Aviation

REQUESTING AND ALLOCATING ARMY AVIATION SUPPORT

*This regulation supersedes USFK Regulation 95-4, dated 06 November 2014.

FOR THE COMMANDER:

JAMES C. SLIFE
Major General, USAF
Deputy Chief of Staff

OFFICIAL:

GARRIE BARNES
Chief, Publications and Records Management

Summary. This regulation prescribes peacetime procedures for requesting Eighth Army aviation support for mission, administrative, and civil/military emergency missions. Priorities are governed by Department of Defense Directive 4500.56.

Summary of Changes. This regulation has been substantially changed. A full review of its contents is required.

- Updated the duty title (para 2-1a).
- Updated approval authority (para 2-1a(2)).
- Deleted Mission Requirement Travel (para 2-2a).
- Updated Spouse Travel in accordance with current DoDD.
Deleted reference to enclosure 2.

Inserted procedures for US Forces flying in ROK aircraft.

Updated table 2-1.

Updated table 2-4.

Updated H-264 procedures and requirements.

Updated chapter 2-5 timeframes and approval authorities.

Updated mission request procedures and submission requirements.

Added minimum information on All AMR requests.

Updated notification procedures for Medical Requests.

Revised all procedures for Emergency Requests for Aviation Support.

Added Aviation Quick Reaction Force flow chart.

Added para c. to Helicopter Fire Fighting Assistance.

Updated appendix B.

Applicability. This regulation applies to Headquarters (HQ), United States Forces Korea (USFK), component commands, visiting units, and forces under operational control of HQ USFK using Eighth Army aviation assets. This regulation also applies to all USFK and Republic of Korea military personnel requesting United States aviation support when emergency conditions exist and life is in jeopardy. This policy also applies to travel for senior foreign officials when such travel is in the primary interest of the Department of Defense. Travel in support of service component missions must follow service component guidance. This regulation is not applicable to a combatant or hostile situation. During hostilities, the provisions of United Nations Command /Combined Forces Command Regulation 525-4 for aviation support in a hostile situation will be followed.

Supplementation. Issue of supplements to this regulation by subordinate commands is prohibited unless prior approval is obtained from HQ USFK (FKJ3), Unit #15236, APO AP 96205-5236.

Forms. USFK forms are available at http://www.usfk.mil.

Records Management. Records created as a result of processes prescribed by this regulation must be identified, maintained, and disposed of according to AR 25-400-2. Record titles and descriptions are available on the Army Records Information System website at https://www.arims.army.mil.

Suggested Improvements. The proponent of this regulation is the Office of the Assistant Chief of Staff, J3. Eighth Army G3 AVN will serve as the custodian of this regulation on behalf of USFK J3.
Users are invited to send comments and suggested improvements on DA Form 2028 (Recommended Changes to Publications and Blank Forms) to the Commander, Eighth Army G3, Unit #15236, APO AP 96205-5236.

**Distribution.** Electronic Media Only (EMO).

Glossary, page 25
Chapter 1
Introduction

1-1. Purpose
This regulation stipulates peacetime procedures for requesting Eighth Army (8A) aviation support for tactical, administrative (including logistical operations), and civil/military emergency missions. Priorities are governed by Department of Defense Directive (DoDD) 4500.56.

1-2. References
Required and related publications are listed in appendix A.

1-3. Explanation of Abbreviations
Abbreviations used in this regulation are explained in the glossary.

1-4. General Policy
It is the policy of the Department of Defense (DoD) that transportation resources are to be vigorously managed to prevent both misuse and the perception of misuse. Travel must be directly and clearly related to mission achievement. Military Air (fixed wing) should not be used if commercial airline or aircraft (including charter) service is reasonably available, as specified in DoDD 4500.56.

Chapter 2
Responsibilities

2-1. Responsibilities

a. The Director, Eighth Army (8A) G3 Aviation shall –

(1) Serve as the custodian of USFK Regulation 95-4 on behalf of USFK J3.

(2) Coordinate the allocation of Army Aviation assets to support operations within the Republic of Korea (ROK). Serve as the first approval authority, for all Air Mission Requests (AMRs) submitted to Eighth Army for resourcing (may be delegated to the G3 Aviation Deputy).

(3) Resolve questions of priority with the Eighth Army Chief of Staff when requests for air travel exceed resources allocated in paragraph 2-5.

(4) Facilitate the processing and validation of AMRs to include all exceptions to policy (ETPs) and other special approvals requested from the Commanders and Senior Staff Officers of Eighth Army, United States Forces, Korea (USFK), and their higher headquarters.

b. The Commander, 2nd Infantry Division (2ID), shall support the operations of United Nations Command (UNC)/Combined Forces Command (CFC)/USFK, including military units, other nation forces, and subordinate commands under the operational control of CFC and USFK using the appropriate airframe(s) with regard to mission, safety, and cost effectiveness.

