green buses are for shorter hops, red buses travel to the suburbs, and yellow buses travel in tight loops. Route numbers and colors are marked on the side and rear of the bus, e.g. Y is yellow, R is red, etc. Adult fares start at W950 for yellow, W1950 for red and W1150 for blue and green and increase with distance traveled. For additional detailed bus information, visit http://www.visitseoul.net/en/article/article.do?_method=view&art_id=39545&lang=en&m=0004007002011&p=07.

The Express Bus Terminal is the hub of all long-distance bus traffic in the Republic of Korea, so this is where your journey will begin if you are traveling long distances. It may help you to know that the terminal is busy on a normal day and jammed on Korean holidays. To get to the terminal, take the subway to the Express Bus Terminal Station (Line 3 or 7, exit 1). Another option is to take a local bus; it can be faster. At Gate 6 (Commissary Gate) take a right, walk to the stop light and cross the street to the bus stop. Take bus 143 and get off at the second stop after you cross the river. For the return journey, make sure you are on the opposite side of the street and again take bus 143 to the first stop after crossing the bridge (Hangang Middle School), which is close to Gate 6.

Subway: Seoul has a comprehensive subway system that will get you easily and quickly to almost any part of the city. It is possible to go to USAG-Red

TRANSPORTATION

On Post

Shuttle Bus: This is a free bus service which runs from the bus terminal at Moyer CAC on Main Post to Camp Coiner and the South Post areas, with stops at the hospital, various housing areas, the commissary, and various other locations. Route maps are available at ACS and Moyer CAC. The newly constructed/renovated bus stops are visible throughout the post, marked by white “shuttle bus” signs. ID cards are required to ride the bus. During duty hours, buses run every 20 minutes and then every 30 minutes until 1800. Bus schedules are posted at all of the bus stops.

Taxis: AAFES provides taxi service for use by military ID card holders (call or text 1544-9080 for taxi dispatch services, or email taxi@ftnholdings.com; when submitting a taxi request via text, text your request in the following format: #pickup location #destination ##. The taxi service will respond via text to let you know that your order was received; the service will send a second text to let you know when the taxi will arrive as well as the number and color of the taxi. Note that there is a W1,000 fee for taxi request services in addition to the regular transportation fare.

Taxi service is available 0500-0100 daily for Yongsan and reservations cannot be made in advance. These taxis are available for destinations both on and off post. AAFES cabs are the only taxis permitted on post. The drivers speak some English, and the fare is paid in U.S. currency or won. The taxi stands are located at Dragon Hill Lodge, BAACH, commissary, PX (during operating hours) and the bus terminal on Main Post. The company offers regular taxi service in and around the Yongsan area as well as an airport taxi service.

Military Buses: In addition to the on post shuttle bus service, there are buses that provide transportation to Osan AFB, USAG-Humphreys, USAG-Red Cloud, USAG-Casey, Camp Jackson, and all other local camps. See Camps and Posts in Korea. Tickets can be purchased at Moyer CAC.
Cloud, USAG-Casey and Osan Air Base by subway, and an extension now reaches Incheon International Airport. Subway fares are very reasonable, starting at W1,050 for adults (less for children) and rarely exceeding W2,000.

There are two ways to pay:

1. Buy a single journey ticket card from a ticket vending/reload machine inside the station. The single journey ticket is valid only for the subway, not for buses or taxis. Validate the ticket at the turnstile with the lighted arrow. Do not discard or lose your ticket because you will need it to exit the subway at your destination. Return the ticket at the deposit-return machines for a refund of the W500 deposit.

Purchase a T-Money card (either from the subway station booth or at convenience stores) for W2,500. This is especially ideal if you are staying in the Seoul area for more than a few days. You may purchase a T-Money card the size of a credit card or a miniature card that easily attaches to a key ring or cell phone. There are advertisements for it on the booth window, which you can point to if you encounter a language problem. You will have to load the card with at least W5,000 initially, but may reload it in the future with any amount between W1,000 and W90,000. Using a T-Money card offers several benefits: it saves W100 off the basic cash fare on each subway or bus ride, provides transfer discounts and is simply more convenient – you will already be on the subway while others are still waiting in ticket lines. Cards can be reloaded at any convenience store or in the automated subway ticket machines (instructions in English are available).

Using the T-Money card: When you go to the subway turnstile, lay your card flat with the T sign facing up and scan it. The machine will register the amount charged for the trip and show your remaining balance. Upon exiting the subway, repeat the process by scanning your card. T-Money cards can also be used on city buses and in many taxis.

When you purchase your subway ticket or T-Money Card, ask for a subway map in English at the kiosk. On the back of the map is a detailed listing of places to go in Seoul, what line to get on, what stop to get off at, which exit to take, and how far you have to walk on foot. It is a fantastic pocket guide to Seoul! The admission fees and times of operation listed are subject to change.

Understanding the subway system: All station stops are identified by station name in Hangul and English, along with station numbers. Pay attention; announcements are made in Korean and English, but you can easily miss your stop. Look at the big center number at the station stop; the name of the station will be listed with smaller numbers to the left and right. These small numbers indicate the station the train just left, and where the train is going next. Pay attention to which direction you want to go. Some station signs only mention the beginning or ending of the line you are on, or line transfer station (signified by the multi-colored swirl on the map) along the way. Koreans are very helpful and will do all they can to point you in the right direction if you are lost or confused.

When you reach your destination, go up the steps and swipe your ticket or T-Money card at the turnstile. Each station usually has numerous exits leading to different sides of the street. Refer to your map or look for the directory in each station; it will inform you (in English) which exit you need. The subway closes at midnight. You will be forced to leave the subway at that time, regardless of your location or destination. The subway website is www.seoulmetro.co.kr/eng. Another useful website is http://asiaenglish.visitkorea.or.kr/ena/TR/TR_EN_5_4.jsp. Also see the subway map at the back of this book.

Subway etiquette: Koreans on the subway are very quiet. Be respectful of their customs by not talking too loudly. During rush hour, it can become quite congested. There are designated areas at the end of each subway car reserved for pregnant women, handicapped and the elderly. You may sit in this area if no one fitting that description needs the seat…otherwise you will be expected to give the seat to an elderly person or pregnant woman.

Trains: Riding the train in Korea is a wonderful way to discover Korea without having to worry about the traffic or car problems in an unfamiliar area. A ticket office is located on Main Post (Bldg S2664, at Gate 2). There are several different trains to choose from. The KTX Train is the fastest and most comfortable way to get to Daejon, Daegu and Busan. It costs a little more, but it is more comfortable and does not make any other stops along the way. The green and orange lines will take you to the local stops between Seoul and your destination, so the ride is somewhat longer. You can purchase tickets at Seoul Station (located just outside the subway stop of the same name). There is a ticket line designated for foreigners. For more information about the Korean National Railroad, visit www.korail.go.kr and select English.

Local Taxis: Always make sure there is a meter or negotiate a price before you get into the taxi. It is also helpful to know a few directional words when riding with Korean taxi drivers. Tipping cab drivers, like most other services in Korea, is not necessary, but accepted. AAFES taxi drivers expect a small tip. Local Korean taxis are not permitted on post, but the on post cabs will pick you up from wherever you are in and around Seoul. If you take a local taxi to Yongsan, you will be deposited outside one of the many gates leading into...
Main or South Post, so make sure you know what gate you need. Most local taxi drivers know Yongsan if you say that, but you may end up on the other side of post, so learn the landmarks! The closest subway station to where you want to go is a landmark that will be able to be communicated easily. The local taxis have medium-sized cabs, are usually gray or white in color and are recognizable by the blue sign on the roof. They are usually quite reliable as long as you know your desired destination in Korean (have someone write it out for you in Hangul). Some cabs now offer “Free Interpretation” service with an English speaking phone interpreter to help get you to your destination. There is also a Volunteer Translation Service (02-1588-5644) called BBB that you can call for help in communicating.

**Deluxe Taxis:** These feature somewhat larger cabs, and are black with a yellow sign on the roof and have the words “Deluxe Taxi” written on the side. The rates for these cabs are double the regular taxis, but the drivers generally speak some English. Again, check for a meter and negotiate a price beforehand.

**TRICARE Korea**

The Department of Defense Health Care Program provides health care for military service members and their families around the world, www.tricare.mil. Enrollment forms are available at all military treatment facilities and at the TRICARE Service Center Across from the Emergency Room at the Brian Allgood Army Community Hospital.

**USAG-Yongsan:** Bldg 7005, Room 1150, inside BAACH. Tricare Service Center 737-1433

**USAG Humphreys:** Bldg 5555, inside the Health Clinic, 753-7708/737-2780

**USAG-Daegu:** Bldg S221, inside the Wood Clinic on Camp Walker, 764-4683

**USO (UNITED SERVICE ORGANIZATION)**

The USO has been in Korea since 1954. It provides a lounge, Cross Cultural School, Good Neighbor Program, language classes, information, referral, outreach services and is an excellent place to book tours in Seoul and throughout Korea. You can also book many wonderfully exotic overseas vacations at reasonable prices. The USO also generally has a comprehensive selection of helpful guidebooks and maps (this is the go to place for information on how to get around town and travel in general). There are two USO offices at Yongsan: USO at Camp Kim, located in Building 1224 across the street from Gate 17 (724-7003/3301; Hours of Operation: Mon-Sat 8 am-5 pm, closed Sun); and USO Seoul, located in Building 4034 on South Post near the Dragon Hill Lodge (723-5364; Hours of Operation: Mon-Fri 8 am-7 pm, Sat 9 am-7 pm, closed Sun). Visit www.uso.org/korea for more information.

**VEHICLES**

**Pickup, Inspection and Registration:** All processing, pick-up, and outbound shipments are handled through the Yongsan Vehicle Processing Center (Camp Kim, Gate 17, Bldg C-1244-CK-068, 02-798-7032/7031 or 723-8912/8916, Mon-Fri 8 am-5 pm). To pick up and register a shipped vehicle, you will need your ID card, Vehicle Inspection Shipping Form (VISF-issued by port of embarkation to owner), a copy of your orders authorizing shipment to Korea, proof
of ownership and insurance, the vehicle inspection certificate, and your USFK driver’s license. Motorcycles/moped registration also requires Motorcycle Safety Course certification. (See Drivers License in A to Z.) After pickup, you must obtain a vehicle safety inspection from the Car Care Center at Camp Kim or the Auto Skills Center located on the hill behind Itaewon Acres housing area (turn left just before the post exit at Gate 6, then take the first left). Once your inspection is complete, take the inspection form and the completed registration forms to the Vehicle Registration office (Camp Kim, Bldg 1230, 724-5768/4811) to receive your license plates.

**Buying Used Cars:** Used cars for sale on post range in price from $500 and up. Older models generally can be found for under $3000. Newer models in good shape go for higher prices. Check the bulletin boards at the Main PX, Moyer Community Activities Center, Embassy Starbucks and the Townhouse (food court at the PX) for personal ads. There will be cars on post with for sale signs on them or check the BOSS lot, a small area in the commissary parking lot designated for private car sales. Contact the Vehicle Registration office for registration questions. These vehicles are generally appropriate to drive on post, but it is your responsibility to make sure they have a current safety inspection.

Because breakdowns can be expensive, be cautious if you plan to drive a less reliable vehicle off post for long distances. Do routine maintenance. Korean law is very strict concerning car accidents. Soldiers have found themselves barred from leaving the country for minor fender benders.

**Importing a New American Vehicle:** You may import a new American-made vehicle during the first 6 months after your arrival in Korea if you have not already shipped one.

**Importing a New Foreign Vehicle:** Requires a memorandum from the Unit Commander, this is endorsed by the PMO, and recommending approval (you must pay shipping and customs costs). American specifications are not required in Korea, but they will be if you wish to ship your vehicle stateside when you PCS.

**Local Purchase:** AAFES Exchange offers new car sales (near the Community Bank by the PX, at the Gallery and the Dragon Hill Lodge, exch@militarycars.com, www.encs.com). There are many dealerships off post; ensure you choose a reputable one.

**Vehicle Maintenance:** There are several options available for maintaining your car:

- **AAFES Garage:** The Car Care Center (Camp Kim, 724-6037): The center can perform basic maintenance. A limited selection of parts is available at the center, and special orders can be costly. You can also purchase parts online.

  Hours: Monday-Friday 8 am to 5 pm, Saturday 9 am-5 pm, closed Sunday.

- **Korean Garages:** There are many garages on the economy around Yongsan. Word of mouth is generally the best way of finding a good mechanic on the economy. The Auto Skills Center may also be able to refer you to a helpful garage. Also, see the Shopping – Repairs section for a list of garages.

  **NOTE:** It is against U.S. Army policy to pay a claim for items stolen from a POV unless it is something like a jack, a spare tire, a first aid kit, or a child car seat. Secure your personal property!

