#### **2-1. Authority**

Per Memorandum, HQ, USFK, Office of the Civilian Personnel Director, CPJ, 19 Nov 82, subject: Change to Payment Procedure and Payroll Deduction Services for Group Insurance Retirement Savings Installments, all KN employees are required to have their net pay deposited to their bank accounts via Electronic Fund Transfer (EFT).

KN employees will complete USFK Form 98EK-E (Statement of Bank Designation and Checking Account) to have their net pay sent to the designated financial organizations of their choice. KN employees will attach copies of their bank books to original USFK Form 98EK-E to reflect their bank account numbers.

a. CPOs will instruct all newly-hired KN employees to complete USFK Form 98EK-E during employees' in-processing, and forward the completed forms (including copies of employees' bank books) to the servicing payroll offices.

b. When KN employees change their banks and/or bank account numbers, the employees must complete new USFK Form 98EK-E, and submit the forms along with copies of their bank books to the servicing payroll offices. The employees should not close their old bank accounts until they confirm that payroll payments have been credited to their new accounts.

### **2-3. Operating Instructions**

The instructions below are established for EFT payments to KN employees serviced by the AFAS-K KN Payroll Office. All other KN payroll offices will establish their own operating procedures relative to EFT payments for KN pay.

If rejected transmissions contain bank account number(s) or other information that is different from the supporting documents, promptly correct and retransmit to the Shin Han Bank via facsimile or other means. If rejected entries contain the same information as the supporting documents, contact affected employee(s) for correct information and retransmit to the Shin Han Bank for payroll processing.

(6) Update the KNPS Master database with correct information as needed to prevent future rejects.

(7) Coordinate with the responsible disbursing office when rejected data cannot be corrected on or before the employee's next payment due date (payday). In such a case, (i) the AFAS-K KN Payroll Office will submit a request for refund to the on-post Department of Defense (DOD) Community Bank, and prepare the required documents (i.e., DD Form 1131, Cash Collection Voucher; and SF 1049, Public Voucher for Refund), and (ii) the DOD Community Bank will issue a Credit Memo to support the accountability of the applicable DOD activity's bank balance.

(8) Treat payroll data as new input if the rejected payroll data is recredited.

(9) Notify the affected employee(s) with expected retransmission date when rejected items cannot be retransmitted immediately.

b. The disbursing office responsible for making payroll payments for KN employees serviced by the AFAS-K KN Payroll Office will:

(2) Provide the Transmittal Sheet to the DOD Community Bank upon transmission of payroll information to the Shin Han Bank; and immediately thereafter, inform the DOD Community Bank telephonically of the date and time of the transmission.

(3) Receive the confirmed transmittal sheet from the DOD Community Bank. The bank will

normally fax the confirmed transmittal sheet NLT 1600 hours on the day before the payment due date.

(4) Receive a Debit Memo for total deposits. This debit memo will be used as the supporting document for accounting and accountability of each applicable activity's bank balance.

(5) Receive by website all payment reject information from the Shin Han Bank. Payment reject information will normally be posted to that website between 1100 and 1400 hours on the payment due date.

a. If the number or amount of income deductions, or the amount of tax credits claimed by a KN employee is in excess of that entitled, the employee will be subject to penalties for perjury by the ROK Government.

b. Failure of a KN employee to submit the current Tax Form 37 with the required supporting documents will result in taxes being withheld with only a basic deduction for a single person. However, if the payroll office has another valid Tax Form 37 with supporting documents filed for the employee, the amount of the tax withholding will be based on the most recent records the employee provided in same tax year to the servicing payroll office.

c. The servicing payroll office will maintain a file of Tax Forms 37 including the required supporting documents.

### **3-6. Earned Income Deductions**

For a resident having any earned income, the amount as prescribed in Article 47 of the ROK Income Tax Act shall be deducted from the employee's gross pay earned during the corresponding year.