2-2. Use of Government Aircraft

a. Authorized Users of Government Air Travel. There are three general categories of Military Air use: Required use, Other Official Travel, Unofficial Travel. Non Reimbursable Spouse Travel
can be authorized under certain circumstances. Detailed descriptions are provided in paragraphs below.

b. Required Use. Designated travelers that require the use of military aircraft due to their continuous requirement for secure communications, security, or for responsive transportation to satisfy exceptional scheduling requirements. Per DoDD 4500.56, Commander, USFK is the only senior official in USFK designated as a required use traveler. All other requests to use military aircraft, to include flag/general officers and civilian equivalents, must meet the criteria listed in paragraphs c through e below.

c. Other Official travel. This category of travel is broader than mission requirement travel, but the purpose of which is to conduct DoD official business. Examples include, but are not limited to, attendance at conferences and meetings, making routine site visits to facilities, and giving speeches. This travel is normally accomplished by using commercial transportation. Other official travel will be approved on a case-by-case basis per PACOM Instruction 0614.6 and/or service policies.

d. Unofficial Travel. This category of travel is personal in nature, not for the performance of official military purposes. It may be authorized only in accordance with provisions in DoDD 4500.56 and DoD 4515.13, under very restrictive circumstances.

e. Non Reimbursable Spouse Travel. As a general rule, the spouse of an authorized traveler (the DoD Sponsor) may not travel on government aircraft without reimbursing the government for such travel. There are exceptions to this general rule. In each instance, the DoD Sponsor must determine in advance that, in his or her judgment under the circumstances, the spouse’s presence would further the interest of the DoD, the Military Service, or the command. Refer to DoDD 4500.56 for requirements authorizing spouse nonreimbursable travel on government aircraft. Case-by-case approval is required and may be subject to additional service policies, such as that found in USARPAC Policy Memorandum 11-30.

2-3. Passenger Eligibility
The subparagraphs below discuss common categories of eligible passengers and the approval authority for each. USPACOM Instruction 0614.6 enclosure 2 provides greater detail on the same. All passengers must meet eligibility and approval requirements in accordance with (IAW) DoD 4515.13-R. Table 2-1 provides an overview of common categories of passengers, the documents required to request travel and the applicable reference.

a. Active duty US military members and civilian employees are authorized travel on US Army aircraft for military duties that primarily benefit the US Armed Forces. For the purposes of this regulation, USFK Korean national employees (KGS/KWB) are considered to have the same status as DoD civilian employees. Korean Augmentation to the United States Army (KATUSA) personnel are considered to have the same status active duty US members.

b. Non DoD personnel may fly on a US Army aircraft, under certain circumstances, including public affairs orientation flights and support to gratuitous entertainers. Requests will be submitted as outlined in chapter 3 and must comply with PACOM or service policies.

c. Foreign national military and foreign civilian personnel may be authorized non-reimbursable travel on US Army aircraft when such travel is in the primary interest of the DoD and when other applicable regulatory requirements are met. Requests will be submitted as outlined in table 2-1, chapter 3, and appendix B. Request must be approved by the CDR, USFK or his designees.
d. Employees of DoD contractors may travel on military aircraft when the government contract states that the US Government will provide transportation. Otherwise, contractors will require an exception to policy.

e. Requests to support non-DoD federal agencies and/or foreign military forces may be approved as an exception to policy. Requests will be submitted as an exception to policy and routed through Eighth Army G-3 to the appropriate approval authority.

** CDR, USFK, CDR 7th AF, CDR USARPAC can approve spouse travel within their commands.
*** Non-DoD Civilian Foreign Passengers not in the primary interest of the DoD will must meet the requirements in 3-1 g.
2-4. Flight in Foreign-Owned (ROK) Aircraft

a. US Forces are authorized to fly as a passenger in ROK military aircraft given the following conditions are met:

   (1) Units will ensure that the Current Air Worthiness Certificate of Recognition is valid. Eighth Army G3 AVN shall maintain a copy of the most recent Air Worthiness Certificate of Recognition. Date of current Certificate of Recognition is valid from 26 September 2016 through 26 September 2020.

   (2) Authorization to approve US Forces flights on ROK aircraft shall not be delegated below the Battalion Commander (or equivalent for joint services) of the service member requesting the flight. Officers in the Grade of O-6 or above and NCOs in the grade of E-9 may self-approve the flight, but still must meet the accountability criteria stated below.

   (3) Battalions or Brigades shall account for US service members (O-6 and below) on the flight via a locally produced manifest. US Forces will not rely on ROK only manifests. Officers in the grade of O-7 and above may designate an alternate accountable office (such as their Secretary of General Staff). The manifest must include (at a minimum) the passenger(s) name, grade, take-off time and location, arrival time and location, ROK aircraft type and tail number.

   (4) The accountable agency shall maintain a direct telephonic method of communication with the ROK flying unit. The ROK unit must be willing and able to call the US unit in cases of emergency.