**VETERANS AFFAIRS**

The Department of Veterans Affairs (VA) office at Yongsan is identified as a Benefits Delivery at Discharge (BDD) Center (Bldg 4037 near the barber shop, behind the 1st Replacement Company/19th Personnel Company building and across the parking lot from the DHL, 738-5121 or toll-free 800-827-1000). The focus of the Yongsan BDD operation is to provide separating and retiring military members of all services the opportunity to start VA claims for service-connected disability compensation before they retire. Personnel also provide assistance to retirees as time allows. The VA office offers a wealth of information on health care, disability compensation, vocational rehabilitation, employment, home loan guaranty, survivors' benefits and insurance. Veterans residing on the Korean peninsula will be served by the regional office in Pittsburgh, Pennsylvania. The correspondence address is Department of Veterans Affairs, Pittsburgh Regional Offices, 1000 Liberty Avenue, Pittsburgh, PA 15222. If you are already a veteran arriving to Korea, there is little they can do for you aside from offer you the above address. For further information, visit one of the following websites:

**VIDEO RENTAL**

There are several locations to rent movies on post. They all have a good variety of movies (except on weekends), so rent early. Most new releases may be rented for 3 days. South Post Shoppette Video Rental is the largest store and carries movie snacks and magazines, as well as movies to rent/buy (Bldg 4209, beside the South Post fire station). The Dragon Hill Lodge Shoppette and the Mini-mall Shoppette on Main Post carry a smaller selection of movies to rent.
in their stores. Hannam Village Video Store is located in Bldg K. Yongsan Library has thousands of movies and television series for adults and children available to check out at no cost to you.

**VISAS**
The best way to get accurate information on visas is to contact the relevant embassy several months prior to the time you are interested in traveling. Conditions are constantly changing around the world, so be prepared for some travel changes. Travel agents can help groups of travelers obtain passport information and visas.

**VISITORS TO KOREA**
Each visitor will need a valid passport. A Korean visa is not required if the period of stay in Korea is 90 days or less. Before your visitors purchase airline tickets, check with travel agents in Korea (both on and off post). Often they will be able to provide you with cheaper fares on flights from the U.S. to Korea.

**Temporary Post Pass:** Visitors need a pass issued so that they can have access to the post. Prior to their arrival, pick up an application form for a temporary post pass from the Law and Order office (Bldg 4305, Room 105, 738-4612, go north on the road behind the Dragon Hill Lodge, go down the hill until the road ends. Bldg 4305 is on the left, and is also the Garrison Commander’s office). Return completed forms to the Pass and ID office. Pass processing and approval takes about three working days. You may request a pass for up to 30 days. When you pick up the approved pass, you can also pick up a letter that will allow your visitors access to the PX and Chosun Gift shop (escorted by you); this process can easily be done before your visitors arrive.

Once your visitors arrive in the country, take the completed paperwork, your visitors and their passports to the Pass and ID section of the Provost Marshal’s Office (Camp Kim, Bldg 1230, Mon-Fri 8:30 am-4 pm/closed holidays). Visitors must be present to have their thumbprint scanned for the D.B.I.D.S system. They will also have their photograph taken and will be issued a pass valid for their entire stay. If your visitors arrive after hours or on a weekend you will be able to sign them on post for a 24 hour period. You will need to re-sign them in every 24 hours until you obtain a pass for them. This can be especially inconvenient if your visitors arrive just before a long holiday weekend. Thus, you may want to have your guests plan their arrival dates carefully.

**Signing Visitors On Post:** You will need to take visitors to a designated gate. Your visitors need a form of identification that verifies citizenship (e.g., Korean ID or U.S. Passport), which the security officials will retain in exchange for a temporary pass. U.S. citizens will be allowed to keep their passport, but must provide some other form of identification, such as a driver’s license, that will be retained.

It is advisable that visitors contact their insurance company and add a special rider to their policy in the event that they need hospital care. Visitors not eligible for military benefits will be hospitalized in Korean hospitals. In some cases, Medicaid has refused to pay for hospitalization stays.

**WATER**
The water on post is safe for drinking and water fountains are available in several places, including the PX, 121, CYSS, and the schools and gyms. Water is also available to purchase. Water is available by the bottle or case at the commissary. Another option is home delivery by Seoksu Water located in the foyer of Main Post PX. Call 724-7567 to schedule delivery. Hours: Monday to Friday 10 am-7 pm Saturday to Sunday 10 am-6 pm, closed Monday. Free deliveries are made weekly on and off post. Hot/cold water dispensers are available to purchase or to rent. Hand pumps that fit over the bottles are also available for purchase. Many housing units off post may include hot/cold water bottle dispensers and water delivery; check with your property owner or manager to determine what is included with your housing unit.

**WEATHER**
The weather in Seoul is much like the weather in Washington D.C. or Philadelphia with very cold winters and hot, humid summers. Korea does have a monsoon season in mid to late summer. Take flood warnings seriously. The terrain is very hilly and rainwater gathers quickly in certain areas during monsoon season. The spring is a great time to sightsee, with mild weather and many col-
orful flowers in bloom (most known for the rows of cherry blossom trees). Au-
tumn generally brings lovely foliage colors, clear skies and many opportunities
for outdoor activities. Winter brings enough snow for mountain skiing. Parts of
Korea, particularly the island of Jeju to the extreme south, are much warmer
and experience milder winters. Other sections, such as the area around the
DMZ, are much cooler and do not get the locked-in heat of a summer in
Seoul.

ZOO
There are many petting zoos and animal attractions in Seoul. Please refer to
the Travel in Korea section at the back of this book for more details.

SHOPPING IN SEOUL

Here’s a newcomer’s glance at what is available in Seoul. For in depth in-
formation look for local books and magazines or visit the tourist information
booths located around the city. The AFSC Shopping Club and other groups on
post offer guided local shopping excursions and day trips.

For many, military duty in Korea somehow seems to be an intrusion on
the real mission: shopping for yourself and everyone you know in the United
States. Shopping in Korea is so good, in fact, that it can easily become an addic-
tion. However, before you buy loads to send back, be sure to check the United
States Postal and Customs regulations. (See Customs in A to Z.) With new auto-
mated equipment, the United States Customs Office has been cracking down
on illegal exports, including military members sending illegal gifts stateside.
Stiffer regulations from the Korean government have narrowed the counterfeit
label distributors drastically. Still, if you intend to join the legions of shoppers
attacking the stores with a vengeance (and almost everyone does at one time
or another), keep a few simple guidelines in mind:

• **Always** know the exchange rate between dollars and won before you
shop. You may be able to get a better deal using one currency over the other,
depending on current economic conditions. Be aware that if you pay by credit
card, the currency exchange rate is in the seller’s favor.

• If you use a credit card, be cautious and never pay a service charge to the
merchant for using the card. If the merchant insists on doing this and you ab-
solutely have to have the item, make them write the charge separately on your
receipt and report them to the credit card company. This is an illegal practice
and most merchants will back off if you stand your ground. Keep your credit
card receipts and ensure the charge that shows up on your bill matches the re-
ceipt. Using your card may also be disadvantageous because many businesses
will offer a “cash” discount if you pay for your items in won. Be sure to ask
about this as most businesses are not going to offer this on their own.

• Many U.S. banks now charge service fees for use of their cards overseas.
Contact your bank for more information on this practice. It’s generally easier
(and cheaper) to shop with cash, whether in dollars or won. USAA at this time
does not charge service fees and will refund some of the services fees for using
international ATMs.

• Outside of Korean department store, many Korean stores do not have
dressing rooms. Be prepared to slip things on over your clothes or change in
a makeshift dressing that consists of a curtain that has been hung for your privacy.

• If you find an item you like but are not prepared to buy at that time, ask the merchant for a business card so you can find the store again. However, keep in mind that the item may not be available later. When you see something you want and have done the research to know the price is right, buy it! This is even true for stores on base. Seasonal items are generally put out ahead of what you expect in the United States and sometimes sell out; so if you don’t get your Easter baskets when they hit the shelves the Easter bunny might be leaving your child a note with cash attached.

• If you really like the items and prices at a particular store, ask for extra cards to refer your friends. Many times, merchants will give discounts for your word-of-mouth referrals.

• Shopping bags are not free at grocery and some department stores, but for a few cents, you can buy bags for what you need. It’s best to come prepared with some sturdy bags or a rolling cart if you plan to make many purchases. Additionally many stores offer an area to box your own purchases at no cost.

• New stores open all the time and some old favorites may move or go out of business, so ask your neighbors, colleagues and American and Korean friends to recommend shops that cater to your interests.

• With the exception of some food and flower markets, most stores do not open before 10 am. Many markets are closed on a particular weekday, so check before you go. The last week of July and the first week of August is traditionally vacation time for the Koreans, so be prepared for the markets to be closed for a few days or even a week. This also occurs during Chusok (Korean Thanksgiving holiday) and Lunar New Year.

WHAT TO BUY

The following list, though certainly not complete, highlights a variety of products available for purchase in Korea:

ANTIOQUES

For those interested in Asian antiques, Korea offers one of the best shopping places in the region. “Treasures” are everywhere and although prices continue to climb, many things are still well within the average budget. Unless you are truly a connoisseur of Asian antiques, shop carefully. Before you buy, spend a lot of time looking and comparing items and prices. You will be overwhelmed at first. Visit a variety of shops over a period of several weeks. Ask questions! Reputable dealers will tell you if a piece has been repaired, what wood it is made from, where it originated in Korea and how old it is. When looking at antique pieces, look for bamboo nails, tongue-in-groove joints and cut-out or etched fittings and locks. When you purchase an antique, ask the shop owner for a certificate of authenticity that will describe the piece, list the materials and decorative metals used to make it, and detail its usage and measurements. Always negotiate on the price! Keep your receipt, the certificate, and a picture of your antique, in case of damage or loss. Note: National Treasures may not be removed from the country. In most cases, they would be entirely too expensive to purchase. For more information, call the Office of Cultural Affairs, Seoul City Hall at 02-731-6188.

Hannam-dong: Located beyond the fire station in Itaewon and just around the corner from Hannam Village, it is easily accessible and a well-known area. Most shops have reproductions in the front and better antiques in the rear. Generally, the shopkeepers speak excellent English, which can be a big factor in making a purchase. Go often to look and compare. The shops are constantly replenishing their inventory. Ask if the shop has more items; there is often an upstairs or downstairs area which you would never find on your own.

Insadong or “Mary’s Alley”: Located in downtown Seoul between the U.S. Embassy and Pagoda Park, it can easily be reached by taking the subway to Anguk Station (Line 3, Station 328, exit 6) and walking about 50 feet straight ahead, then turn left or...just follow the crowds. Approximately 41% of Korea’s antique shops are located in this shopping area. It is not only a great place to shop for antiques, but also has many wonderful art galleries available to visitors. Prices are high, but the quality of goods is generally quite good. There are many good tea shops and restaurants to be found down some of the interesting side streets around this shopping area. On Sunday afternoons, the streets are closed to vehicle traffic and shopkeepers set up their wares in the street, along with various entertainers and artists. It’s a great place to spend a Sunday afternoon with the family. A cultural space called ‘Ssamziegil’ is a mall with handicrafts as its theme. The space was planned by fashion accessory maker, Ssamzie. An area of three stores was forced to close, due to economics in the area. Ssamzie rebuilt this building, which now consists of six floors, housing 70 shops that are all connected by a long spiral path that leads to the Sky Park on the top floor, offering views of the streets below. This mall is located on the left, down towards the middle of the long main street.

Janghanpyeong and Dapsimni Antique Art Markets: If you like flea mar-
ARTS & CRAFTS
Local markets such as Dongdaemun, Namdaemun, E-mart and the Alpha Store (a chain of art/stationary stores) have a broad range of art, craft, stationery and architectural supplies available.

BOOKS
The Main PX on Yongsan Garrison carries a wide variety of books and magazines, as does the Osan Air Base BX. Some local bookstores worth a visit are:

- **Bandi and Lunis**: Located inside the COEX mall, take the subway to Samseong (Line 2, Station 219, exit 6).
- **Jongno Book Center**: Located just across the street from the YMCA Hotel, take the subway to Jongno 3(sam)-ga (Line 1, Station 130, exit 4).
- **Kyobo Bookstore**: Located in the basement of the Kyobo building just two buildings south of the United States Embassy in downtown Seoul, take the subway to Gwanghwamun (Line 5, Station 533, exit 3). There is a large sign for the bookstore at this exit, which leads you immediately into the store. The foreigner’s section here is excellent and some of the “coffee table” books are truly beautiful, though expensive. There is an entire section devoted to dictionaries for translating English and Korean. Within the foreigner’s section is a very large wall of travel books (including the Lonely Planet and Seeing Eye series) as well as books on teaching English.
- **Seoul Selection**: This is another treasure near the United States Embassy. Take the subway to Gwanghwamun (Line 5, Station 533, exit 2). East side of Gyeongbokgung Palace, across from the parking lot. www.seoulselection.com; phone: 02-734-9565.
- **What the Book?**: Conveniently located in Itaewon, this bookstore sells new and used English books. They also buy used books. It is located on the same side as the Hamilton Hotel on the main road in Itaewon, nestled on the second floor under the Thai restaurant Wang Thai. www.whatthebook.com; 02-797-2342.