### **3-7. Global Income Deductions**

For each KN employee, the servicing payroll office will deduct from the employee's taxable income any of the following global income deductions as applicable, in the priority order listed below. The applicable deductions will be determined based on the information on the most recent Tax Form 37 and the supporting documents submitted by each KN employee.

a. Basic Deduction. For a resident (limited to a natural person) having any global income, the basic deduction is calculated by multiplying the number of family members that fall under any of the subparagraphs outlined in Article 50 of the ROK Income Tax Act by the stipulated annual amount per capita. The resulting amount will be deducted from the resident's global income for the corresponding year.

b. Additional Deduction Associated with Basic Deduction. If a person subject to a basic deduction as prescribed in Article 50 of the ROK Income Tax Act also meets the criteria outlined in any of the subparagraphs in Article 51 of the ROK Income Tax Act, the amount(s) stipulated in the applicable subparagraph(s) will also be deducted from the resident's global income for the corresponding year.

c. Pension Insurance Premium Deduction. During a tax year, if a resident with any global income has paid a pension insurance premium that falls under Article 51 (3) of the ROK Income Tax Act that pension insurance premium shall be fully deducted from the resident's global income for the corresponding year.

d. Special Deduction. The items prescribed in Article 52 of the ROK Income Tax Act that are paid by a resident having any earned income (excluding income earned as a daily-paid worker) during a tax year, shall be deducted from the resident's earned income for the corresponding year.

e. Other Deductions. The following items prescribed by the applicable indicated tax acts that are paid by a resident having any earned income (excluding income earned as a daily-paid worker) during a tax year shall be deducted from the resident's earned income for the corresponding year.

a. Earned Income Tax Credit. For a resident having any earned income, the amounts prescribed in Article 59 of the ROK Income Tax Act shall generally be deducted from the calculated global income tax amount on the earned income. **Exception:** In cases where the deducted tax exceeds the amount stipulated in Article 59 of the ROK Income Tax Act, such excess amount shall be deemed as nonexistent.

f. Tax Credit for Interest on Housing Loan Funds in accordance with Supplementary Provision No. 5584, 12 (5) of the ROK Restriction of Special Taxation Act.

### **3-11. Income Tax Rates**

The servicing payroll office will compute each serviced KN employee's income tax amount by applying the income tax rates prescribed in Article 55 of the ROK Income Tax Act.

a. Annual tax base, offset amounts, and tax rates. Periodically, the ROK National Tax Service (NTS) issues revised information on each applicable range of annual income and the related annual offset amounts and income tax rates. The annual tax base for each KN employee is equal to the employee's actual annual taxable earnings. For each employee, the applicable annual tax base, offset amount, and tax rate will be used when (i) computing income tax on taxable earned income at the close of each tax year for each current employee, (ii) upon an employee's separation during the current tax year, and (iii) when computing income tax on severance pay.

b. Monthly tax base, offset amounts, and tax rates. The monthly tax base and monthly offset

amount for each KN employee are obtained by dividing the employee's annual tax base and the related annual offset amount by 12. Each KN employee's applicable national tax rate will be in accordance with the applicable rates published by the ROK NTS. For each KN employee, the responsible KN payroll office will use the applicable methodologies outlined in paragraphs 3-12 and 3-13 below to compute the employee's applicable national and local income taxes.

c. Four-week tax base, offset amounts, and tax rates. The four-week tax base and four-week offset amount for each KN employee are obtained by dividing the employee's annual tax base and the related annual offset amount by 13. Each KN employee's applicable national tax rate will be in accordance with the applicable rates published by the ROK NTS. For each KN employee, the responsible KN payroll office will use the applicable methodologies outlined in paragraphs 3-12 and 3-13 below to compute the employee's applicable national and local income taxes.

### **3-12. Income Tax Formulas**

Each KN payroll office will use the methodologies described in paragraphs 3-12a through 3-12c in computing income taxes due for each of its serviced employees. Each time a KN employee is paid, the income tax due is computed based on his/her cumulative earnings during the applicable year, the corresponding income tax due and the income taxes already paid by the employee in the applicable year. Note that the taxable income applicable to any given year is based on the income earned in that year, regardless of when the related payments are made. In the computation of taxes, an amount less than W10 will be dropped. No tax will be withheld if the amount of tax due is less than W1,000.

a. Income tax formula for regular pay. Each time regular pay is paid to a KN employee, the responsible KN payroll office will use the following methodology to compute the related income tax to be withheld from the employee's pay.

(1) The regular pay, less total deductions allowed for regular pay, equals the tax base.

(2) The tax base, times the applicable tax rate (determined as outlined in paragraph 3-11 above), minus the offset amount, equals the computed tax amount.