   (5) The flying service member(s) shall contact their accountable agency just prior to the flight departure and within 20 minutes of landing at the destination.

b. In the event that the current Air Worthiness Certificate of Recognition either expires or becomes void, US Forces will only be authorized to fly in ROK Military Aircraft (passenger only) on a case by case basis under the following conditions:

   (1) The requesting unit must conduct an Air Worthiness Appraisal IAW the DOD memorandum "Flight in Foreign-Owned Aircraft Implementation Guidance, dated 26 OCT 14.

   (2) The approval authority is no lower than the first General Officer in the requestor’s chain of command.

c. US Forces are not authorized to pilot or conduct crew duties on ROK military aircraft unless they are on Service Department level orders as part of an official exchange program.

2-5. Approval Authority for Airspace and Landing Zones

a. The P-518 and P-518 NFA geographical boundaries are defined in UNC/CFC/USFK Regulation 95-3. An overview of the P-518 NFA is depicted in figure 2-1. See table 2-2 for a list of missions into P-518 and the corresponding approval authority. Airspace requests will be submitted in accordance with UNC/CFC/USFK Regulation 95-3.
<table>

Figure 2-1. P-518 Overview
b. a. P-518W airspace is located to the west of P-518 over the Yellow Sea. The islands of Paek Ryung Do (PY Do) and Yeon Pyeong Do (YP Do) are located within this airspace. Requests to enter this airspace are forwarded to the Air Operations Center for processing. The final approval to enter this airspace is the ACC Commander, per ACC Regulation 60-8. Due to the extensive coordination required between multiple agencies, AMRs entering P-518W must be submitted fourteen days prior to the date of the mission.

P-518 WEST OVERVIEW

Figure 2-2. P-518 West Overview

...
higher Command Sergeants Major and each USFK service component's senior most enlisted leader, all others users require a waiver approved by the Eighth Army CoS.

(3) United Nations Command Military Armistice Commission (UNCMAC) monthly Right-of-Flight missions will use H-264 for pick-up and drop-off. The Right-of-Flight mission is the monthly exercise of the UNC Commander’s right to operate and maintain an airfield in the DMZ (H-128), as per Paragraph 13i of the Korean Armistice Agreement.

(4) Aircraft larger than H-60 size will use Echo Pad (Lombardo Field).

(5) Dual aircraft missions, which are defined as two aircraft on the same flight plan and supporting the same DV, into and out of H-264, are authorized only to support US and ROK O-9 (DV Code 4) or above and their civilian equivalents. All other flights shall be single aircraft flights. The Eighth Army CoS is the approval authority for a waiver for the policies above.

(6) H264 will be used IAW all the policies listed in the H-264 Airfield Operations Manual maintained by Yongsan Garrison. Direct questions about H-264, including H-264 Echo Pad, to H-264 Operations at 736-4710 or Eighth Army G3 Aviation Flight Operations at 723-4992.

d. Rotary wing flights to Incheon International Airport are governed by USFK Regulation 1-23, and must comply with DoD and service policy guidance. This regulation only allows flights for DV Codes 1 and 2. Exceptions may be granted in the cases of sensitive logistical cargo or when exceptional circumstances are involved. The Commander USFK or his designee is the approval authority for any exceptions to this policy.

2-6. 2ID Support to USFK and Eighth Army
The following levels of support to USFK units, Eighth Army units, and Distinguished Visitors (DV) to the ROK can be expected on a continuous basis. During exceptional circumstances, such as Code 1 or 2, additional assets will be allocated proportionate to the required level of support.

a. COMHAWK. Eighth Army provides three aircraft per day to support the USFK Commander.

(1) COMHAWK missions are coordinated directly between the USFK commander and supporting COMHAWK flight crew.

(2) The USFK Commander may authorize other staff and senior officials to use COMHAWK. These flights must comply with PACOM and service policies. Unless specified by the USFK CDR, users or action officers are not authorized to coordinate flights with COMHAWK. Authorized Senior Leaders will coordinate COMHAWK support as follows:

(a) Eighth Army G3 AVN will coordinate COMHAWK missions when it is not used by the designated Commander.

(b) The minimum processing time for a COMHAWK AMR is two working days prior to the requested flight. The two working day minimum processing time does not guarantee sufficient time to process AMRs requiring legal reviews or exceptions to policy, and specifically those that require approval at levels higher than Eighth Army or USFK. AMRs must be submitted within the timeframe specified in USFK Reg 95-4 para 3-1 to guarantee aviation support.

(c) AMRs requesting aircraft other than COMHAWK are not affected by this policy and will require submission no later than ten working days prior to the requested flight in accordance with USFK Reg 95-4, para 3-1.
b. Eighth Army provides additional four aircraft to support USFK and external units’ missions in the ROK. The aircraft are available subject to the approval of the Eighth Army Commander. The four aircraft are in addition to the COMHAWK aircraft in paragraph 2-5a. The Eighth Army Chief of Staff will approve additional aircraft and prioritize the mission requests if the daily allotted assets are exceeded.