CARPETS
If you think you are going to want carpets, consider buying them at your local PX or Furniture Store and bring them with you in your express shipment. It is a lot easier to lay carpet down in a fairly empty home than to add carpet once you have unpacked. Good color choices are hard to come by locally, particularly neutral colors. If you have room-sized rugs that are not too heavy, it is a great idea to include them with your shipment. You will be glad you did.
SHOPPING

CLOTHING

There are many clothing shops that offer great prices; however, if you are larger than a size 8, you may have trouble finding clothing in Korea. Doota Mall, across from the fabric market in Dongdaemun, has information about stores that carry larger sizes. Ask at the information booth on the ground floor and they will give you a slip of paper with a list of store numbers. Some places to shop for clothing include department stores, outlets, brand shops, Namdaemun and Dongdaemun Markets, Myeong-dong, Itaewon, and the stands in front of Ehwa Women’s University. Please see ‘Where to buy’ in this section for directions to these places.

For pre-made Korean apparel, there are some sizing differences that you should note. Basically, the sizes are: 44=Extra Small, 55=Small, 66=Medium (about a U.S. size 8), 77=Large, and 88=Extra Large (extremely difficult to find in a small store). Pants are often sized by the waist measurement in centimeters or occasionally inches. Shoe sizes can be difficult since some shoes have Korean sizing and some have European. For women’s shoes, the largest size sold is typically 270 (U.S. size 10), but these are hard to find. For men, most shops only carry up to a size 290 (U.S. size 11). Shoes are measured in millimeters.

TAILORS AND SEAMSTRESSES

Selecting a good tailor from the hundreds available in Seoul is yet another one of those things where word of mouth is helpful. Most people who have been in Seoul for a few years have a favorite tailor, so when you see a person wearing a custom suit or uniform that you like, ask him or her who made it. After you select a tailor, make sure you select a fabric that will be compatible with the style of garment you have chosen. Be sure to review all of the details of the garment (type of lapel, pocket flaps, cuffs, etc.) with the tailor so you will be pleased with the final product. Do not accept unsatisfactory workmanship and do not pay for the garment in full until it is completed to your satisfaction. Another tip if you are willing to make the trip is to shop for custom suits, gowns, and more in Osan. Often you can save 25% or more by taking the time to make this trip and will often see even bigger savings if you order more than one item (i.e. a gown and custom suit, a custom suit and jacket, etc.)

Many military personnel have found that custom uniforms can be made very reasonably. The tailor shop at the Dragon Hill Lodge is a good place to have uniforms and custom dress shirts made; they carry the authorized fabric, but for Army uniforms only. The Military Clothing Sales Store (MCSS), located in the Mini-Mall on Main Post, carries fabrics and buttons authorized for Army uniforms only. The selection of Air Force, Marine, and Navy uniforms here is limited and some items have to be ordered Osan or from the United States, so make sure you plan ahead!! For clothing services off post, you may need to purchase your own fabric. After the tailor has taken all the necessary measurements, ask how much fabric he will need to make the uniform. A man's jacket normally takes about 2½ yards and the pants require about 1½ yards. Check at the MCSS to make sure you have all the necessary trim and measurements for its placement. Word of mouth is a good way of finding out who specializes in custom tailoring. Women’s clothing is more difficult to make than men's and is more expensive, so ask to see samples and prices before committing to a garment.

FLOWERS AND PLANTS

Koreans, like Americans, value anything that makes their lives a little more pleasant and attractive. This attitude is clearly reflected in their love of flowers, which can be found in abundance and are very inexpensive. There are literally hundreds, possibly even thousands, of flower vendors in Seoul. Note: These markets close around lunch time so be sure to go early.

Blossoms: For those who prefer to stay on-base, this shop is located in the Dragon Hill Lodge on the lobby level near the elevators. Featuring a selection of beautiful fresh and silk flowers, the shop also accepts special orders and will make arrangements based on pictures you provide. Phone: 738-2222 x6816.

Burt's Self Help: If you live in government quarters, annual flowers and shrubs are sometimes available seasonally. These are free, but there is usually a limit on the quantities given per unit. Located on South Post between Collier Field House and Gate 13.

Dongdaemun (East Gate Market): There is a market for landscaping materials, flowers, bushes, and trees in the Dongdaemun area. Take the subway to Jongno 5(O)-ga (Line 1, Station 129) or Dongdaemun (Line 4, Station 421, Exit 9) and walk straight ahead for about two blocks.

Express Bus Terminal: The flower markets are located on the 3rd floor and in the basements (Line 3, Station 339, Exit 1). You can also take bus 143, 401 near the Commissary gate. Get off at the second stop after crossing the river. The shopping area is on your right.

In Full Bloom Flower Shop: Conveniently located in the Main Post Mini Mall (Four Seasons), the shop carries a variety of fresh flowers, but is relatively pricey. Phone: 723-2076.

Hatone (Flower Area): This is a great place to shop if your interests lie more with yard and houseplants. Seasonal yard plants are outside and houseplants inside. Some of these plants are rare and can be expensive, so always shop around and negotiate the price before purchasing. To get there by personal vehicle or taxi, take the Chamsu Bridge (lower section of the Banpo Bridge) to the south side of Han River. Drive straight through the traffic light at the intersection of the Express Bus Terminal, Palace Hotel and hospital. Go up the hill on the other side where you will see greenhouses lining the street on both sides.

Namdaemun (South Gate Market): Take the subway to Hoehyeon Station (Line 4, Station 425, Exit 5), exit street level take a right turn into the market on the Main Alley. The flower market is on the third floor of a large building on your right about 300 yards into the market and features real and artificial flowers and ribbons.

The Yangjae Flower Market: Take the subway to Yangjae Station (Line 3, Exit 7) and walk south for 10-15 minutes. The market is on the right. This is a good place to find yard and houseplants, gardening tools, and cut flowers. To get there, drive across the Hannam Bridge. Go straight until you reach Yangjaedong. The flower market is a little bit out of town and is located on the right side of the road.
PICTURE FRAMES
Many people choose to have artwork framed in Korea due to the relatively low cost. There are many places in Seoul that provide framing. The Frame Shop in the Gallery on Main Post has fairly reasonable prices and the owners speak English. They are familiar with the concept of double matting and work hard to accommodate American tastes. The MWR Arts and Craft Centers of every post offer custom matting and framing services for a reasonable fee, or you can do your own framing. For a more extensive selection of frames, there are approximately 30 shops located off-post between Gate 14 and Gate 16. The best deals are off-post. The language barrier can sometimes prove frustrating or just something fun to write about in your journal.

A nice store to have artwork framed is 0901. To get to 0901, go out of Gate 14 and turn right at the traffic light. The store is near Samgakji Station on your right hand side. Two shops before 0901 is a small shop selling unframed canvas artworks. The owner does the paintings and for a very reasonable fee will turn any treasured photograph you may have into a wonderful canvas oil painting. Note: Plastic frames are widespread so if you are offered an unbelievably low price on the framing, check for plastic!

GINSENG
Ginseng is Korea’s traditional medicinal herb. This herb, known as the “miraculous medicine” or “Koryo Ginseng,” is believed to calm the mind and strengthen the body. There are many ginseng products including the root, tea, canned drinks, and even candy. It can be purchased at many markets in town, duty-free shops, and during regional ginseng festivals. It is definitely an acquired taste for the majority of Americans, so it is advisable to taste test before you purchase. Ginseng products can be costly. The USO offers trips to pick your own Ginseng root and visit the local Ginseng markets. The Foreign Goods Transaction Office also has a ginseng shop and give special prices to military personnel.

HANBOK
The hanbok is the traditional Korean attire of both men and women. Hanboks can be very elaborate depending upon the fabric and handwork involved. They are still worn on official occasions and holidays such as Chuseok, weddings, and other special family gatherings. If you are interested in having a hanbok made, there are hanbok tailor shops in Itaewon; Dongdaemun Market, Building C 3rd floor (Line 4, Station 425, Exit 5); and on Osan Air Base.

JEWELRY
Like most of Asia, Korea seems to abound with jewelry. The beautiful craftsmanship makes these articles very tempting buys. There are several important factors to remember when shopping for jewelry:

• As in the U.S., deal with a reputable merchant if you plan on purchasing precious stones and metals.
• Know which countries specialize in what type of precious stones in order to get the best price. Korea’s special stones are amethyst and topaz. True Korean amethyst has become very expensive, so you will find many shops sell the cheaper Brazilian amethyst. The Korean jade supply was mined out several years ago; consequently, most of the jade you see comes from other Southeast Asian countries. Merchants can, and do, make high-quality synthetic stones.
• Always comparison shop before you purchase. The PX carries a variety of jewelry from different parts of Asia; check out their selection and prices. They always stand behind the products they sell and you may wish to eliminate any doubt when purchasing a high dollar item like fine jewelry. Payment plans are available or purchases can be made using most major credit cards.
• All Seasons Jewelry and Joy’s Jewelry in Itaewon offer many beautiful pieces and they do custom work. As with all things Korean, word of mouth advertising is the best way to go. Some shops specialize, so ask around before committing to any purchase.
• When purchasing expensive jewelry, ask for certificates of authenticity and carefully inspect all merchandise. Certificates of authenticity are required even from the PX and required for insurance purposes.

KIMCHI POTS
If you are thinking of buying a brown-ware kimchi pot, there are many places to buy them. A wide variety of kimchi pots are available just outside Gate 21. This gate is officially called the Friendship House Gate as indicated by the sign above the gate, but is unofficially and widely known as the Kimchi Pot Gate. Kimchi pots make nice decorative crocks. They can also be found at various vendors throughout the city and at the pottery villages. Spouses have been known to find a “defective” kimchi pot (one that cannot be used to actually prepare kimchi) for less than W20,000 in the pottery villages.
LEATHER
Another popular item in Korea is leather, whether in luggage, jackets, handbags, or shoes. There are many good bargains to be found, but a few words of caution apply: If you cannot tell the difference between cow, lamb or pigskin, shop with someone who can! Quality lambskin is the most expensive and you certainly do not want to pay for lamb and end up with treated cow; this also applies for fleece linings. If you are placing an order, NEVER pay for the entire garment in advance. Make the smallest down payment possible since the merchant will be much more interested in seeing that the final product meets your specifications and completed in a timely manner. Do not accept a garment until you are happy with it.

NOTE: It is not the merchant’s fault if you picked a style that is unbecoming to you. Know what looks best on you before placing a customized order, or you could end up forfeiting your deposit. In most cases you will have to purchase the item since large sizes will be difficult for the tailor to sell.

MUSICAL INSTRUMENTS
Many people have found good bargains in Seoul on various musical instruments. Nakwon Musical Instrument Arcade is located behind Tapgol Park (Pagoda Park) near Insadong. This large indoor market has the widest variety and best selection of musical instruments, from piccolos to pianos. Korean-made guitars appear to be a good buy, but there may be better bargains elsewhere for American made guitars. Take the subway to Jongno 3(sam)-ga Station (Lines 1, 3, 5, exit 5). Subway stations Jonggak and Anguk are also nearby.

QUILTS AND FABRIC
Korea is a nation filled with fabric, garment manufacturers and innovative entrepreneurs who do not let a scrap of fabric go to waste. The Korean quilting industry was born literally from the remnants of other works. Most Korean quilts are sewn by machine and made of washable fabrics. Some are sewn by hand from ornate silks and satin fabrics, but these are usually not washable and more for decoration than everyday use. You can spend anywhere from a few dollars to several hundred on a Korean quilt. A quilt can be made to order; prices vary widely so shop around for the best prices, quality of fabric, and workmanship.

Dongdaemun Market is the best place to purchase fabric, sewing notions and quilts. You will be amazed at the sheer volume of fabrics available. Fabric can be bought by the yard or by the bolt along with a huge selection of notions: tassels, thread, zippers, and really anything else you can imagine. Take the Ichon Station (near Gate 13) or Sinyongsan Station (near Gate 14) subway to Dongdaemun (Line 4, Station 421, Exit 9).

If you’re interested in quilting and sewing, visit the Arts and Crafts Center on South Post. There you’ll find information on quilting and sewing classes as well as a long arm quilting machine located on the first floor. One quilting group, the Yongsan Quilt Group, participates in the Quilts of Valor program and makes and donates quilts for babies born at the Brian Allgood Army Community Hospital. The group welcomes both military spouses and civilians and meets regularly, offering instruction and providing all quilting supplies (including sewing machines) to anyone wishing to volunteer to help make the donated quilts. For more information, visit www.facebook.com/pages/Yongsan-Quilters/110379432330282. To contact the Arts and Crafts Center, call 738-4750 or visit Building 4253/4254 on South Post. Hours are Tuesday-Saturday 10:00 am-6:00 pm, closed Sunday, Monday and some holidays. See Arts & Crafts in A-Z for more information.