(3) The computed tax amount, less the total tax credits allowed, equals the income tax to be withheld for the just concluded pay period for regular pay.

b. Income tax formula for bonuses. Each time a bonus is paid to a KN employee, the responsible KN payroll office will use the following methodology to compute the related income tax to be withheld from the employee's pay.

(1) The gross bonuses, plus the total regular pay earned during the preceding pay periods, divided by the number of pay periods, equal the average earned income per pay period.

(2) The average earned income per pay period, less the average deductions allowed per pay period, equals the average tax base per pay period.

(3) The average tax base per pay period, times the applicable tax rate (determined as outlined in paragraph 3-11 above), minus the average offset amount per pay period, equals the average computed tax amount per pay period.

(4) The average computed tax amount per pay period, less the average total tax credits allowed per pay period, equals the average income tax due per pay period.

(5) The average income tax due per pay period, times the number of pay periods, equals the adjusted income tax.

(6) The adjusted income tax, less total income taxes withheld during the preceding pay periods, equals the net income tax to be withheld when the pending bonus payment is made.

c. Income tax formula for per diem wages. The earned income deduction for each daily-paid worker will be computed in accordance with Articles 47, 59, 129 and 134 of the ROK Income Tax Act. Specifically, each time per diem wages are paid to a KN employee, the responsible KN payroll office will use the following methodology to compute the related income tax to be withheld from the employee's pay.

(1) The gross per diem wages, less the corresponding daily income deductions, equals the tax base.

(2) The tax base, times the applicable tax rate, equals the net income tax to be withheld when the pending per diem payment is made.

### **3-13. Local Tax Rates**

Each time earned income or retirement income (a.k.a, "severance pay") is paid to a KN employee, the responsible KN payroll office will use the following methodology to compute the related local income tax to be withheld from the employee's pay.

a. Local tax rate. In accordance with Article 103 (13) of the ROK Local Tax Act, the servicing payroll office will compute the local tax amount by multiplying the local tax rates, times the related national income tax withheld.

b. Local tax formula. The national income tax withheld, times the local tax rate, equals the local tax.

### **3-14. National Tax Remittance**

Each month, each servicing KN payroll office will pay the national tax payment by a check for Korean won. Each check will be annotated with the words "For Income Tax" and will be deposited in the account of the servicing area tax office NLT the 10th day of the month following the month in which the income tax was withheld.

a. The check will be remitted to any bank maintaining the account of the servicing area tax office.

### **3-15. Local Tax Remittance**

Each month, each servicing KN payroll office will pay the local tax payment by a check for Korean won. Each check will be annotated with the words "For Local Tax" and will be remitted to the Yongsan Branch Bank of the Woori Bank of Korea, 243-8, 1-ka, Hangang-ro, Yongsan-ku, Seoul, Korea in the account of the Yongsan District office of the Seoul City office NLT the 10th day of the

b. A copy of a summary of local tax withheld (which will include the place of employment, number of taxpayers, tax base, and the amount of local tax withheld for each respective city or county per pay period covering regular pay, bonuses, and severance pay), will be forwarded to the Yongsan District Office, Yongsan-ku, Seoul, Korea. The required format is provided at Appendix B.

### **3-16. Accounting for Withheld Taxes**

b. A separate SF 1049 for income tax and local tax withheld will be prepared for issuance with the check for Korean won to the ROK governmental authorities, if applicable.

### **3-17. Year-End (and “Upon Separation”) Reconciliation of Tax Liability**

Each KN payroll office will ensure they comply with the following requirements.

a. For each employee who remained on the payroll through the last workday of a year, the annual tax amount on the employee’s taxable earned income for that tax year will be recomputed prior to the final payment for that tax year’s earnings. Meanwhile, for each employee that was separated prior to the last workday of a year, the tax amount on the employee’s taxable earned income for that year will be computed prior to the final payment to the employee.

b. Determination factors. The reconciliation will be based on the total amount of taxable earned income at the close of each tax year or upon separation, the employee's withholding allowance certificate, and the claim documents for tax credits submitted by each employee.

c. ROK Tax Form 24 (1), Receipt of Tax Withholding for Earned Income. Three copies of the current ROK Tax Form 24 (1) will be prepared in accordance with the instructions of the ROK National Tax Service (NTS). The completed ROK Tax Form 24 (1) will be distributed as follows.