Chapter 3
Mission Request Procedures

3-1. Mission Request Procedures

Missions executed by Eighth Army assets fall into three major categories: Operational Use, Special Use, and Operational Support Airlift (OSA). The category of air mission is important, as it ensures the request is properly prepared and conforms to applicable regulations.

a. Operational Use Missions: The complete definition of this mission can be found in paragraph 3-3 of AR 95-1. Operational Use Missions typically conducted by Eighth Army are real-world missions to support the Armistice, tactical military training, or to exercise command and control regardless of current defense conditions (DEFCON).

(1) The Aviation unit supporting this type of mission could be tasked with an AMR Form, an Operations Order, or a Fragmentary Order. The decision of how to task the supporting unit will be made based on the complexity and duration of the mission as well as the level of planning required to execute the mission. Depending on the complexity of the mission, the requestor may need to conduct an Air Mission Coordination Meeting rather than an AMR in order to collect the information necessary to execute.

(2) Training Missions requiring minimal prior planning such as sling load hook-up training, cold/hot load training, or troop movements without a tactical scenario may be supported with an AMR submitted 14 days prior to the date of execution. All other training missions must be submitted sixty days prior to the date of execution.

b. Special Use Missions: The complete definition of special use mission can be found in paragraph 3-4 of AR 95-1. Public Affairs missions are the primary special use missions executed by Eighth Army. Included are performances by DoD demonstration teams, flyovers of public affairs events, tactical demonstrations, aerial reviews, and static displays not on a military installation. Public Affairs Missions are governed by DoD 4515.13, Section 8.2, DoDI 5410.19 and AR 360-1 as well as guidance provided by HQ DA Office of the Chief of Public Affairs. A request for a Public Affairs Mission should be initiated ninety days prior to the planned event to ensure that it has adequate time to be routed through the extensive approval process. These requests require the following:

(1) DD Form 2535 must be completed by the requestor.

(a) The POC will sign as the "Event Site Certification" POC.

(b) Representative from the sponsoring organization (hosting the event) signs as the sponsor (usually a representative from G9).

(c) G3 AVN will sign as coordinating official.
(2) Once the legal review is signed and received, both of these documents (DD Form 2535-signed) are then submitted to G3 AVN.

(3) G3 AVN routes them through 2ID for 2ID CDR review and he/she RECOMMENDS approval or disapproval (safety survey required for off-site LZs).

(4) This signed memo is sent to G3 AVN and the packet is pushed through the following routing:

(a) G3 AVN OIC (reviewer).
(b) Eighth Army G3 CoS (reviewer).
(c) CG Eighth Army (approval for forwarding purposes to PACOM - AND signs memo).
(d) Packet forwarded to Chief of PAO for final approval OR PACOM CDR.

c. Operational Support Aircraft (OSA) missions are defined in DoDI 4500.43, Glossary, Part II Definitions. As specified by this regulation, OSA is a classification of airlift mission support to provide for the timely movement of limited numbers of priority personnel or cargo. This travel can be done on aircraft acquired or retained exclusively for OSA missions or on board other DoD owned or controlled aircraft, fixed or rotary wing. Per DoDD 4500.56, Para 4, all requests for the use of DoD aircraft must be signed by the senior traveling official. This signature authority cannot be delegated. Travel must be authorized by at least one organizational level above the person traveling except for individuals designated as required use travelers. Personnel must follow service policy regarding approval authority. Commander, USARPAC is the approval authority for missions supporting Eighth Army; Commander, USFK or his designee is the approval authority for missions in support of USFK missions.

d. Units will request the use of rotary-wing transportation only when the use of ground transportation would have a significant adverse effect on the ability of a senior official to accomplish the purpose of official travel or if any one of the conditions listed in AD 2007-01, para. 5a, is met. This policy applies to all DoD employees.

e. Eighth Army G3 AVN will review each AMR to ensure that it complies with all applicable regulations. The processing procedures outlined in this regulation provide procedures to process common AMRs. AMRs that fall outside of these guidelines will be handled on a case by case basis. In addition to legal reviews specified in this regulation, Eighth Army G3 aviation will request a legal review for any mission that could be or appear to be a misuse of government resources.

f. Submission of all AMR's (excluding 2ID and subordinate MSC's) will be through the SharePoint Portal located at: https://army.deps.mil/army/cmds/8A/G3AVN/Pages/AMR.aspx, or by submitting a DD Form 2768 to the Eighth Army G3 Aviation Flight Operations Officer, DSN 315-723-4992, email: usarmy.yongsan.8.army.list.g3-avn-amr@mail.mil or mail to Unit #15236, APO AP 96205-5236, NLT ten (10) business days prior to the date of the mission.

(1) The ten (10) business day requirement will ensure that the AMR has sufficient time for processing and coordination at each headquarters up to and including the headquarters of the appropriate approval authority.
(2) Eighth Army G3 AVN may process General Officer AMRs with a shorter lead time on a limited case by case basis, but NLT five (5) business days prior to the date of the mission.