One popular fabric shop, Happy Quilt, has top quality cotton and seasonal fabric (B-5215, 5216 inside Dongdaemun Fabric Market). Happy Quilt is a regular vendor at the AFSC monthly luncheons. They have a warehouse located in the Osan area.

Some other popular Korean items to shop for include lacquer ware, paper craft called Hanji, calligraphic works and paintings, paper fans, masks, teas, and fashion accessories.

WHERE TO BUY
There are so many shopping opportunities in Seoul that it is easy to become overwhelmed. The listing below is by no means complete, but it’s a good place to begin your Korean shopping adventures. The locations are broken down into three categories: Markets, Shopping Districts, and Department Stores. A trip to a department store or a shopping district can be great fun, but the markets are where you will find the best deals if you have the time to spend.

MARKETS
Korea is world famous for its shopping markets. Exploring these markets
can be the adventure of a lifetime. The following are just some of the market areas frequently by many of the Yongsan community:

**Bangsan Market:** Looking for a great place to shop for baking supplies? Take the subway to Jongno 5(o)-ga (Line 1, Exit 7).

**Dongdaemun (East Gate Market):** The largest of the shopping markets in Seoul and possibly the most popular with both Korean and foreign shoppers. Dongdaemun is famous for a variety of wares including fabric, sweaters, lingerie, shoes, sports equipment, clothing, Korean bedding, jackets, leather items, handbags, jewelry, toys, and much more. It is located in the eastern sector of the city and is easily reached by taking the subway to Dongdaemun (Line 4, Station 421, Exit 8 or 9). It is also possible to drive and park in the FED compound (free to all ID card holders and roughly three blocks away). The market is well marked on almost all Seoul roadmaps.

**Express Bus Terminal:** To Westerners, the huge Express Bus Terminal just south of the Han River is sometimes called the Banpo. This bus terminal is the hub of all long-distance bus traffic in the Republic of Korea. It is busy on a normal day and jammed tremendously on Korea holidays. It also contains several floors of restaurants and interesting, inexpensive shops. There are fresh flower markets in the basement and third floor. There is also a huge artificial flower market with home goods on the third floor. Christmas and other holiday items are available seasonally. Take the subway to the Express Bus Terminal Station (Line 3 or 7, Exit 1). Go by bus, exit Gate 6 (Commissary Gate) and take a right; walk to the stop light and cross the street to the bus stop. Take bus 143 and get off at the second stop after you cross the river. For the return journey make sure you are on the opposite side of the street and again take bus 143. Once the bus has crossed the bridge, get off at the first stop (Hangang Middle School) which is close to Gate 6.

**Dongmyo:** This area near Dongdaemun which is a good place to shop for toys, stationery, clothing, socks, etc. Take the subway to Dongmyo Station (Line 6, Station 636, Exit 6).

**Doota Mall:** Located across from Dongdaemun Market and directly across from the History and Culture Park, look for another large white building across the street (and stream). Many of the shops carry European sized clothing. Ask at the information booth on the ground floor and they will give you a slip of paper with a list of store numbers that sell the larger sizes. There is also a very nice food court on the 7th floor.

**The Fabric Market:** Located outside of Dongdaemun Station (Line 4, Station 421, Exit 9). The market is a five-story white brick building full of fabrics and notions of every imaginable sort. It is overwhelming at first, so plan to spend a few hours. Look for the Happy Quilt fabric store (5th Floor B Bldg, 5215-6) as the owner, Mr. Kang, also sells his fabrics at the monthly AFSC Luncheons. Note: The fabric market is closed on Sundays.

**Mango’ Building:** A good place to buy socks, clothes, etc. is Mango’ Building. Take the subway to Dongmyo Station, (Line 6, Station 636, Exit 6). The building is immediately to your right as you come out of the exit. Take the elevator to the 7th floor.

**Namdaemun (South Gate Market):** Located just down the hill from the Hilton Hotel and across from Seoul Station. This market is a unique cornucopia of clothing, jewelry, dishes, appliances, folk art, flowers, gift bags, stationery items and foods. The market serves as a major manufacturers’ outlet opening very early at 2:00 am and doesn’t close until 6:00 pm. One of the best features in Namdaemun is the huge wholesale flower market, but go early since that section closes around 1:00 pm.

Namdaemun is a good place to buy children’s clothing, with many buildings selling nothing but children’s clothes and shoes. The Alpha Store is located on Stationery Alley and has a great variety of crafts, art supplies, and office needs. The market is easily accessible by taking the subway to Hoehyeon Station (Line 4, Station 425, Exit 5). You can also take bus 143, 149 (outside Gates 14 or 16) and bus 401 (outside Gate 3). Parking is available in the underground lot at the Hilton Hotel; fees can be high if you spend more than a couple of hours. If you would like to walk from Yongsan, exit post at Gate 19 (Camp Coiner) and take a left out of the gate. Walk up the hill to the Hilton Hotel and then down to the market. Free shopping guide books filled with market information, detailed maps, and building numbers are available at information booths located along the market’s main arteries.

**Noryangjin Fish Market:** This is Seoul’s largest fish market. It is run by the Department of Agriculture, Forestry, and Fisheries and houses over 700 shops selling seafood from 15 fishing ports around Korea. It also includes numerous restaurants that will cook your purchased fish for you, an auction floor, and an adjacent agricultural section. It is open from 3:00 am-9:00 pm daily; however, wholesalers are off on Sundays and holidays. Take the subway to Noryangjin Station (Line 1, Exit 2).

**Toy Alley:** This is a favorite shopping area for toys, games, stationery, craft items, party supplies, and more. Birthday gifts and party favors are fun to find here, as well as gift bags and cool school supplies. Take the subway to Dongmyo Station, (Line 6, Station 636, Exit 6). As you exit to the street, walk about
SHOPPING

100 feet to the first intersection at which you will turn right and walk down the alley to the vendors and stores.

Yongsan Electronics Market: This market houses enough computers, stereos, cameras and general electronic gadgets to keep an electronic whiz busy for months, maybe even years. Do not just shop in the main building. The entire market consists of more than two dozen buildings and the surrounding streets are packed with vendors selling thousands of electronic gadgets and gizmos. This market is located in Yongsan-gu, an easy walk out of Gate 14 (turn left at the traffic signal and follow the signs). If you are driving, exit Gate 14, turn left at the light and immediately get in the right lane and make a right turn at the next traffic signal. The lanes are confusing, so pay attention. Go straight ahead taking the underpass in front of you. Turn left at the first traffic signal after the underpass. The market is 300 yards on the left, behind the train station and E-Mart. There is a large parking lot in front of the building. It is helpful to have a Korean speaker accompany you to the Electronics Market as most vendors speak little English.

Note: As with any other market, compare prices and bargain before you buy. Also, this is an important place to remember that a brand label is just that, a label. They can be put on or taken off very easily. Check for quality and performance.

Buyer Beware: Most product information is written in Korean and warranties are not valid in the United States. If you live on post or are planning on taking the products with you upon PCS, ensure all products you buy are dual voltage.

SHOPPING DISTRICTS

Certain areas of Seoul have developed reputations as special shopping and commercial districts. The most popular among the American military community is Itaewon, mainly because of its convenient location to Yongsan Garrison and the fact that most shop owners speak English. A list of some of the more popular shopping districts is below and a trip to any of them will be sure to provide an afternoon or evening of enjoyment.

ITAEWON

This area is conveniently located outside Gate 5 (the Gas Station Gate) and across the street. It is a good place to venture off-post for your first shopping adventure. Many of the vendors speak English and it is not quite as overwhelming as some of the larger markets in Seoul. You can find numerous items such as: clothing, shoes, travel bags, luggage, leather and eel skin goods, brass, antiques, and reproductions.

The Underground: Be sure not to miss the underground section of shops called “The Underground,” about a block away from McDonald’s and across the alley from “The Bag Man” purse shop. There are many entrances to “The Underground” and once inside, you can easily find your way around. There are hundreds of vendors selling an array of “brand name” clothing, shoes, jackets, underwear, and souvenirs. There is a limited amount of children’s clothing, but not at bargain prices compared to the sales available in the United States. Some stores will not let you try on clothes, but most encourage you to, whether they have a changing area or not. Take the stairs, leading up or down, to see more floors packed with hundreds of vendors and their wares.

Boutique Area: Follow the small street that leads to “The Underground.” Keep walking until you pass a small ‘Tag Store’ on the right hand side. This store will sew your name (in Korean) on luggage and clothing tags while you wait. It’s a nice shop and also sells hats and ready-made luggage tags. Once you pass the tag shop, you will see Monica’s Custom Tailor store. Turn right in front of this store. Walk down a narrow, steep alley-way, leading downhill. At the bottom of the hill you will find boutiques lining both sides of the street. They sell a variety of beautiful clothing for both men and women. Note: On Tuesdays, a lot of these stores are closed.

Hamilton Shopping Center: There is a wide variety of stores in this four level shopping center attached to a hotel and often simply referred to as the “Hamilton” or the “Hamilton Hotel.” The lower levels sell watches, jewelry, purses and souvenirs; the top two floors are mostly clothing, purses, and luggage. Have a specific item in mind when shopping the lower levels, as the vendors tend to be a bit aggressive as they pressure you to buy. Take the escalator to the top level where there are also bathrooms. There is also a reputable rug dealer with a nice selection of Persian rugs. He also offers rug cleaning and repair. Some shops take United States dollars, but exchange rates can vary from store to store.

Remix: This store has a great selection of clothing. It is on the right side of the main street towards the middle section of the Itaewon shopping area. It is easy to walk by and miss the store.

Shoe and Boot Shop (no name on store front): This shop is located immediately before the Remix clothes shop. You have to go downstairs to get to the
shop, it carries a good selection of ladies shoes and boots at reasonable prices. A-One: This is another store that has a great selection of shoes and boots. It is located on the right side of the main street towards the middle of the shopping area.

The Morning Calm Antique Furniture Store: This store has a huge selection of beautiful Korean antiques and reproductions. The store has very unique pieces of furniture and the owner is willing to make a deal. 02-790-2420

MYEONG-DONG
This is one of the busiest and most fashionable shopping districts in Seoul. It is said that one million people pass through here each day. The narrow streets and alleys contain hundreds of clothing and accessory boutiques, shoe stores, tailors, dressmakers, huge department stores, specialty shops and the Myeong-dong Cathedral. This district stretches for about a mile in any direction from the Myeong-dong Station, so everything is within walking distance. The area is popular with teenagers and has many familiar stores such as Gap, Old Navy, H&M, and Forever 21. Some of the familiar stores even sell European sized clothing. There are many good restaurants here that represent the best of Eastern and Western establishments. Myeong-Dong claims to sell the biggest ice cream treat in the world at 16 inches high. There are always lines of people waiting to sample this mile high treat— even on bitterly cold winter days! During the warmer summer evenings, the streets abound with hundreds of shoppers as the vendors stay open at least until midnight. Take the subway to Myeong-dong (Line 4, Exits 7 or 8).

APGUJEONG
This trendy, upscale fashion district, surrounded by many luxury apartments, is located south of the Han River in Gangnam-gu. You will find department stores, clothing stores, shoe shops, and boutiques. There are also numerous restaurants, cafés, coffee houses, nightclubs, cinemas, theaters, and other entertainment spots. Some stores you will recognize like The Body Shop (one of many around town) and L’Occitane. This area can be reached by taking the subway to either the Apgujeong or Sinsa Stations (Line 3, Stations 336 or 337).

EWHA WOMEN’S UNIVERSITY AND SINCHON
These quaint shopping areas are very close to one another and are fast becoming the new fashionable places to shop. With the feel of a small college town, lots of fun little shops, hair salons, and small restaurants dot the area. With many universities adjacent to it, Sinchon has been called the “Street of Youth” and is rumored to be the up and coming Myeong-dong. Where else would they put the first Krispy Kreme Donuts in Seoul? Theaters line the street near Sinchon Station (Line 2, Station 240) and an On the Border Mexican Grill & Cantina restaurant is also there. Take the subway to EWHA Women’s University (Line 2, Station 241, Exit 2).

DEPARTMENT STORES
Korean department stores are not only an excellent and entertaining way to learn what products are available here, but also give you a glimpse of the Korean way of life. While featuring the finest and most expensive items, the department stores are almost a microcosm of Korean society, with most also containing grocery stores and restaurants. The huge Lotte World Department Store on the south side of the Han River also has an amusement park and museum within its confines. Someone is usually available to answer questions in English.