(1) The first copy will be furnished to each KN employee NLT the date specified each year by the ROK NTS Guidance. For each KN employee separated during the current tax year, the completed ROK Tax Form 24 (1) will be furnished to the employee upon separation or NLT 30 days thereafter.

(2) The second copy will be retained by the servicing payroll office for five (5) years after the related tax year.

(3) The third copy will be submitted to the servicing area NTS office NLT the date specified each year by the ROK NTS Guidance.

d. Net amount of tax due or refund. The net amount of tax due or to be refunded as determined by the subject tax reconciliations will be processed as follows.

(1) Refund to employee. If the total tax withholdings from earlier in the applicable year exceed the total annual tax to be paid by the employee, the excess will be refunded to the employee at a later date as negotiated between the NTS and the applicable payroll office.

(2) Tax due from reconciliation. If the amount of tax withholdings from earlier in the applicable year was less than the annual tax to be paid by the employee, the shortfall will be deducted from the employee's pay after the tax reconciliation is completed.

### **3-18. Reconciliation Formulas**

Related procedures for separated employee are outlined in paragraph 3-18c below. Each year as early as possible for the just concluded year and early enough to meet all related deadlines issued by the NTS, each KN payroll office will perform tax reconciliations to determine either the additional national and local income taxes to be withheld from (or to be refunded to) each serviced employee. This will be done in accordance with the following procedures for each serviced employee.

#### **a. Reconciliation for national income tax.**

(1) The gross taxable income, less the total necessary expense deductions allowed per tax year, equals the adjusted earned income.

(2) The adjusted earned income, less the total income deductions allowed per tax year (but not more than the amount of adjusted earned income), equals the tax base.

(3) The tax base, times the applicable annual tax rate (determined as outlined in paragraph 3-11 above), minus the offset amount (if applicable), equals the computed tax amount.

(4) The computed tax amount, less the total tax credits allowed per tax year, equals the gross annual income tax.

(5) The gross annual income tax, less the total income tax withheld by previous employer (if applicable), equals the annual income tax to be withheld by present employer.

(6) The annual income tax to be withheld by present employer, less the total income tax withheld by the present employer during the preceding pay periods of the applicable year, equals the net national income tax to be withheld or to be refunded at the year-end reconciliation or upon separation.

#### **b. Reconciliation for local income tax.**

(1) The gross annual income tax, times the local tax rate, equals the gross annual local tax.

(2) The gross annual local tax, less the total local tax withheld by previous employer (if applicable), equals the annual local tax to be withheld by present employer.

(3) The annual local tax to be withheld by present employer, less the total local tax withheld by present employer during the preceding pay periods, equals the net local tax to be withheld or to be refunded from year-end reconciliation.

c. Tax reconciliations for employee separations (excluding tax on severance pay). Note that each KN payroll office would also apply procedures similar to those outlined in paragraphs 3-18a and 3-18b above for each KN employee separated prior to the last pay period of a year when that

employee separation would involve the termination of services by the KN payroll office. The procedural differences are summarized below.

(1) The tax reconciliation would be based on the data for the applicable year through the last day of the subject employment (excluding the related severance payment).

(2) The related additional national and local taxes, if any, would be paid to the NTS and the local tax offices respectively NLT the 10th day of the month following the month the taxes were withheld from the employee's pay.

### **3-19. Computation of Tax on Severance Pay**

a. The annual tax rate will be used in computing income tax on each KN employee's severance pay. The following authorized deductions will be applied.

(1) Severance pay special deduction. An amount as prescribed in Article 48 (1) 1 of the ROK Income Tax Act shall first be deducted from the employee's gross severance pay.

(2) Severance pay deduction. This deduction amount will be determined based on the number of the employee's continuous service years. If an employee has less than one continuous service year, it will be rounded up to one year. An amount as prescribed in Article 48 (1) 2 of the ROK Income Tax Act shall be deducted from the employee's gross severance pay.

b. ROK Tax Form 24 (2), Receipt of Tax Withholding for Retirement Income. Three copies of the current ROK Tax Form 24 (1) will be prepared in accordance with the instructions of the ROK NTS. The completed ROK Tax Form 24 (2) will be distributed as follows.

(1) The first copy will be furnished to each KN employee within 30 days after payment or separation.

(2) The second copy will be retained by the servicing payroll office for five (5) years from the end of the related tax year.