(3) Any AMR request less than five (5) business days prior to mission execution will require the requesting unit’s Chief of Staff or XO to contact the 8A Chief of Staff for approval to begin the AMR process.

(4) Any AMR request less than one (1) business day prior to mission execution will require the unit’s commanding officer to contact the 8A Commanding General for approval to begin the AMR process.

(5) All AMRs will include the following information at a minimum:

(a) Date Time Group of the requested mission

(b) Mission Location

(c) Point of Contact (POC) Information

(d) Senior passenger name and grade

(e) Mission description

(f) Justification for the use of aircraft

g. For reimbursable aviation support requests by foreign militaries (i.e., requests not in the primary interest of DoD), such requests will follow procedures outlined in USFK Regulation 12-16 and/or relevant acquisition and cross-servicing support agreements. USFK J4 will coordinate the agreement for reimbursement prior to approval of the mission.

h. Any required aircrew temporary duty costs (TDY) will be funded by the supported activity/agency. Supporting aviation unit commander will determine if aircrew will incur TDY costs.

i. Prohibited uses. When the destination is less than one hour ground travel time, one way, air transportation is not authorized. Flights between points in the P-518 Tactical Zone Exemption area and within the Hwy 100 Beltway are not authorized. See figure 3-1 for an overview of above referenced locations. Exceptions to this policy may be granted by the CoS USFK.
j. The following policies apply:

(1) The requestor of an air mission must provide justification for the mission so that the priority of each mission can be weighed against others competing for support during the same timeframe. When Eighth Army G3 AVN receives more AMRs than can be supported, the Eighth Army CoS shall decide which missions are supported based on priority. The Eighth Army CoS may delegate this authority to the Eighth Army G3 or the Eighth Army G3 AVN Director. This priority will be based on justification provided by the requestor. The rank of the senior traveler, alone, will not be used as justification for priority.

(2) An approved AMR is an agreement to transport a traveler from a specified pick-up zone to a specified Landing Zone at a designated time. It does not guarantee a specific aircraft type or a dedicated flight. The supporting aviation unit is authorized to consolidate requests for travel and support those requests with the airframe best suited to execute the mission.
(3) Passengers must be on time for scheduled flights. If passengers do not arrive within 20 minutes after the scheduled departure time, the flight will be cancelled unless the flight is in support of general officers or the equivalent rank. Ground time for intermediate stops by the C-12 will normally not exceed 30 minutes except when in support of general officers or the equivalent rank.

(4) All requestors will notify the supporting aviation organization and Eighth Army G3 AVN when scheduled support is no longer required.

(5) AMRs will be submitted in accordance with the deadlines provided in this regulation. Failure to observe these deadlines could result in mission disapproval. This could be the result of insufficient time to process the request through the required levels, or the supporting unit being unable to schedule aircraft and qualified crews.

(6) To ensure military air travel is in the best interest of USFK and the DoD, travelers visiting the USFK AOR must be authorized to use military air travel by one of the following documents:

(a) Invitational Travel Authorization: non DoD federal employees, US and foreign civilians, foreign military.

(b) Travel Orders: military and DoD civilians.

(c) Congressional Travel Orders issued by the Office of Congressional Travel: members of congress and their staff.

3-2. DEFCON 4 Priorities
During DEFCON 4 the priorities shown in table 3-1 shall be used for aircraft support within the geographical boundaries of the ROK.

3-3. Medical Evacuation Requests

a. MEDEVAC Availability. Eighth Army provides continuous area support MEDEVAC coverage to USFK throughout the Republic of Korea during armistice. Armistice area support MEDEVAC coverage is provided from Camp Casey and Camp Humphreys. Additional direct support MEDEVAC coverage is available to USFK units and transitional US military units operating outside the response range of the current MEDEVAC coverage. Direct support MEDEVAC coverage requests are made through Eighth Army G3 Aviation.

b. Submit immediate evacuation requests for all US military units outside of the current MEDEVAC response range through Eighth Army Watch.

c. Eligible Patients. Requests for Medical Evacuation (MEDEVAC) are submitted through the appropriate medical channels to the nearest MEDEVAC support unit in accordance with DoD regulations.

d. Eligibility.

(1) Criteria. The following criteria will be strictly adhered to in determining MEDEVAC eligibility for US civilians and foreign nationals who are not otherwise eligible patients in accordance with DoDI 6000.11, Patient Movement, and DoD 4515.13, Air Transportation Eligibility. The following criteria apply to patients that are on a U.S. government installation or off-installation patients, when the injury or illness is directly related to the U.S. Government operations within the area. MEDEVAC eligibility is met if any one of the following apply:

   (a) The patient’s illness or injury involves an immediate threat to life, limb, or eyesight.

   (b) The patient is located where medical capabilities for adequate diagnosis and treatment, under generally accepted medical standards, are not available. MEDEVAC shall be provided only to the nearest medical facility that can provide the necessary medical capability.