COEX Mall: Everything can be found at this enormous shopping complex. In addition to the endless stores, you will find restaurants, food courts, clubs, an aquarium, and a movie theater. To get there by subway, go to Sinsadorm Station (Line 1, Exit 1). The items in the store are geared toward the Korean shopper, so you will find different merchandise than is available Stateside. You can use your unexpired Stateside Costco card here, so be sure to take it with you. Visit the Costco Korea website at: www.costco.co.kr (click on English, then ‘Locations’ for maps and written directions). The Yangjae location is right off Highway 1, across from the flower market. There is a large parking garage on the premises. The Costco sign is the same as the stateside store signs and is visible from the highway.

**E-Mart**: This chain store has many locations throughout Seoul. The closest location to Yongsan is out of Gate 14 in the basement of the I-Park Mall Building. There is a parking garage, or you can walk from Gate 14 to the Yongsan Station subway entrance. Use the subway to get on the other side of the busy street (Exit 5). You can’t miss the building with a huge I-Park sign; also look for the distinctive yellow E-Mart signs. E-Mart is in the same building as Yongsan Station (Line 1, Station 135). This department store has everything from pet grooming items to groceries, and is similar in quality to Stateside Wal-Mart stores. They even have a kimbap rolling machine and you can watch while the deli attendant rolls perfect kimbap. There are two floors of nothing but restaurants, so you’ll never go hungry. The Living Digital store carries an assortment of electronics, furniture, and a Korean bookstore. There is also a fashion mall with shoes, clothes and accessories, nail and hair salons and hobby shops. The opposite end of the mall contains the I-Park Department Store, and in the basement of the I-Park Department Store is E-Mart. This mall is within easy walking distance to Yongsan Garrison or take the subway to Yongsan Station (Line 1, Station 135). www.iparkmall.co.kr.

INTERNET SHOPPING

Many people who have never bought a single item on the Internet find themselves die-hard Internet shoppers after moving to Korea, as Western goods are more expensive out on the economy due to import taxes. Many Internet sites ship to APO addresses. Be sure to check what shipping method a company intends on using to ship the goods to you. The quickest, easiest and most convenient way for APO/FPO shipments is USPS Priority Mail. This usually takes 1-2 weeks. Some companies use “Smart Mail” allowing them to use UPS as their carrier. UPS takes the package from the company and delivers it to the military postal facility. The package is then shipped via parcel post with USPS to the APO. This often means that the package takes 6-8 weeks to arrive. For those items that cannot be shipped to an APO/FPO address, there are companies who specialize in forwarding packages to APO/FPO address. They provide you with a stateside shipping address and then charge shipping and handling to forward it on to your APO address. www.apobox.com, www.shipitapo.com

ON-POST

Furniture Store: This shop is located on South Post next to the South Post Mini-Mall. It carries a limited variety of United States furniture for living rooms, dining rooms, and bedrooms. Appliances, lamps, and bound carpeting can also be purchased at the store. The carpet stock is constantly in demand and a good rule of thumb is if you want it, buy it because it will be gone tomorrow, if not sooner. They carry 6x9’s, 9x12’s, and 12x15’s in two different grades of carpeting. They often have carpet in the back out of sight, so ask for help if you don’t see anything you want. You can find baby gear (e.g., cribs, strollers, high chairs, baby carriers, gates, bathtubs, activity centers, etc.) here. Be careful with any special orders because anticipated delivery dates can be anywhere from one to eight months. Phone: 738-5052

The Gallery (AAFES Concessionaires): Located on Main Post across the street from the PX and next to the library, this is a great place to get items from local vendors. Items sold include art, blankets, lacquer-ware, clothing, embroidery, shoe shop/shoe repair, furniture, jewelry, pottery, leather goods, and clothing. There is also a dry-cleaner and optical shop here. You can ship packages from the Gallery FedEx desk to arrive in the U.S. within 2 days; however, this service is pricey. There is even a ‘Pack and Wrap’ located here to help you get your items ready to mail. The Main Post Office is conveniently located right next door. Phone: 723-7635.

SPECIAL INTEREST SHOPPING

MATERNITY CLOTHING

Ordering through United States Websites is probably the easiest and cheapest way to get maternity clothes; however, you can find maternity clothes and bras locally.

Yongsan PX and Osan BX: A selection of maternity wear can be found at the Yongsan PX and the Osan Air Base BX; however, they tend to sell out quickly.

Second Hand Rose Thrift Shop: They carry gently used maternity items, but their stock is dependent upon what people consign or donate. Located in building 4222 on South Post, 02-795-7675.

Doota: Located across the street from Dongdaemun subway station (Line 4, Exit 8), you’ll find a selection of maternity clothes on the 6th floor with the baby clothes. There are individual vendors so be sure to go around the floor to compare prices.

Shinsegae Department Store: There are several Shinsegae branches in
Seoul, but the closest ones are at Central City Mall (Express Bus Terminal Station (Seoul Subway Line 3 and 7) – the subway station is directly connected to the department store) and Myeongdong (Hoehyeon Station (Line 4, exit 7)). http://english.shinsegae.com/english/main.asp

Sarah Mesa Department Store: Located in Namdaemun Subway (Line 4, Hoehyeon Station, exit 7), the maternity clothes can be found on the 1st and 2nd floors.

Baby Malls: Located in Namdaemun (right around the corner from Mesa), there are some inexpensive women’s shops on the second floors.

Migliore: Located in Myeong-dong (Myeong-dong Station, Line 4, Exit 6), there are quite a few maternity shops in the basement.

Lotte Department Store: There are several Lottes, but the closest is in Myeong-dong. The prenatal (what they call maternity) section is on the 4th floor and has a good selection of work pants and jeans.

OPTICAL
You can make an appointment to have your eyes examined by calling the Optometry Clinic on Main Post at DSN 737-1464; however, no contact lens fittings are done so bring a valid contact lens prescription and a 6-12 month supply of lenses with you. With a valid contact lens prescription, you can reorder contacts at the Optical Shop, on the Korean economy or over the Internet. Frames, lenses, or complete pairs of eyeglasses can be purchased at a reasonable price from the Optical Shop in the Gallery on Main Post, at the Dragon Hill Lodge or any off-post optical shop. There are hundreds of eye glass shops in the markets and department stores about town. Word of mouth for recommended places works best. The Korean market offers very affordable frame and lens options.

PRODUCE
Fresh fruit and vegetables are available from many sources on and off post. Korean fruits such as apples, pears, persimmons, strawberries, and watermelon and imported fruits like mangos, oranges, and pineapples are all available. If you regularly do business with a particular vendor, you may get better prices and quality. Be aware that Korea allows the use of pesticides, which are banned in the United States. However, organic produce is available and is noted on the product labels. As with any produce, always thoroughly wash or peel any fruit or vegetables you buy on the economy. The Commissary stocks a variety of produce from overseas and Korea. There are also huge markets, Korean stores, and street vendors that carry fruits and vegetables. Namaeun Market is one of the largest wholesale fruits and vegetables markets; Bondong Sangga at Namaeun (Subway Line 4, Hoehyeon Station 425, Exit 5 at Namaeun Market) sells all kinds of fresh fruits at very low prices.

REPAIRS
For getting things repaired, word of mouth is always the best way. There are new shops appearing all the time. Check a shop’s current reputation before leaving anything for repair.

**RESTAURANTS OFF POST**
Virtually any type of food imaginable is available in Seoul. Prices vary according to the type of cuisine ordered and the area of town in which you dine. There is an abundance of good restaurants as well as thousands of little carryout, or “sidewalk” tents, where you can have a quick and inexpensive meal. If you have adventurous taste buds, you will love experimenting with the foods in Seoul. If not, stick to the more “moderate” facilities, which cater to the tourists’ palate. To be on the safe side, ask for bottled water when dining out or order soda or beer in cans or bottles. Beer and liquor can be extremely expensive, so you may want to check the prices prior to ordering. Most restaurants have menus displayed outside that show pictures and prices of food. If a menu is not visible and you are concerned about prices, feel free to ask the hostess/host to see a menu before you are seated.

As with any nice restaurant around the world, many of the fine restaurants in Seoul have a dress code. If you are planning an evening out, either check with someone who has been there before or call the restaurant to find out what is expected. Remember, you are not in an English speaking country, and if you cannot speak Korean, communication can be difficult, especially over the phone. Your best bet when going out to eat is to wear nice, casual attire that is comfortable. Wear shoes that are both comfortable for walking and easy to remove when you arrive, as is often required in traditional Korean restaurants.

Please enjoy the next few pages of restaurants. For your convenience, most of them are of Western or European style. As you become comfortable in your new surroundings, do check out some of the local Korean cuisine. The Seoul Magazine consistently features new restaurants, so pick one up next time you are at the USO. The publication can also be found in many restaurants in Itaewon as well as the tourist booth in Itaewon.

BUKCHON HANOK VILLAGE: Bukchon Hanok Village is a village where traditional Korean houses called hanok form a group, which encompasses Ga-hoe-dong, Jae-dong, and Samcheong-dong in Jongno-gu. Bukchon has been a traditional residential district for more than 600 years. The name Bukchon (meaning North Village) originated from it being the north village of Cheonggyecheon and Jong-no.

The village is located between two palaces arranged according to principles of Sung Confucianism, which was the dominant ideology during the Joseon Dynasty, and has a large concentration of traditional Korean houses against an excellent landscape. Visitors can feel the warm heart of Korea from the landscape; the eaves of houses are connected and walls are shared. These homes are often still resided in by Korean families so consideration should be made regarding large groups and rowdy behavior.

The Gahoe-dong Traditional Village Cultural Festival is held in the streets of Bukchon Hanok Village by the Bukchon Nobility Life & Culture Pavilion and sculptures symbolizing Bukchon Hanok Village, where visitors can enjoy the lives of historical Koreans.

PALACES, MUSEUMS AND WORLD HERITAGE SITES

Seoul is the ancient seat of Korea's royalty and, as such, there are a number of palaces that offer a glimpse into the country's past. The royal palaces of Seoul are the pride of Korea. Although most of the buildings were damaged or destroyed by war, their historical and aesthetic significance are still appreciated throughout the world. All of the palaces and their contents date from the Joseon Dynasty (1392-1910) and restorations are ongoing. The royal palaces are located in downtown Seoul. At specific times during the day, there are special ceremonies performed such as the changing of the guard or a traditional Korean wedding ceremony. Most palace admission fees are between W1,000 and W5,000 and special tickets can be purchased for multiple palaces at discounted rates. The palaces listed below open at 9 am but closing hours vary.

CHANGDEOKGUNG AND BIWON (SECRET GARDEN): A UNESCO World Heritage Site, this palace was first built in 1405 and was the seat of power between 1618 and 1896. The buildings have all been recently restored and repainted. Buildings of particular note include the blue-roofed Seonjeongjeon, which was the king's office, and the Daejojeon (“Great Making Hall”), his bedchamber, but most famous of all is the Biwon (“Secret Garden”) in the back. SKI RESORTS

There are several ski resorts in Korea. The ski season is rather short, generally between mid-December and early March. If the season is mild, most resorts have facilities for artificial snow. Toward late February conditions tend to be wet and slushy by mid-morning, so go early. There are a lot of beginners on the slopes, so it is advisable to be cautious and to be aware of who is coming down behind you. Skiing is rapidly becoming one of the most popular sports in Korea. Although there are a variety of resort areas with ski slopes, the popular areas are very crowded on weekends. The USO frequently sponsors group trips. Ski clothing is abundant and inexpensive but the equipment is another matter. If you have ski equipment and plan on skiing a lot, bring your own. Rental items are available at most resorts, but buying ski items there can be expensive! Some MWR offices may also have equipment for rent so check before heading on your ski adventure.

There are several resorts located within two hours of Seoul, but the more luxurious resorts are up to five hours away. Look into Yongpyong and Muju if you are interested in a “world class” resort. The following list describes just a few of the ski areas available. Visit http://english.visitkorea.or.kr/enu/SI/SI_EN_3_6.jsp?cid=860692 for more information.

Plus the snow sledding field provides fun that all family members can enjoy.

**NORTHERN LOCATIONS**

**DEMILITARIZED ZONE (DMZ) AND PANMUNJOM:** This is such an important part of Korean History and very important to see in order to truly understand the effect of being so close to the most heavily fortified border on the planet. Panmunjom is the most forward location in the DMZ that can be visited by civilians. This tour is better with a group where somebody else handles the necessary clearances. There are tours available through the USO and Discover Seoul. The USO has a great tour that is very affordable; reserve your spot early because the buses fill up fast. The Discover Seoul is more expensive and information can be picked up at the desk in the Dragon Hill Lodge.

Goseong Unification Observatory and Tongil Security Park: The Goseong Unification Observation Platform, located in Goseong-gun, Gangwon-do, is one of the places that provides you with living evidence of the division of the Korean Peninsula. At the Park are the Entrance Report, Tourist Bureau, Education Assembly, stalls with vendors selling various souvenirs (from North and South Korea), a Dining Room and Natural Mineral Museum. This is also where you fill out the paperwork to gain permission to continue on to the observation platform, located within “The Civilian Passage Restriction Line.” Paperwork requires the following information: your family name, the license plate number of your car, and the first names and ages of those going to the observation platform (there is no age limit here as at Panmunjom). There is a parking fee along with the entrance fee. Admission: Adults W3,000, Children (18 & Under) W1,500. Parking: Vehicles up to 9 seats W3,000, Over 10 seats W4,000. Buses W3,000.