(3) The third copy will be submitted to the servicing area tax office NLT the date specified each year by the ROK NTS Guidance.

### **3-20. Taxes on Severance Pay**

If a KN employee received severance pay more than twice during the same tax year, the severance pay deductions will be applied only once to the amount of severance pay earned during that tax year. The following procedures apply when a KN employee's separation would involve the termination of services by a particular KN payroll office. For each applicable severance payment, the servicing KN payroll office will perform a tax reconciliation to determine either the additional national and local income taxes to be withheld from (or to be refunded to) the employee in connection with the severance payment. This will be done in accordance with the following procedures for each applicable severance payment.

a. Income tax formula.

(1) The gross severance pay, less severance pay special deduction, plus severance pay deduction, equals the tax base.

(2) Divide the tax base of retirement income accruing during the corresponding year by the

number of years worked.

(3) Multiply the amount calculated per paragraph 3-20a(2) above by 5. Then, multiply the result by the tax rate prescribed in Article 55 of the ROK Income Tax Act.

(4) Divide the amount calculated per paragraph 3-20a(3) above by 5. Then multiply the result times the number of years worked.

(5) The computed tax amount, less savings tax credit (if applicable), equals the income tax on severance pay.

(6) The income tax on severance pay, less total income tax withheld by previous employer (if applicable), equals the net income tax to be withheld from severance pay.

b. Local tax formula on severance pay.

(1) The income tax, multiplied by local tax rate in accordance with Article 103 (13) of the ROK Local Tax Act, equals the local tax on severance pay.

(2) The local tax, less total local tax withheld by previous employer (if applicable), equals the net local tax to be withheld from severance pay.

### **3-21. Income Tax Table**

The simplified ROK income tax table will be obtained through the ROK NTS by each withholding agent (if required) and used to find the amount of income tax for employees paid on a monthly basis.

#### **9-5. Remittance Record**

The servicing KN payroll office will:

a. Remit the retirement insurance savings installments to the bank account designated by the insurance company NLT 10 workdays after the deduction (i.e., NLT 10 workdays after the employee pay date).

b. Prepare the monthly or annual retirement insurance savings remittance record for each participating KN employee and submit the remittance records to the Hanwha Life Insurance Company at 60, Yoido-dong, Yongdeungpo-ku, Seoul, Korea, Postal Service Code No. (Korean ZIP Code) 150-603. Each monthly or annual remittance record will include the following for the participating employee.

(1) Name of the servicing payroll office and date.

(2) Pay group, payroll number, and account number.

(3) Pay period.

(4) Employee's name.

(5) Policy number.

(6) Individual amount of savings allotment deducted.

(7) Number of deductions.

(8) Separation date, if applicable.

## **Chapter 10 Voluntary Union Dues Allotments**

### **10-1. Authority**

The authority for KN payroll offices to withhold union dues from USFK Korean Employee Union (KEU) members' pay is outlined in 'Article 15 of the Labor Management Agreement between USFK and USFK KEU dated 27 Sep 2011' and 'Article 15 of the Labor Management Agreement between

EUSA and KSC chapter dated 5 June 2007. Each servicing payroll office will have on file a copy of the current labor and management agreement.

## **10-2. Eligibility**

USFK KEU members desiring to have union dues deducted from their pay may at any time, complete and sign the appropriate portions of the union dues allotment authorization form (Request and Authorization for Volunteer Allotment of Compensation Payment of Employee Organization Dues) which can be obtained from the USFK KEU. When a USFK KEU member desires to have his/her union dues deducted from his/her pay:

a. The KEU member will forward or deliver the properly completed union dues allotment authorization form, certified by the designated officials of the union, to the servicing CPO.

(1) The servicing CPO will transmit the completed authorization form to the servicing KN payroll office within three (3) workdays after receipt.

(2) The servicing KN payroll office will begin deducting the union dues for the first full pay period after the completed authorization form is received in the payroll office from the servicing CPO.

b. An employee who authorized deductions of union dues may request revocation of deductions at any time by submitting a completed USFK Form 101EK (Cancellation of Payroll Deductions for Labor Organization Dues) or other written request in triplicate and submitting it to the servicing CPO (Article 15 of the Labor Management Agreement between USFK and USFK KEU dated 27 Sep 2011).