   (c) Suitable commercial and ROK government or military MEDEVAC services are not available or inadequate. If the ROK government or military requests the MEDEVAC, the request must contain a statement that the ROK government and military MEDEVAC services are not available or incapable of performing the MEDEVAC mission.

   (d) There must be a written commitment on behalf of the patient to reimburse the DoD for MEDEVAC costs, unless the patient’s injury or illness is directly related to US Government operations. The commitment must indicate the agency or individuals responsible to reimburse the DoD and provide a specific name and address for direct billing of transportation and enroute medical charges at the applicable tariff rate. In extremely rare cases, the Department of State
(DOS) may authorize MEDEVAC services and reimburse the DoD for MEDEVAC costs when the DOS finds that such patient movement is in the national interest.

(2) Procedures.

(a) Requests for MEDEVAC of civilians and foreign nationals must be submitted to the Emergency Operations Center (EOC) at Command Center Seoul using USFK Form 107EK-R-E (MEDEVAC Request Worksheet).

   i. The MEDEVAC request must state that suitable commercial and ROK government or military MEDEVAC services are not available or inadequate.

   ii. If requested by the ROK government or military, the request must contain a statement that the ROK government and military MEDEVAC services are not available or incapable of performing the MEDEVAC mission.

   iii. If the patient is a foreign national, the request must contain a comment on the behalf of the patient of who will reimburse the DoD for the MEDEVAC costs. The reimbursing official must be identified by name and address for billing of transportation costs.

(b) The EOC will verify whether the MEDEVAC request contains the correct statement and commitment.

(c) EOC will contact the USFK/Eighth Army Surgeon’s Office, who will make a preliminary determination on whether the patient is eligible for MEDEVAC. The Eighth Army Watch Team shall be notified for tracking purpose.

(d) If the patient’s injury or illness is directly related to US Government operations, J3/7 or CoS, USFK has approval authority for the MEDEVAC request.

(e) If the patient’s injury or illness is not directly related to US Government operations, USFK/Eighth Army Surgeon’s Office shall contact the Pacific Theater Patient Movement Requirements Center (TPMRC) to request permission to order the MEDEVAC mission for inter-theater patient movement.

(f) If the patient is a US civilian, the Pacific TPMRC has approval authority for inter-theater patient movement.

(g) If the patient is a foreign national, the TPMRC seeks DoS approval for inter-theater patient movement.

(h) Nothing in this regulation should be construed as preventing the Commander, USFK from undertaking prompt relief operations when time is of the essence and when humanitarian considerations make it advisable to do so in response to a disaster in the ROK. Further instructions and definitions are found in DoDD 5100.46.

3-4. Civil/Emergency Medical Request Procedures

   a. The Command Center Seoul shall--

      (1) Accept and evaluate requests for civil emergency aviation support. If the request is for ROK support, Command Center Seoul will refer it to the ROK Army Tactical Operations Center
(ROKATOC) through the ROK Joint Chiefs of Staff Duty Director of Operations. ROKATOC will then coordinate with ROK civil and military authorities for support. If ROK civil or military support is unavailable and it is determined that US support may be required, ROKATOC will advise the Command Center Seoul duty officer. The duty officer will then obtain Commander, USFK approval.

2. Provide advance notification as a (WARNO) to the Eighth Army Watch duty officer that an emergency situation is being processed by ROKATOC which may require US Army aviation support.

3. Obtain the necessary Republic of Korea Tactical Zone (RK) P-73 clearance from the Capital Defense Command through the ROK Duty Director of Operations if the request is for US Army aviation support inside RK P-73.

4. Pass the approved request for aviation support to the Eighth Army Watch duty officer. The request will include--

   (a) Support requested.
   (b) Location.
   (c) The RK P-73 clearance (if applicable).
   (d) Name and title of requesting officer at Command Center Seoul.

5. Contact the 7th Air Force Senior Operations Duty Officer at the Tactical Air Control Center to notify US Air Forces, Korea and the Korea Combined Rescue Coordination Center, if--

   (a) Requesting support in excess of Eighth Army aviation capabilities.
   (b) The request is in support of US forces other than the US Army during aircraft accidents.
   (c) The request is in support of civil or military disasters (e.g. flood relief, mass casualty).

6. Requests for 7th Air Force support will include--

   (a) Name, title, and telephone number of requesting official.
   (b) Location, time of occurrence, and nature of emergency.
   (c) Number and nationality of personnel involved.

7. Obtain the following information, at a minimum, from the ROK controlling unit at the scene through the ROK liaison officer (LO) when ROK and US assets will be committed simultaneously:

   (a) Identification of controlling unit at the scene.
   (b) Location of the controlling unit.
   (c) Point of contact at the scene.
(d) All necessary frequencies and call signs being used by the controlling unit.

(e) They identity of other aircraft committed to the emergency by type, number and call-sign.

(f) The RK P-73 clearance if required.

(g) Any special instructions.

b. The Eighth Army Watch Officer (or designated representative) will--

(1) Provide advance notification as a (WARNO) to the 2ID DTOC that an emergency situation is being processed by ROKATOC which may require US Army aviation support.