About 4 km down the road from the Unification and Security Park toward the observation platform is a military checkpoint. Show your paperwork and obtain another pass which you put on the dashboard. To the left of the parking lot is the 6.25 Museum dedicated to the Korean War and the inevitable gift shop at the end of the museum tour. Wear sturdy shoes as there is a climb up to the observation platform, which is 700 meters above sea level; at the halfway point you will pass the LAST RESTROOM!!

The Observatory was opened in February 1984, and the North Korea Hall opened June 1988. It provides a wonderful view of the 4 km wide DMZ, North Korea and Mt. Geum-gang, the mountain range that looks like the two humps on a camel’s back. There is also a view of an island in South Korea. Between the Observation Platform and the Unification and Security Park is the DMZ Museum. This is a fairly new addition which opened in August 2009. Although the observatory, park, and museum are on many people’s must see list, the information at these sights are not always written in English so it may be helpful to find a Korean friend to accompany you for this sightseeing adventure. For more information, visit http://www.tongiltour.co.kr/english/main/main.html, http://www.tourdmz.com/english/02dmz/p2-2_01.php, or call the Tong-il Security Park at 033-682-0088.

Directions: Take National Road 46, to National Road 6, to National Road 44. This road will take you through Seoraksan to National Road 7 which runs along the East Coast.

Hours: Open year round, 9:00 am to 3:50 pm (closing hours vary based upon season).
GANGHWADO: Also known as Ganghwa Island, this 5th largest island in Korea is located approximately 50km to the west of Seoul, and less than 1 km off the coast of Incheon, in the West Sea and is rich in both history and natural beauty. Visitors can easily find Ganghwa local products such as Hwamunseok (a mat woven with flower patterns), rice and ginseng at the town markets. Famous for its ‘stamina producing’ ginseng, Ganghwa is still a rural island that seems oddly distant from the bustle and craziness of Seoul, despite the fact that it is less than a two-hour bus ride away. Egrets stalk through verdant rice fields, gulls chase ferries and the pace of life is slow. Attractions include numerous small fortifications; the Ganghwa dolmens, which are one of Korea’s largest dolmens and a UNESCO World Heritage Site; Mt. Manisa, which is the site of the Chamseongdan Alter; and a 10km coastal bicycle track. http://english.ganghwa.incheon.kr/

INcheon: This bustling industrial port 36km west of Seoul is big enough to warrant its own subway line. The international airport sits on an offshore island, so be sure (if you’re heading to the airport) that you don’t go to Incheon proper. The city has a nice waterfront area with amusement rides, sushi shops, stores and ferries, as well as a very accessible Chinatown. Come here for a great day trip out of Seoul, sample some different foods, stroll along with the dating couples or tour groups in Wolmido waterfront or use Incheon as a stepping stone to the more remote islands.

The Memorial Hall for Incheon Landing Operation, a park commemorating the sight of MacArthur’s famous landing in 1950, is located in this busy port city. The hall was created by the Incheon citizens to honor those who sacrificed their lives to preserve democracy and freedom on the Peninsula. There is also a small museum that houses the city’s collection of archeological and historical materials.

Take the train or travel during off hours or the normally one-hour trip can take two more hours. Plus don’t forget that the location on the sea makes this a great place to pick up an amazing seafood meal.

POCHEON HERB ISLAND & SINBUK HOT SPRING: These two travel destinations near Camp Casey are eco-friendly tours enhanced by the aroma of herbs. Both sites are within a 10 minute bus trip from each other, making a combined trip convenient and worthwhile.

The Pocheon Herb Island houses both outdoor and indoor gardens with over 180 different herbs, a bookstore that carries herb-related books and accessories, a craft store selling herb craftworks, a bakery selling herb bread and cookies as well as a restaurant and coffee shop all within an area of 8.3 acres. There is also an aromatherapy facility, making it a great place for a relaxing one-night, two-day trip. http://english.visitkorea.or.kr/enu/SI/SI_EN_3_1_1_1.jsp?cid=1051901

The Sinbuk Hot Spring Resort is fed by springs from 600m below the earth and the naturally occurring sodium bicarbonate help create a soft and smooth texture and is said to have anti-aging as well as general skin care benefits. Alongside the hot spring baths and other water attractions, the saunas and walking trails attract a diverse variety of people who can enjoy the beautiful streams and dense forest that this resort has to offer. http://english.visitkorea.or.kr/enu/SI/SI_EN_3_1_1_1.jsp?cid=1895711

SEORAKSAN NATIONAL PARK: There are various places to hike in Korea, but one of the most renowned is Seoraksan National Park. Seoraksan means “Snow Big Mountain.” This mountain is always busy, particularly during the peak season during the fall when the leaves change. By 6:00 am the park is packed with thousands of Koreans ready for a day’s hike. There are restaurants, temples, and statues, including a big Buddha statue.

The park is crowded and if you are looking for peace and quiet you will not find it here. It cannot be denied, however, that Seoraksan is one of South Korea’s ‘Wonders’ because of the breathtaking scenery. Stretching over four cities and counties, the peaks and valleys, home to more 2,000 animal species and 1,400 rare plant species, have various streams that meet up in the Baekdamsa Temple valley, which is also the location of the Baekdamsa Temple. Seoraksan has been recognized since 1982 as a Biosphere Preservation District by UNESCO. There are no entrance fees and camping site fees are less than 2,000 won per person. The USO has some hiking tours available during the fall hiking season. Check their calendar for upcoming events and overnight tours to Seoraksan. For more information on the park, check out http://english.knps.or.kr/Knp/Seoraksan/Intro/Introduction.aspx.

ICHEON/YEOJU CERAMIC KILNS: Icheon Village of Ceramics should definitely be on the list of destinations for those interested in pottery. It is famous for its Celadon manufacturing and there are numerous ceramic studios, ceramic shops and even a ceramic museum. Various experiences related to ceramics can be enjoyed at the Icheon Ceramics Festival held from the end of September to early October. There are also unusual ceramic sculptures on display that attract many visitors. Icheon Ceramics Festival provides a place for learning and experiencing the culture of ceramics through international exhibitions. The World Ceramic Exposition Foundation has a wonderful web-
site that gives information on various museums including the Icheon Ceramic Festival. For more information, visit http://www.kocef.org/eng/.

The Yeoju Ceramic Art Complex is an area of about 600 ceramic shops east of Icheon and is also home to many pottery factories. There are excellent shops where you can find perfect pieces that will be amazing artistic additions to your home as well as defected pieces which, although you would never be able to find the inconsistency in the ceramic or the pattern, are sold at a small fraction of the cost of other pieces. Additionally, in Yeoju, you can find many cultural relics including the Silleuksa Temple Resort, the royal tomb of Yeong-neung, and the ruins of Godalsa Temple. The USO as well as the American Forces’ Spouses’ Club offer tours throughout the year.

INDEPENDENCE HALL OF KOREA: Located just south of Osan, the Independent Hall of Korea commemorates the people who struggled for freedom against foreign invasions throughout Korea’s long history. There are seven large exhibit halls, all of which are easy to navigate and feature many descriptions in English. http://www.i815.or.kr/html/en/

Directions: If driving, it’s an easy afternoon trip located off the Kyongbu Expressway. Otherwise, from Cheonan Intercity Bus Terminal, take an intercity bus bound for Jinchon. Get off at The Independence Hall of Korea.

Admission: Free.

Hours: Mar-Oct 9:30 am to 6 pm, Nov-Feb 9:30 am to 5 pm. Closed Monday.

GYEONGJU: Known as “the museum without walls,” Gyeongju was once the capital of the Shilla Dynasty and it remained so for nearly 1000 years. In the 7th century under King Munmu, Shilla conquered the neighboring kingdoms of Goguryeo, Baekje and Gyeongju becoming the capital of the whole peninsula. Gyeongju holds more tombs, temples, rock carvings, pagodas, Buddhist statues, palace ruins, pleasure gardens and castles than any other place in South Korea. Tumuli Park is the most conspicuous and accessible of the sights and even if entering the Heavenly Horse Tomb isn’t your cup of tea, a picnic and stroll by the pond would be a beautiful way to end the day. One cannot truly know Gyeongju’s charms without visiting its outlying districts. Gyeongju covers a vast 1323 sq km and would require several days to take it all in. There is also a great amusement park here called Gyeongju World. http://www.gyeongju.go.kr/english

KOREAN FOLK VILLAGE: This beautiful folk village has a large collection of thatched and tiled traditional houses that take at least half a day to look around. Set around a quiet river are a temple, a market, a magistrate’s house with examples of punishments, storehouses, a bullock pulling a cart and all sorts of household furnishings and tools. In this historical and rural village atmosphere, artisans wearing hanbok (traditional Korean clothing) create pots, make paper, and weave bamboo. Other workers tend to vegetable plots, pigs and chickens. Even most of the confections are handmade; look for the ‘magician’ making dragon’s beard candy – it’s made from honey hand-pulled to widths of a human hair. http://www.koreanfolk.co.kr/folk/english/

Directions: Located about an hour south of Seoul, it is accessible by car or subway. Via subway, at Suwon Station (Line 1, exit 4) take the shuttle bus to Korean Folk Village.

General Admission: Adult W15,000, Youth (ages 13-18) W12,000, Child (ages 4-12) W10,000; Full Admission: Adult W24,000, Youth (ages 13-18) W19,000, Child (ages 4-12) W17,000

Hours: 9 am to 5:30 pm (closing hours vary based upon season). In the warmer months (around March through November), a variety of special performances occur, including traditional musicians, dancers, acrobats and tightrope walkers and a Korean wedding ceremony. These events happen twice daily and usually start around 11:00 am and 2 pm.

SOUTHEAST AND COASTAL LOCATIONS

CHINHAE: Chinhae (also sometimes spelled “Jinhae”) is not only home to the Korean Navy, but is also the only U.S. Navy base in South Korea. Command Fleet Activities Chinhae comprises approximately 84 acres and is adjacent to the largest ROK Navy Base. Chinhae is also home to the ROK Naval Academy. Located on the southern coast, Chinhae is approximately a seven hour drive from Seoul or around four hours by the KTX Train. Try to stay in one of the billeting rooms if you visit, for more information Contact Command Fleet Activities Chinhae at DSN: 723-7251

Chinhae is also quite well known for its Cherry Blossom Festival. The event is held annually and honors of Admiral Ye Sun Shin, a famous Korean naval hero who helped defeat the Japanese during the invasions of 1592-1598, with a military parade. The festival usually begins in late March or early April and runs for 10 days. During the 10 days, a profusion of cherry blossoms is in full bloom on the mountains, along the highways and all around town. It is one of the largest cherry blossom festival in the world, with approximately 2,000,000 visitors annually. During this time, food vendors and stands offering Korean goods line the streets of Chinhae, along with street performers, carnival stalls and street lighting.

Just south of Chinhae lies Korea’s second largest island, Geojedo, and is
just a 90-minute ferry ride away. The island was once a POW camp during the Korean War and has subsequently become home to a thriving fishing and shipbuilding industry, along with first-class beaches and resorts.

HONGDO ISLAND: Hongdo Island is located 115 km southwest of Mokpo Harbor and is composed of about 20 islands. The name Hongdo means “Red Island,” a name derived from the unusual reddish brown color that glows all around when the sun sets over the island. Because the entire island of Hongdo has been declared a Natural Monument, people are not allowed to enter areas other than the villages and designated tourist areas. You cannot remove anything from the island. Visitors that break the rules will be fined. Don’t miss the two-hour boat ride to see the rock formations surrounding the island. Although the tour is in Korean, the views and pictures speak for themselves.

Directions: Take the train to Mokpo which is in southwestern Korea. From there, take the ferry to Hongdo Island. The only accommodations available are “yogwans,” but these are clean and pleasant for a night stay in good weather.

JEJU ISLAND (JEJU-DO): The largest of Korea’s islands, this popular vacation destination has mild weather year round. This volcanic island boasts sandy beaches, hiking trails and several theme parks and a very large, nice aquarium. Natural attractions include the Samsoonhyol Caves, Hallasan National Park, several waterfalls and the volcanic scenery of Seongsan Ilchulbong Park (also known as “Sunrise Peak”). Other things to do on the island include golf, horseback riding, windsurfing, museums (check out the Trick Art Museum, the Seogwipo Citrus Museum or many others), local restaurants (many of which feature “Jeju black pork” and fresh seafood caught nearby), nightlife, and shopping districts. Of course, don’t forget to pick up a few Hallabong oranges for snacking — Jeju Island is known for this large, deliciously sweet citrus fruit that is a cross between an orange and a tangerine. The flights to Jeju Island occur frequently and are quite short, making this island ideal for a quick getaway. View http://english.jeju.go.kr for more information and see a travel agent or the USO for booking assistance.