(1) The CPO will transmit one copy of the revocation request to the KEU within three (3) workdays after receipt and in accordance with 'Article 15 of the Labor Management Agreement between USFK and USFK KEU dated 27 Sep 2011' send two copies to the servicing KN payroll office within 2 weeks after the date the CPO receives the revocation request.

(2) The servicing KN payroll office will discontinue the deductions of union dues from the employee's pay at the beginning of the third full pay period from the time the revocation request is received in the servicing KN payroll office (**Example:** On 15 Sep the revocation request is received in the servicing payroll office, 1 Oct is beginning of 1st subsequent full pay period, 1 Nov is beginning of 2nd subsequent full pay period, and 1 Dec is beginning of 3rd subsequent full pay period. So the responsible KN payroll office would stop the employee's union deductions as of 1 Dec).

c. The responsible USFK KN payroll office will terminate an allotment for union dues when a KN employee is separated from employment, except when the employee transfer or reassignment would not involve changing the employee from one servicing USFK payroll office to another. See paragraphs 10-3d and 10-3e below for applicable guidance when a USFK KN employee's transfer or reassignment involves changing the employee from one servicing USFK payroll office to another.

d. Union dues allotments will also be terminated based on receipt of written notification from the KEU that the employee has resigned or has been suspended/expelled from the KEU. In accordance with 'Article 15 of the Labor Management Agreement between USFK and USFK KEU dated 27 Sep 2011', termination of union dues allotments in this case will be effective the first full pay period after receipt of the notification in the payroll office.

### **10-3. Union Dues Deduction**

The formula for calculating union dues under the monthly pay cycle is  $0.009 \times$  the union member's basic pay for 173 hours per month. Basic pay includes Base Pay + CAP + PIK + BA. Therefore, the formula for union dues under the monthly pay cycle would be as follows:  $0.009 \times 173$  base pay hours  $\times$  hourly rates for Base Pay + CAP + PIK + BA. Meanwhile, the formula for calculating union dues under the 4-week pay cycle would be calculated as follows:  $0.009 \times 160$  base pay hours per pay cycle  $\times$  hourly rates for Base Pay + CAP + PIK + BA.

a. Changes in the amount of union dues because of wage adjustments (for example, for annual wage increases, changes in pay grade levels, or movement of positions between different wage schedules) will be put into effect in the first pay period after the effective date of the wage adjustment.

b. The employee will not be required to resubmit a union dues allotment authorization form if the employee's transfer or reassignment would not involve changing the employee's servicing USFK payroll office from one to another, or to implement changes in the union bylaws.

c. When a KN employee is transferred or reassigned between USFK activities that have different servicing KN payroll offices, the losing payroll office will forward the related union dues allotment authorization form to the gaining payroll office.

d. The CPO processing a personnel action that would involve changing the employee's servicing USFK payroll office from one to another will enter in the remarks section of the personnel action, either of the following statements, as applicable.

(1) Comments if Personnel Action Prepared by Losing CPO. INSTRUCTIONS TO PAYROLL OFFICE: Deduction of union dues will be continued. The union dues allotment authorization form must be transferred to (gaining payroll office).

(2) Comments if Personnel Action Prepared by Gaining CPO. INSTRUCTIONS TO PAYROLL OFFICE: Deduction of union dues will be continued. The union dues allotment authorization form must be transferred from (losing payroll office).

e. The losing KN payroll office will forward the related union dues allotment authorization form within 3 workdays after receipt of the personnel action. The gaining KN payroll office will deduct union dues effective the first full pay period after the date the union dues allotment authorization form is received in the payroll office from the losing payroll office.

### **10-4. Remittance of Dues**

The total amount of union dues withheld will be transmitted by the withholding agent to the union NLT 40 working days from the close of each pay period.

a. The remittance of union dues will be made by electronic deposit or check for Korean won, as appropriate, to the USFK KEU bank account designated by the KEU.

b. All withholding agents will prepare and submit to the KEU a list reflecting the name of the activity, each employee's name, the amount of union dues deducted from each employee, and the total amount remitted to the KEU for every pay period.

### **10-5. Voucher Transactions**

a. The total amount of union dues withheld for each pay period will be credited to the applicable

deposit fund account.

b. The total amount of union dues shown in U.S. dollars and Korean won will be disbursed on SF 1049 (Public Voucher for Refunds) or on another appropriate form.