2ID DTOC:
(a) Determine if 2CAB aircraft have the capability support the mission.

(b) Designate the unit that will provide support.

(c) Provide information to Eighth Army Watch with a ready to launch status.

(2) Inform the ACoS, G3/5/7/9, of the situation.

(3) Alert the selected aviation unit to prepare for the mission but not to dispatch the aircraft until the applicable steps in paragraph 3-4a, are completed and the unit has received the information.

(4) Obtain the identity, call sign, and frequency of the air traffic control agency or unit controlling the aircraft participating in the emergency from Command Center Seoul and inform the supporting aviation unit.

(5) Confirm clearance has been given by the airspace controlling agency if operations are to be inside the RK P-73. Provide the supporting unit the frequency and call sign of the controlling agency or the air-to-air frequency and call sign of other participating aviation units.

(6) Inform the Command Center Seoul duty officer of action taken.

(7) Inform the Command Center Seoul duty officer if the request for Eighth Army aviation support is in excess of its capabilities.

3-5. Emergency Requests for Aviation Support

a. Aviation support may be required on short notice to support theater contingencies. Examples of such requirements include; movement of Explosive Ordnance Disposal (EOD) teams in response to explosive hazards on US installations, movement of military police Special Reaction Team (SRT) in response to a force protection requirement, or movement of the Communications Emergency Response Team (CERT) in response to a disruption of mission essential communications across the peninsula. The following outlines the procedures to support short notice emergencies using the Aviation Quick Reaction Force (AV-QRF):
b. 2ID will provide AV-QRF response capability from 2nd Combat Aviation Brigade (2CAB) in support of EOD, SRT or CERT emergency operations as follows:

(1) Eighth Army CoS or designee will be the mission approval authority for all missions requiring AV-QRF. Final Launch authority is the 2CAB Commander or Designee.

(2) For emergency EOD incidents on all installations except Osan AB and Kunsan AB, 2ID will provide one (1) UH-60 with an aircrew for transportation of an EOD team (Standard Team Consists of four (4) soldiers with approximately 600 lbs of equipment) to and from the incident. Pickup point for the EOD team is Yongsan (H-264).

(3) For emergency SRT incidents on all installations except Osan AB and Kunsan AB, 2ID will provide one (1) UH-60 with an aircrew for transportation of one eleven (11) soldier team with approximately 600 lbs of equipment to and from the incident. Pickup point for the SRT is Yongsan (H-264).

(4) For the CERT’s emergency response to a disruption of mission essential communications across the peninsula, 2ID will provide one (1) UH-60 with an aircrew for transportation of a CERT team (Standard Team Consists of nine (9) soldiers with approximately 600 lbs. of equipment) to and from the incident. Pickup point for the CERT is Yongsan (H-264).

(5) The AV-QRF will be on a one hour notification-to-launch standby during normal duty hours and three hour notification-to-launch standby after duty hours. The aircrew will inspect all Class V required for incident response prior to transport, IAW DA Pamphlet (PAM) 385-64.

(6) EOD, SRT and CERT will request AV-QRF support telephonically through Command Center Seoul or the 8A Watch @ 723-6876 / 2118.

(7) 8A Watch, 2ID and 2CAB will maintain a battle drill to execute emergency requests of aviation support.

(8) On order, 2CAB will provide backup support requirements in the event that one team is unable to accomplish the mission.
Aviation Quick Reaction Force (AV-QRF)
Flow Chart

Incident

Activation of Supporting Asset
(EOD / SRT / CERT)

Supporting Asset determines if AV-QRF is most advantageous means of transportation.

Supporting asset assembles WARNO and disseminates as much information as possible to 8A Watch Team. 8A Watch will pass WARNO to 2ID DTOC.

8A Watch Team notifies 8A CoS. 8A CoS makes decision to activate AV-QRF.

2ID DTOC disseminates the order to 2CAB EOC and notifies 8A Watch.

Figure 3-2. Aviation Quick Reaction Force (AV-QRF) Flow Chart
3-6. On-Scene Controlling Agency
In case of a major emergency when ROK and US assets are committed simultaneously, the controlling agency will be the ROK unit at the scene as designated by the ROK Joint Chiefs of Staff. The US unit designated to support the ROK is authorized to coordinate directly with the controlling unit and exchange liaisons as required.

3-7. After Action Report
The US unit providing aviation support during the civil or military emergency will forward an after action report to the Commander, Eighth Army, Unit #15236, APO AP 96205-5236, within twenty days of completing the mission.

3-8. Surveillance and Photographic Requests
Requests for aircraft to provide surveillance or photographic missions will be submitted to the Chief of Staff, USFK, ATTN: FKJ2-M, Unit #15237, APO AP 96205-5237.