Ullimsanbang House: This beautiful traditional Korean house is located at the base of Mt. Cheomchalsan and close to Ssangyesa Temple and features a vast area of landscape with flowers and trees. This house was once where the famous artist Heo Yu called home and is currently listed as local monument #51.

Admission: Adults W2,000; Youth (ages 13-18); W1,000; and Children (ages 7-12) W800

Hours: Tuesday to Sunday 9:00 am-6:00 pm, closed Mondays.

This is by no means a comprehensive list of things to do on Jeju-do but it does offer some starting points. For additional information, consult the Yongsan Library or consider traveling with an organized group. One of the primary sources for travel information within Korea is the USO, which offers a wide variety of trips in Seoul and throughout the country. Schedules are available from the Moyer Community Activities Center and Camp Kim USO.

TRAVEL OUTSIDE OF KOREA

After the cultural experiences and sites to enjoy in Korea, the biggest adventure everyone should take advantage of is travel to other countries. Here are a few tips to make the most of your travel.

1. English as an official language. Traveling to countries where English is prevalent allowed you to travel on your own with ease. From booking arrangements to exploring, countries where English is spoken are easier for your first travel experiences because you don’t have to have a tour guide or travel agent if you don’t want, allowing you to save money and spend your time doing the things you want for as long as you want.

2. Carry local currency and monitor your bank account. Many countries impose fees upon arrival that must be paid in local currencies. Additionally, transportation from the airport to your hotel, if not prepaid, will have to be paid. Not everywhere accepts credit cards so keeping local currency is helpful. ATM machines will allow you to pull money from your U.S. bank account.

3. Travel to more than one country per trip. This can improve the adventure while minimizing costs.

4. Roll with it! Whatever happens, remember to laugh and add it to the list of memories that you made with your family!

GENERAL TRAVEL TIPS

Check that the area is not restricted by USFK due to terrorism, disease, etc. Below are some websites and general information to help you with your travel plans:

- Centers for Disease Control and Prevention (CDC) Advisory, www.cdc.gov
- United States State Department Public Announcement, http://travel.state.gov/content/travel/english.html
- Check with your travel agent on the visa/passport requirements for the country you are visiting; they vary from country to country. Leave ample time for processing these documents.
- Always know the immunization requirements of the country/countries you’re going to visit.
- Plan ahead. Dealing with travel agents or airlines in Korea is somewhat different than the experiences you may have had elsewhere, so you need to have plenty of time to make sure all details are in order and to ensure that you are getting the best deal possible.

- Research, research, research. Once you have selected a destination, find out everything you can about which airlines are available, hotel promotions, and travel agents. You will find you can save hundreds of dollars by shopping around.
- Talk with those who have traveled during their tours in Korea. Their experiences can often save you a lot of time, trouble, and money.
- Don’t allow your travel agent/group tour promoter to wait until the last minute to provide you with your tickets, accommodations confirmation, etc. It’s not easy to get your military leave orders changed if a travel agent lets you down at the last minute.
- Check with the airline yourself to view current fares and always ask about discount rates. Check with the international reservations center of the local hotels that give military discounts (Hilton, Hyatt, Sheraton, Ramada, and Intercontinental). You will often find that you can put your own package together for less than what some of the tour operators quote.
- If it’s offered, always buy baggage insurance when traveling in Asia. If your luggage does get lost, you can buy enough personal items to hold you over until it finally shows up. Never check valuables in your luggage; always hand carry them.
- Learn as much as possible about your intended destination and don’t pay for a lot of “optional” tours to places you don’t really want to see. Be aware of the fact that most of the airports in Asia have an airport tax, some of which have to be paid in the local currency. Always know what this is and put money aside to pay it.
- Study the international currency rates published in the local papers before going on your trip so that you will know what amount of local currency you can expect for your dollars/won. Try not to change too much money in airports or hotels because they typically have the worst rates around.
- If you’re going on your own without the assistance of an English-speaking tour guide, definitely consider buying an English-Whatever-language-you-need dictionary or downloading one to your phone. Even if you can’t speak the language, being able to point at the appropriate words often helps.
- Particularly in light of the current world situation, try to blend into a crowd and not be offensive in your manner or dress. Many Westerners unintentionally offend people of Asian cultures by wearing “improper” clothing into temples and shrines. Know in advance what the customs are and dress
have liver disease or compromised immune systems.

- Drink only bottled or boiled water, or carbonated drinks in cans or bottles. Avoid tap water, fountain drinks, and ice cubes. Check to make sure that bottles for water are not being reused. Bottle caps should be new and unopened.
- Motor vehicle crashes are a leading cause of injury to travelers, so walk and drive defensively. Avoid travel at night if possible and always use seat belts.
- Protect yourself from insects by remaining in well-screened areas, using repellents (applied sparingly at four-hour intervals), and wearing long-sleeved shirts and long pants.
- Monkeys, dogs, cats, chicken, and ducks can be a source of serious diseases such as rabies, plague, and bird flu, so avoid contact with animals whenever possible.
- To prevent fungal and parasitic infections, keep feet clean and dry. Never go barefoot.

**Recommended Supplies and Equipment**

Make sure you pack:
- A long-sleeved shirt and long pants to wear outside, whenever possible, to help prevent sunburn and illnesses carried by insects.
- Insect repellent containing DEET (diethylmethyltoluamide), in 22% to 35% strength for adults and 6% to 10% for children, as well as a bed net impregnated with the insecticide permethrin. (Bed nets can be purchased in camping or military supply stores.)
- Over-the-counter anti-diarrhea medicine to take if necessary, and iodine tablets and portable water filters to purify water if bottled water is not available.
- Prescription medications: make sure you have enough to last during your trip, as well as a copy of the prescription(s).

**EMERGENCY OR URGENT HEALTH CAR WHILE TRAVELING**

TRICARE has contracted and partnered with International SOS (ISOS), a worldwide company, to establish a network of quality healthcare providers and hospitals throughout the Western Pacific to assist with urgent and emergency medical and dental care for Active Duty Service Members (ADSMs). By using the ISOS network, ADSMs will not incur out-of-pocket expenses and there will be no claims to file. It is a cashless and claimless service. This service is available to ADSMs who are TDY, deployed or simply on leave in Pacific areas where a United States Military Treatment Facility is unavailable.

Active Duty family members enrolled in TRICARE Prime may use ISOS for accordingly. You will find that people are much nicer to you when you respect their culture and make an attempt, however small, to learn a few words of their language.

- Remember that many things are different in Asia (voltage for appliances, driving on a different side of the road, etc.) and you need to prepare yourself and your children for these differences. The last thing you want is for your children to be offensive by telling people, even the waiter, that things are weird or gross. Living in Korea and having many of the conveniences of home can lull you into a false sense of security.
- Travel light because you undoubtedly will find many treasures to purchase during your journey. Many veteran travelers travel with an empty lightweight bag folded into their luggage just so they’ll be able to get their purchases home safely.
- Know the customs laws of each country you plan to travel in and the Korean laws as well. You can check with the embassy of your destination for current information on their laws and with the Customs Office on Yongsan for the Korean rules.
- If you are flying Space A, always be prepared to pay for a commercial ticket back to Korea if the Space A flights suddenly are not available. Also, be prepared to pay for lodging if you are forced to stay in an area longer than anticipated. Refer to Transportation within the alphabetized section of this book for more information about Space A travel.

**TRAVEL MEDICINE CLINIC**

The clinic staff provides a personal medical consultation to ensure an enjoyable and safe vacation for you. Call 737-1750 to schedule an appointment. Please bring shot records for each person traveling. It is best to schedule appointments 4-6 weeks before traveling to allow adequate time for any necessary vaccinations to take effect. The Travel Medicine Clinic is located in building 5447 (also the Occupational Health Clinic), near Gate 6 (Commissary Gate).

**Healthy Travel Tips**

No matter where your travels may take you, be sure to observe the following:
- Wash your hands often with soap and water.
- Eat only thoroughly cooked food or fruits and vegetables you have peeled yourself. Remember: boil it, cook it, peel it, or forget it. Don’t eat food purchased from street vendors.
- Never eat undercooked ground beef and poultry, raw eggs, or unpasteurized dairy products. Raw shellfish is particularly dangerous to persons who
Emergency medical care only. ISOS can assist you in obtaining urgent medical or dental care, but you will be required to pay for the services up-front and file a claim through the region in which you’re enrolled for reimbursement.

TRICARE Standard Active Duty family members as well as retirees and their family members are not eligible for this emergency travel benefit.

To utilize these services in an emergency, members should call their nearest ISOS assistance center. It’s a good idea to visit the Tricare/ISOS website at http://www.tricare-overseas.com/ContactUs/default.htm online before you travel and record the phone number for the ISOS assistance center in the country in which you’ll be traveling. Collect calls are accepted. Note that when calling collect, it may be necessary to request an international operator.

For civilians and family members not eligible for ISOS, it is a good idea to purchase international or travel medical insurance before going abroad. If you already have international insurance, check with your current insurance provider before you travel to confirm coverage and procedures in case of emergency.

INDIA

Stretching across the vast country of India is a culture unlike any other. Comprised of many languages, religions, traditions and beliefs, India is rich in diversity. These differences are also reflected in the country’s grand architecture. From the Taj Mahal and the Mahabodhi Temple to the Mysore Palace, the ancient Ajanta Caves and every historical monument and shrine in between, India exudes an air of artistic creativity and mystery. Simple beauty exists in the bamboo forests of Kanha National Park; a glimpse of a tiger while on safari; renowned tea gardens boasting Darjeeling, Assam and other teas; and the silhouettes of men atop camels crossing a desert landscape in the moonlight. Vibrant colors abound in the garments worn by locals and the cooking spices mounded in bins in the markets. Visitors and locals alike are lured by the lively energy of the crowded bazaars, as your senses are indulged with sights, sounds, and scents that fill the air. This fascinating country is awe-inspiring, though first-time visitors may be surprised in other ways, as well. Yet, regardless of what you experience during your travels around India, your perspective about the world will be forever changed. For more information about India, visit http://www.indembassy.or.kr.

Johor Bahru, located across the Johor Strait from Singapore, is also another rapidly growing tourist location. Legoland Malaysia; Danga Bay, a tourist area with amazing seafood, a petting zoo, and carnival style rides; Hello Kitty Land; and the Arulmigu Sri Rajakaliamman Glass Temple, the nation’s first glass temple are just of the few of the things that this city has to offer in addition to being a bargain lover’s dreams. From shoes and purses to electronics and toys, the shocking difference between prices in Singapore and Malaysia will put this on your souvenir shopping agenda no matter where you are staying. You should consider this as an option if you want to see Singapore as hotels in this hidden treasure are less than half of the cost of hotels in Singapore. Taxis and public transport travel between Johor Bahru and Singapore daily but due to the more than 100,000 Malaysians that use the only bridge into Singapore daily you can save a lot of time by using the public transport system. If you are traveling with small children you are able to go to the front of the bus lines, but even without this advantage the trip takes less than 45 minutes and beats the traffic on the bridge by an hour or more during heavy traffic times.

NEPAL/TIBET

These ancient countries in North-central Asia are still considered to be “exotic” destinations and are visited by few of the personnel stationed in Korea. Those who have gone come back with varying reports. Some cite the primitive living and traveling conditions while others talk about the fascinating cultures. Neither country has an embassy in Seoul, so you will have to do your own research online, at the Yongsan library, or find a good travel agent. Make sure any plans or itineraries are confirmed in writing before departure unless you are an Indiana Jones type of adventurer.

NEW ZEALAND

This wonderfully scenic country is very affordable now that you live in Korea. Make sure your tour incorporates both the North and South Islands since terminal for information. You will find the AMC terminal personnel much more helpful if you call at a time when they are not processing a flight. Ask when you call if this is the case and if so, when could you call back. Also the Osan Passenger Terminal Facebook page offers an abundance of information including flight schedules and updates.

The climate of Okinawa is subtropical and an interesting change from Seoul. Shopping for local crafts and fine china is excellent. Be aware that Japanese taxis are expensive. Use base transportation whenever possible to get close to your destination and then shop or sight-see until you have too many packages to carry around.

The most logical and inexpensive place to stay is Kadena Airbase, which has 24-hour billeting. Call DSN 632-1100/Internationally 011-81-98-962-1000 to reach the reservation desk. Another option is Camp Foster Westpac Lodge can be reached at DSN 645-2455/Internationally 011-81-6117-45-2455. For some family fun time try the Torii Beach Cabins at DSN 644-4659/Internationally 011-81-611-744-4659. A secret of Okinawa is Okuma Resort located 50 miles North of Kadena Airbase. The DSN number for Okuma is 632-3102/ Internationally 011-82-98-962-3102 between 8:00 am-5:00 pm. There is also occasionally Navy BOQ space available; you can check with the Navy Billeting office in Building 4198 before 4 pm.