3-9. Helicopter Fire Fighting Assistance

a. Eighth Army will maintain limited aerial firefighting capability utilizing fire buckets, commonly known as “Bambi buckets”, with UH-60 or CH-47 helicopters. Employment of this capability is intended to fight range fires caused by US Army actions. Other employment will be considered on a case-by-case basis. Helicopter firefighting assistance SHALL NOT be used to fight volatile or hazardous material fires or fires in built up areas.

b. Commander, 2CAB will maintain a minimum of two operational 660-gallon fire buckets and qualified aircrews capable of employing these devices (UH-60 capability) and a minimum of three operational 2000-gallon fire buckets and qualified aircrews capable of employing these devices (CH-47 capability).

c. Requests for helicopter firefighting support for fires, including fires in the NFA, that are a result of US Army actions will be made through firefighting channels to the 8A Watch Team for tasking to 2ID. Support for fighting fires caused by US components other than the US Army is made through the appropriate channels to Eighth Army Watch and forwarded to Command Center Seoul for approval by the J3 USFK. Approval for ROK government requests is through J3 to the CoS, USFK. Reimbursement for fighting fires other than those caused by US Army actions is IAW 10 USC 2350c and the US Army Program Budget Guidance.

3-10. Conflicts
All questions or conflicts concerning air transportation eligibility or approval authority for transportation on DoD-owned and controlled aircraft will be resolved IAW DoD 4515.13-R and 10 USC §2350c. DoD 4515.13-R will have precedence over any inconsistent guidance in this regulation.

Appendix B
Template Descriptions
This appendix contains examples of commonly used memorandums to grant or request exceptions to policy. The most updated versions of these are available digitally on the 8A G3 AVN SharePoint page.

B-1. Foreign Passenger Exception to Policy
The requestor will prepare a memorandum for the USFK Commander, 8A Commander, or USARPAC approval authority as required to grant the passenger permission to fly aboard an US Army aircraft. A legal review, initiated by the requestor, is required to ensure that the requested flight directly benefits the United States. USFK Staff Judge Advocate Administrative Law Office will endorse all legal reviews prior to forwarding the request to USFK Commander, 8A Commander, or USARPAC approval authority for approval. The foreign passengers listed below do not require special approval to fly on army aircraft:

a. KATUSA
b. KGS Employees
c. Officer on the US Officer Exchange Program.
d. ROK Aide assigned to a US Military General or Flag Officer, only if an authorized official has issued a blanket delegation of approval authority IAW DoDD 4500.56 and USPACOMINST 0614.6. The approval of the ROK Aide must be in the primary interest of the DoD, in support of the mission, and comply with all applicable travel regulations.

B-2. Foreign Passenger Blanket Exception to Policy
Foreign passengers who travel regularly may be granted a waiver lasting 12 months by the CDR, USFK or his designated representative.

B-3. US Non DoD Civilians
A non DoD Civilian is a United States Citizen who is not employed by the Department of Defense. The requestor will prepare a memorandum for the USFK Commander, 8A Commander, or USARPAC approval authority as required to grant the passenger permission to fly aboard an US Army aircraft. A legal review, initiated by the requestor, is required to ensure that the requested flight directly benefits the United States. USFK/Eighth Army legal office will endorse all legal reviews prior to forwarding the request to the appropriate approval authority. Civilians travelling from Washington, D.C. generally require approval from the Office of the Secretary of Defense. Contact 8A G3 AVN for more details.

B-4. Flight Less Than 1 Hour Ground Travel Distance
Flight where the initial passenger pick-up point is less than a one hour ground travel distance from the final drop-off point is prohibited. CDR, USFK or his designee may waive this prohibition on a case by case basis. This prohibition applies to both mission requirement and other official use travel. Generally speaking, exceptions to policy will only be granted for high priority missions, and for senior officials when it is determined that, under the circumstances, the use of ground transportation would have a significant adverse impact on the ability of a senior official (O-7 or above or SES) to effectively accomplish the purpose of the official travel. This policy does not waive the requirement established in USPACOM Instruction 0614.6 para 6b and DoDI 4500.43 para 4a(2) that mission impact is the primary justification used to authorize this travel, not rank or position of the traveler alone. Justification for this waiver must ensure compliance with the above referenced regulations.
B-5. Accompanying Spouse Flights

Spouses of a Military Service member may fly on DoD aircraft with their sponsors, on a case-by-case basis, with the approval of the appropriate authority. DoD 4515.13 specifies that certain 4 Star Generals/Flag Officers may approve travel for their spouses and the spouses of service members within their commands. The following Generals/Flag Officers within the PACOM AOR may approve travel for their spouses and the spouses of service members within their Commands: CDR USFK, COMSEVENTHFLT, CDR USARPAC, CDR MARFORPAC and CDR PACAF. The sponsor must personally sign each request. Upon approval, the requesting command will issue the spouse an invitational travel authorization that will accompany the air mission request. Blanket travel orders are not authorized. Strict adherence to accompanying spouse travel criteria as found in DoDD 4500.56, DoD 4515.13, Army Directive 2007-01 and other applicable regulations is required.