MACAU

This tiny country on the tip of China is often a destination for tourists while they are in Hong Kong. Macau is easily accessible from Hong Kong by ferry or hydrofoil. The Portuguese heritage of Macau gives it its own special flavor. Go to Macau, if for nothing else, to eat the uniquely flavored food and drink the good, inexpensive wines.

Gambling is also a big attraction here and huge casinos line the shore. Some of these casinos boast fabulous restaurants. Excellent, inexpensive places to eat are also easily found. For additional information, visit the Macau Government Tourist Office website: http://en.macautourism.gov.mo/index.php.

MALAYSIA

Malaysian Airlines, working in conjunction with the country’s massive “Visit Malaysia” campaign, have made this country an inexpensive and marvelous place to visit. The Malaysians are a truly friendly people, anxious to please and eager to visit with foreigners. English is the dominant language here making it generally easy to communicate with everyone from the cab drivers to the
they are both “must see” destinations. The North Island offers world-class dining in Auckland, hot water beaches along the Pacific Coast Highway, and mud pools and geysers in Rotorua just to name a few. The South Island’s charm is endless, but some “must-do’s” worth mentioning includes six of New Zealand’s eight “Great Walks”; Stewart Island, one of the best spots to see the rare Kiwi Bird; and overnight cruises to take in the scenery or spot fur seals and bottlenose dolphins. Check out http://www.newzealand.com/int/ then call your travel agent to arrange for the things you are most interested to be included in your tour package the New Zealand Embassy Tourism section at 02-3210-1107~8 for more information.

SINGAPORE

This small island country off the southern tip of the Malay Peninsula is rapidly developing a reputation as the shopping destination in Asia. In addition to extensive duty-free shopping, there are also some interesting things to see and do. These include:

• The Singapore Zoo, possibly one of the finest zoos in the world, was developed on an “open” concept. The zoo has built a series of “natural” barriers so you see the animals much as you would if they were in the wild. They also offer other attractions such as “Breakfast with the Orangutans,” which includes photo opportunities while you hold a bald python; special shows including “Splash Safari” and “Elephants at Work & Play”; and if you are really looking to get up close and personal you can’t miss out on the elephant ride or the opportunity hand feed elephants, giraffes, white rhinoceros, kangaroos and more. If you are traveling with children or are an animal lover, the zoo is “the” attraction in Singapore. Adjacent to the zoo is the Night Safari and River Safari. Ride a tram or walk through a park to view nocturnal animals and enjoy exclusive experiences available at the Night Safari including dining opportunities or check out Asia’s first and only river-themed wildlife park and enjoy the Amazon River Quest boat ride. A multi-pass ticket will also include Jurong Bird Park, which has some of the largest free-flying aviaries in the world. The Waterfall Aviary alone houses over 600 birds and this park, Asia’s largest, has more than 5,000 birds across 400 species. These attractions make Singapore an animal lovers dream. Check out http://www.wrs.com.sg/ to start planning this can’t miss adventure.

• Singapore river cruises can be one of the most breathtaking ways to take in the architecture and beauty of this great city. Among the sites that can be seen on the various cruises are Empress Place, an architectural treasure since 1865, and the Merlion, one of the most recognized landmarks has become known as the symbol of Singapore.

• Singapore Botanic Gardens, Singapore’s first UNESCO World Heritage Site Nomination, is truly beautiful place. Filled with thousands of rare tropical plants and a separate orchid garden that is spectacular, it also stands to note that it is the only botanic garden in the world that is open 5 a.m. to midnight every day of the year and does not charge any entrance fees for the main garden. A small fee for the National Orchid Garden is worth it for the flower lover or photographer as these beauties, including 400 species and more than 2,000 hybrids, are truly magnificent.

• Sentosa Island is worth spending the day visiting its many attractions. From a natural history museum and an aquarium to Universal Studios and Skyline Luge Sentosa, this island whose name means “peace and tranquility” has more than just that to offer. Resorts here offer packages that include tickets to some of the most popular of these attractions.

• Royal Caribbean Cruise Lines also offer very affordable cruise options, embarking from Singapore for many travel destinations throughout Asia if you want to use Singapore as your first stop in an adventure of a lifetime.

TAIPEI, TAIWAN

One of the closest destinations from Korea, many people choose to tour Taiwan. Taipei is Taiwan’s largest city and also its capital. Costs have increased dramatically in recent years, but you can still get a fairly good tour package from Seoul. With recent politics concerning Taiwan’s desire to become independent of China and China’s reluctance to let go, you really need to check before booking a trip.

If you are able to go, some of the things to see include the National Palace Museum; Chiang Kai-shek Memorial Hall; Taipei 101, this marvel ranked as the world’s tallest building (from its opening in 2004 until 2010); Wulai, a mountain village famous for the “commercialized” aboriginal village, waterfall, and hot springs; and Taroko Gorge.

Although new department stores are popping up all the time, Taipei’s best shopping areas are still the small stores, bazaars, arcades and curio markets. Popular items from Taiwan are painting reproductions, pottery with its traditional-style design, other ceramic wares, furniture, jewelry made of coral and other semi-precious stones, marble products from the quarries in Hualien, and products made of Taiwan jade. Remember that the quality of this jade does not equal that of genuine antique jade. Also, consider dusty temple carvings,
THAILAND

Thailand is an attractive tourist destination and has long been a favorite vacation destination of Americans. With its 800 year old history, vast cultural attractions, exotic beaches, islands, and national parks, Thailand offers something for everyone. Not only are the Thai people very friendly and hospitable, but the country also offers an abundance of amenities from excellent food to inexpensive quality accommodations, making it an ideal vacation spot for military families.

Great family package tours are offered by the many travel services available on/off post. Booking in advance is very easy and reasonably priced. Many great deals can be found on the internet as well as with the travel companies in and around Seoul, check out various options and do some research if you plan to go it alone.

Major tourism destinations in Thailand include:

**Bangkok:** There is nothing quite like Bangkok! New buildings reach for the sky around the corner from ancient temples, many of which are home to enormous images of Buddha inlaid with gold and mother of pearl. Everything about the city seems exotic, especially the food. Points of interest include:
- Floating Markets that demonstrate the art of buying and selling, as well as cooking and eating in small paddle boats on the canal.
- Mae Sa Elephant Camp, located near the Floating Markets in Bangkok is a definite must for kids of all ages. This unique opportunity to watch elephants paint, take an elephant ride, and sometimes help with the elephant bath is something that shouldn’t be missed.
- The Grand Palace and Wat Po (the temple of the reclining Buddha with inlaid mother of pearl soles) are a stone’s throw from one another. Along with beautiful architecture, they house some of the most revered and richly decorated images of Buddha.
- The National Museum, on the grounds of the former Wang Na Palace, has the largest collection of Thai art, artifacts, and buildings tracing Thai History from 5600 B.C. to present day.
- Thieves Market, as Nakhon Kasem is affectionately called, is a unique place to buy almost any type of exotic plant.
- Chatuchak Weekend Market, the world’s largest weekend market, is a 30 acre outdoor market offering anything imaginable.

**Pattaya:** This beach resort about 150 km outside of Bangkok and is one of the most popular in the country, offering all the amenities you might desire – from first rate affordable lodging and restaurants to an assortment of water sports.

**Chiang Mai:** is a very popular destination for families with children. While Bangkok is a busy metropolis with about 80 million people, Chiang Mai is just the opposite. Its reasonable cost and abundance of activities geared to the family makes for a very relaxed and enjoyable vacation. The Chiang Mai cultural center has evening dinner shows geared to family entertainment. A khon and dance show is performed most nights with audience participation expected. If you don’t have kids check out the massage retreats in Chiang Mai where you can spend your vacation relaxing and learning the art of Thai massage and getting massaged by your fellow students.

**Phuket:** Being Thailand’s largest island, Phuket is famous for its beaches. There are many beaches to choose from on the island, but some are better than others so do some research beforehand. Patong seems to be the most famous, but other popular beaches include Karon and Kata. There are many watersport activities, and if you’d like some other water wonders check out two of the beautiful waterfalls this island offers, Ton Sai and Bang Pai.

**Korat:** if it’s the Khmer culture you are after, then head about 260 km north of Bangkok to Korat where you will find several stunning examples of 12th century architecture. Plan to visit nearby Phimai, an amazing Khmer complex constructed on a man-made river islet. It is breathtaking in its beauty and from a distance, oddly futuristic to the eye. Its sanctuary tower is home to stunning Khmer artistry.

The best buys in Thailand historically have been silk, rubies, and star sapphires. For more information visit www.tourismthailand.org. Another great website is www.nancychandler.net which contains “Nancy Chandler’s map of Bangkok,” which is most helpful.

VIETNAM

Travel services on-post and at the USO offer trips to cities throughout Vietnam. There are many places to see from Hanoi in the north to Saigon in the south.

**Hanoi:** A flight from Incheon Airport to the northernmost city of Hanoi is only about a four-hour trip and certainly worth taking. Hanoi is sure to be a hit with all members of your family, excavations at Hanoi Citadel, floating villages, military history museums, art museums, temples, pagodas, markets, and a myriad of other tourist venues are scattered in and around this historical city. Some places of interest in and around the city of Hanoi are:

**OSAN AIR BASE**

This Air Force Base is approximately 35 miles south of Seoul. The base is located adjacent to Songtan, not the town of Osan. The average travel time from Yongsan is about an hour one way depending on traffic conditions (on certain days, 3 hours is not unheard of). An alternative to driving is the bus out of Moyer CAC. Return tickets sell out quickly, so be prepared to catch a later bus if necessary. Maps, routes and schedules are available in Moyer Community Activities Center. A trip to Osan AB can be a wonderful day out. Shopping in the surrounding local community, Song-tan, can be cheaper for certain items such as sports apparel, purses and tailored suits. There are several restaurants scattered throughout the Air Base, including Chili’s, Burger King and Captain D’s. Osan has a Base Exchange (BX) that carries a wide selection of merchandise which is sometimes different from Yongsan. The Commissary at Osan also carries some different products from those sold in Yongsan. There are many places to shop and eat on the base and local economy. AAFES taxi stands are conveniently located at all the popular restaurants and gates.

**Directions**

Subway: Take Line 1 (Purple) south in the Cheonan direction, get off at the Songtan station (P161), which is a few blocks from the main gate or about a ₩3,000 taxi ride. Note: Make sure the subway train you board goes as far as Songtan Station! Some trains stop in the service yards where the cleaning crew board and start to work and the drivers change shifts, before the train heads back the way you came.

Health City Incheon, Medical Tourism Hub

Incheon is taking a more active role in the world as a key city in Northeast Asia. Incheon, a gateway to the Korean peninsula with a central airport, is making great strides as a nexus for global medical tourism, industrial information complexes, and tourist facilities and resort complexes, opening the global era in the transportation, logistics, and bio-industry fields based on infrastructure such as Incheon Port, Incheon International Airport, and Incheon Bridge.

*This photo shows Songdo Central Park, Incheon. Visitors stroll across footbridges, enjoying sculptures and art. A water taxi provides a leisurely cruise down the seawater canal that flows through the park.*
Why Incheon for Medical Tour?

- Incheon, the third largest city in Korea, has played the role of the official gateway to Korea and the hub for northeastern Asia as the host city of internationally acclaimed Incheon International Airport and Port of Incheon. Songdo(Incheon) is designed as the first Free Economic Zone of Korea by the government. The recent decision of UN’S Green Climate Fund(GCF) selecting Songdo as its host city once again provided the opportunity for incheon to grow further.

- **Excellent accessibility** - near Incheon International Airport - useful transportation makes it possible to travel to all the major cities of Korea conveniently

- **Premium Medical Service** - JCI accredited hospital
  - **Highly Accomplished Doctors**
    In Korea, the standard of medical excellence is so stringent that only the top 0.5% of medical students can pass the rigorous exams and go on to become practicing professionals. When you come to Korea for your medical needs, you can be assured that you are in the most capable of hands.
  - **Surprisingly Affordable Prices**
    The cost of medical services in Korea is very low compared to those in the USA and Japan. For example, hemorrhoid surgery in the USA costs approximately 10.91 million won while for a fraction of the cost (roughly 1.27 million won) you can get the same.

**ABOUT INCHEON LANDING OPERATION**

On September 15, 1950, during the Korean, U.S. Marines force made a surprise amphibious landing at the strategic port of Incheon, on the west coast of Korea. The location had been criticized as too risky, but United Nations (U.N.) Supreme Commander Douglas MacArthur insisted on carrying out the bold landing. Afterward, the American-led U.N. force was able to break North Korean supply lines and push inland to recapture Seoul. The landing at Inchon changed the course of the war.

In the era of 100,000 doctors in Korea, Incheon is doing its best to build a systematic infrastructure for treating foreign patients. It has developed medical tour packages that combine specialized medical service for cancer using world class technologies in various medical fields with cultural performances based on the Korean wave.
